

Muscle synergies: a compact way to describe and restore motor coordination

Diego Torricelli

Neural Rehabilitation Group, CSIC, Madrid, España

Coordination and strength metrics for the measurement of motor performance of stroke patients

Álvaro Costa

Intelligent Behavior Control Unit, RIKEN Institute, Nagoya, Japón

Surface and intramuscular electromyography for interfacing spinal motor neurons

Silvia Muceli

Biomedical Signals and Systems, Chalmers University of Technology, Gotemburgo, Suecia

RECENT ADVANCES IN EMG ANALYSIS: APPLICATIONS TO NEUROREHABILITATION

Diego Torricelli

Álvaro Costa

Silvia Muceli

Salón de Actos EPS1
Lunes 9 diciembre 16:00-19:00
