

UPLIFT DESK®

PRICE BOOK + SPECIFICATION GUIDE

Spring 2021

A Healthier, Happier Work Environment Starts Here

At UPLIFT Desk, we understand that your office needs are as individual as each user. Let us create an ergonomic solution for your team. From private offices to open floor plans, we'll be with you every step of the process. As your partner, we offer free delivery, design planning services, a 30-day trial, and a 15-year warranty on standing desks, as well as financing options. For a full breakdown of warranties for all the products featured in this guide, visit the [warranty page](#) on our website.

The process begins with a phone call or email to our team, and it's followed by an in-person visit. Our team will work with you to craft a plan that solves the pain points you're experiencing with your current office. If an in-person meeting isn't possible, we'll request a CAD file to get a better understanding of your space.

Once a design has been agreed upon, we'll begin with pricing and financing options, then set an installation date. We can turn around projects from conception to installation in as little as 14 days. After your new office is complete, we'll follow up to ensure everything is perfect.

Give us a call; we're looking forward to working with you.

Save Money and Time

We cut out the middleman and pass the savings on to you. All orders ship free.

Empower Your Workforce

Improve employee retention with a happier, healthier, and more productive workplace.

Plan for Growth

Flexible, scalable solutions designed to evolve with the ever-changing needs of your business.

A LETTER FROM THE CEO

Dear Friend,

Welcome to UPLIFT Desk, a global leader in standing desks and ergonomics. Our mission at UPLIFT Desk is simple; we're here to provide the best selection of beautiful, functional, sustainable, and affordable standing desks and ergonomic furniture to enable you to work better and live healthier.

The adverse health effects from a sedentary lifestyle are well documented. Our bodies were built to move, and standing intermittently throughout your workday at a properly height-adjusted desk can lead to better overall health and increased productivity. We're thrilled that UPLIFT desks are helping hundreds of thousands of people worldwide improve their lives. Our desks have assisted Google, Boeing, Apple, JP Morgan Chase, AT&T, and Microsoft (to name a few) in creating a healthier work environment for their employees.

At UPLIFT Desk, we have a tireless commitment to handling manufacturing, retail, and fulfillment directly. This allows us to cut out the middleman and offer lower prices than our competitors. We also offer free shipping on every order, a 30-day trial, and a 15-year warranty on all of our products, in addition to bulk discounts and free desk accessories.

Additionally, we are a U.S. General Services Administration (GSA) contract holder and are proud to provide industry-leading ergonomic furniture and accessories to federal, state, and local government agencies and organizations in the United States. We have ergonomic solutions for any office, including those with ANSI/BIFMA standard requirements. You can refer to our products on [GSAAdvantage.gov](https://www.GSAAdvantage.gov).

We hope you consider UPLIFT Desk for your office furniture needs in the future. If you're ever in Austin, Texas, be sure to stop by and say, Howdy.

Sincerely,

Jon Paulsen
President, CEO

UPLIFT V2 Standing Desk Frame

The [UPLIFT V2 Standing Desk Frame](#) boasts a carrying capacity of 355 lb, sturdy steel construction, and cast-aluminum feet. C-shaped and T-shaped feet are available for desks with desktops 30" and deeper, while shorter C-shaped feet are also available for desks with desktops 24" deep. C-shaped feet allow more room for accessories. This three-stage frame delivers 25.6" of height adjustment and is 33% faster to adjust than a two-stage frame

This frame features dual soft start/stop motors (one in each leg), an energy-efficient low-draw transformer, and a control box with collision detection for safety. A telescoping upper crossbar is positioned directly where the base meets the desktop. The frame adjusts to fit desktops from 42"-80" wide and 24"-30" deep. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

Specifications

[See complete spec sheet here](#)

- Height Range: 24.5" - 50.1" H
- Travel Speed: 1.57" per second
- Noise Level: 50 decibels during motion
- Frame Width: 41.3" min - 72.2" max
- Weight Capacity: 355 lb
- Control Box Input: 100-120Vac, 50/60Hz, 400W

Colors

Pictured: C-Frame and T-Frame Frame Styles

Only C-Frames are available in 24" foot style

A GUIDE TO THE UPLIFT V2 Standing Desk Frame SKU

This example is for a black UPLIFT V2 Standing Desk C-Frame with 27" feet.

| | Additional Information | Foot Style & Size | SKU | Weight | \$ Price |
|--|---|-------------------|--------------------|-------------|----------|
| | • Meets BIFMA X5.5-2014 Durability Standard | C-Frame, 27" feet | KIT-FRMA-2-C27-XXX | 55 lb 10 oz | \$549 |
| | • Available in Black, White, Gray, and Industrial Style | C-Frame, 24" feet | KIT-FRMA-2-C24-XXX | 55 lb 10 oz | \$549 |
| | | T-Frame, 27" feet | KIT-FRMA-2-T27-XXX | 55 lb 10 oz | \$499 |

UPLIFT V2-Commercial Standing Desk Frame

The [UPLIFT V2-Commercial Standing Desk Frame](#) has a height range of 22.6" - 48.7" (with a 1" desktop installed) and a lifting capacity of 355 lb. C-shaped and T-shaped feet are available for desks with desktops 30" and deeper, while shorter C-shaped feet are also available for desks with desktops 24" deep. C-shaped feet allow more room for accessories.

This frame has a lower starting height, a lower max height, and a broader overall height-adjustment range, compared to the UPLIFT V2 Frame. We designed this frame to meet the ANSI/BIFMA G1-2013 height standard.

Because of its greater height adjustment range, we added a lower crossbar for increased stability. The UPLIFT V2-Commercial Frame supports ergonomic working postures in both seated and standing positions. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

UPLIFT V2 L-Shaped Standing Desk Frame

The [UPLIFT V2 L-Shaped Standing Desk Frame](#) comes with two C-shaped feet and one upright support leg for a setup that can be configured based on the user's needs. The width-adjustable frame supports larger desktops and lets users build an L-shaped workstation. The electric three-stage frame is 33% faster than a two-stage frame, delivers 25.6" of height adjustment, and boasts a carrying capacity of over 535 lb.

The frame comes with a whisper-quiet, soft start/stop motor in each leg, an energy-efficient low-draw transformer, and a control box with collision detection for safety. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

Specifications

UPLIFT V2-Commercial L-Shaped Standing Desk Frame

The [UPLIFT V2-Commercial L-Shaped Standing Desk Frame](#) comes with two C-shaped feet and one upright support leg. It has a height range of 22.6" - 48.7" (with a 1" desktop installed) and a lifting capacity of 535 lb. This frame has a lower starting height, a lower max height, and a broader overall height-adjustment range, compared to the UPLIFT V2 Frame. We designed this frame to meet the ANSI/BIFMA G1-2013 height standard. Due to the mechanics of designing the frame with a greater height adjustment range, we added a lower crossbar for increased stability.

The UPLIFT V2-Commercial L-Shaped Standing Desk Frame supports ergonomic working postures in both seated and standing positions. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

UPLIFT V2 4-Leg Standing Desk Frame

The [UPLIFT V2 4-Leg Standing Desk Frame](#) features 25.6" of height adjustment and boasts a 535 lb lifting capacity. A three-stage frame design provides an expanded height adjustment range and is 33% faster to adjust than two-stage frames. Frames come with a low-draw power transformer that uses little electricity, and a single control box includes collision detection functionality for safety.

A quad-leg design delivers optimal desk stability at any height and includes four upper crossbars to support more massive desk setups.

Specifications

UPLIFT V2-Commercial 4-Leg Standing Desk Frame

The [UPLIFT V2-Commercial 4-Leg Standing Desk Frame](#) was created to provide a seated and standing height range that's ergonomically suitable for 95% of office workers. With a height range of 22.6" - 48.7" you have 26.1" of available adjustments. This frame (with a 1" thick desktop) meets the ANSI/BIFMA G1-2013 height standard requirements.

The legs have a 35% larger cross sectional area to improve stability, which is further reinforced by a single, lower crossbar. With a 535 lb lifting capacity, you'll have enough power to handle the toughest tasks.

2-Leg Seated Height Side Table Frame

The [2-Leg Seated Height Side Table Frame](#) can be used as a matching accent table to an UPLIFT Desk, or as a desk on its own. Frame comes with 28" of height to the underside of desktops and allows users extra room to store large or rarely used office supplies and decor and perform short duration tasks while seated.

The frame can pair with any UPLIFT Desktop to create a fixed-height desk, and comes in our standard frame colors to match UPLIFT Desks. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

Specifications

[See complete spec sheet here](#)

- Width: 41.3" - 72.2" W
- Height: 29" H with 1" thick desktop
- Depth: 27.6" D
- Levelers: 0.375" adjustment
- Weight Capacity: 355 lb

4-Leg Standing Height Side Table Frame

The [4-Leg Standing Height Side Table Frame](#) lets users build a matching fixed-height side table to supplement desk space at sit-stand workstations. The frame rests at a comfortable standing height for most users at 42 inches tall; this provides plenty of extra space for housing devices and accessories that don't need to be stationed on the user's primary work area.

The frame can pair with any UPLIFT Desktop to create a fixed-height desk, and comes in our standard frame colors to match UPLIFT Desks.

Specifications

ATX Standing Desk Converter

If you aren't ready to upgrade to a full UPLIFT V2 Standing Desk yet, transform your current desk with the ATX Standing Desk Converter. Arrives fully assembled and ready to use. The single-handed operation creates smooth and quiet adjustments without any predetermined height settings. Enjoy a competitive height range of 18.3" with a single handle operation. Compatible with users from 4' 10" to 6' 2" in height. Safely hold up to 39.6 lb of work equipment. Some users prefer monitor arms, which are options for those who would like to mount a monitor to their desk or converter. Monitor arms support the monitor without taking up additional space on your work surface.

Features

- Heavy-duty lifting power, up to 39.6 lb
- Adjustable height range up to 18.3"
- Attached one or two monitor arms

Specifications

Lady Bird Standing Desk Converter

The [Lady Bird Standing Desk Converter](#) is a budget-friendly way to switch between sitting and standing while working. If upgrading to a full standing desk like our UPLIFT V2 Standing Desk isn't currently an option for you, a standing desk converter is the next best solution. The overall lifting capacity of 33 lb combined with a 12" adjustable height range is made to fit users between 4' 10" to 6' 1". The single-handle operation allows for smooth and quiet adjustments. Set to any height within the converter's range to fit your personalized needs.

Features

- Lifting power up to 33 lb
- Adjustable height range up to 12"
- Attach one or two monitor arms

Specifications

[See complete spec sheet here](#)

- Worksurface: 29.7" W x 19.7" D
- Keyboard Tray: 29.7" W x 12.4" D
- Height Range: 12"

E3 Compact Standing Desk Converter

The [E3 Compact Stand Up Desk Converter](#) converts almost any space into a sit-stand workstation. The converter locks in place at the user's preferred standing heights with minimal manual adjustments. The slim platform saves space and features an 11 pound weight capacity. The E3 arrives fully assembled and comes in white and black color options. Whether you're headed into a meeting or working away from your desk, the E3 allows you the freedom to sit or stand wherever you choose.

Features

- System adjusts via gas cylinder
- Locks securely in place for stable standing
- Compact scissor lift design saves space when storing
- Less than 1 inch tall when closed
- Adjustable height setting

Specifications

- Worksurface: 26.8" W x 13.4" D
- Height Range: 15.7" H
- Weight Capacity: 11 lb

Riser or Clamp Standing Desk Converter

The [Standing Desk Converter - Riser or Clamp](#) converts fixed-height surfaces into adjustable height workstations. Easy controls, a large work surface, and an attached keyboard tray help users work in comfort. The converter adjusts for height via a gas cylinder so no electricity is necessary. Choose between freestanding (riser) or clamp mount models. Installing with the clamp mount allows the attached keyboard tray to lower below desk surface for ideal ergonomic typing position, while the freestanding mount allows more freedom and mobility.

Features

- Converts any surface into an adjustable height workstation
- Pneumatic adjustment does not require electrical outlet
- Counterbalances to support weight of equipment
- Clamp mount allows attached keyboard tray to lower below desk surface for ideal ergonomic typing postures
- Freestanding base also available

Specifications

Adapt Mobile Laptop Standing Desk Converter

The [Adapt Mobile Laptop Standing Converter](#) elevates laptops to comfortable viewing heights, is suitable for most sizes of laptops, and comes with a 15.4 pound weight capacity. The converter comes with dual USB 3.0 ports on the base for easy charging and powering of devices and is available in black and gray color options.

Features

- Raises laptop to comfortable height for working
- Offers enough space for any laptop computer
- Keeps workstation organized with integrated cable management
- Charges devices via the two USB ports in the mounting base
- Attaches to desks up to 4.7" thick using clamp mount
- Includes bolt-through mount for added stability

Range Single Monitor Arm

The [Range Single Monitor Arm](#) supports single monitors weighing between 4.5-17.5 pounds and its counterbalance system allows easy fingertip adjustment of height and depth. Built-in cable management allows users to route and hide monitor cords. Installs to desks via a stable clamp mount and fits desktops up from .75" - 3.75" thick. VESA compatible 75 mm and 100 mm.

Features

- Counterbalance system allows fingertip adjustment
- Built-in cable management
- Quick-release VESA mounts
- 180-degree stopping pin limits arm movement in space-constrained environments. Remove pin for 360 degrees of motion

Zilker Single Monitor Arm

The dynamic [Zilker Single Monitor Arm](#) lets you position your screen at a comfortable and ergonomically correct working distance, height, and angle. The Zilker Single Monitor Arm supports monitors from 4.4 lb - 11 lb on a gas spring mechanism for smooth travel between 6.75" - 19" high (a 12.25" range from the center of the VESA plate to the desktop). A sturdy clamp mount installs quickly on desktops ranging from 0.75" - 3.75" thick; also includes an optional bolt-through mounting kit for holes 0.4" - 3.15" in diameter and desks ranging from 0.6" - 2.13" thick.

The rotation stop pin prevents the monitor arm from swiveling past the back edge of your desk, or remove the pin to let it rotate 360 degrees. Built-in cord management streamlines cables for a clutter-free workspace. Available in four colors so you can coordinate with your standing desk frame.

Features

- Rotate 360 degrees to share your screen with neighbors
- Stay organized with built-in cable management
- Ergonomic angle reduces neck strain
- Quick-release VESA mounts

[See complete spec sheet here](#)

Zilker Dual Monitor Arm

With the [Zilker Dual Monitor Arm](#), control two screens while you work, changing monitor angles, heights, and distances with this sleek monitor arm. Or add a laptop mount to give your laptop a boost. Give monitors from 4.4 lb - 11 lb the ability to glide above your desk—as well as raise from 6.88" - 19.38" (as measured from the desktop to the center of the VESA mount). Installation is easy. The monitor arm securely clamps onto the back edge of desktops 0.75" - 3.75" thick—or can be bolt-mounted through holes 0.4" - 3.15" in diameter on 0.6" - 2.13" thick desktops.

Rotation stop feature also allows you to halt your arms at the back edge of the desk to avoid hitting objects. Remove the locking pin to rotate 360 degrees. Place all your cables into the integrated wire management clips for a clean, streamlined look.

Attach your monitors to the arm using the quick-release VESA mount.

Features

- Save desktop space by lifting two monitors off the desktop
- Control two screens and increase productivity
- Four colors available to coordinate with your space
- Quick-release VESA mounts

Bamboo Rocker-X Board

The [Bamboo Rocker-X Board](#) lets users get on their feet and rock from side to side, helping improve circulation and boost energy throughout the day.

The Rocker board is a gentler motion board alternative to our Motion-X Board, which provides a 360-degree range of motion and requires active heel/toe weight distribution. The Rocker-X simply rocks side-to-side, allowing you to get the benefits of added motion within a more stable range of movement.

Features

- Allows more movement at standing desks
- Optional rubber bumpers for extra stability and bump protection
- Optional add-on comfort mat reduces fatigue

Bamboo Motion-X Board

The [Bamboo Motion-X Board](#) lets users balance, tilt, and rock while standing in place at sit-stand desks, boosting energy and improving circulation. Featuring a low-profile design, the Motion X Board's deck is made from genuine and sustainable bamboo. A molded plastic base underneath allows for gentle rocking movements, while molded high durometer rubber bumpers protect against bumps. An anti-fatigue comfort mat can be added to the top of the board for additional support.

Features

- Allows more movement at standing desks

Standing Desk Mat with Heel Grab

Standing is comfortable with the [Standing Desk Mat with Heel Grab](#). Featuring a durable, rubberized gel foam interior and a textured surface with beveled edges that prevent tripping when stepping on or off, the mat provides standing support for the user's feet, legs, and back. Spill-resistant thanks to a closed-cell construction, the mat is 0.75" thick and fits underneath all UPLIFT Desks. The heel grab allows you to move it into place with ease.

Features

- Textured exterior prevents slips
- Rubberized gel foam provides comfort for standing by absorbing weight and pressure in legs and feet
- Heel grab helps you move mat around with ease
- Smooth beveled edges prevent tripping hazards
- Strong surface is abrasion- and tear-resistant, and is able to withstand the weathers of work
- Closed-cell construction makes mat resistant to spills and easy to clean

E7 Active Anti-Fatigue Mat

The [E7 Active Anti-Fatigue Mat](#) gives users an active standing experience complete with anti-fatigue support. A rest bar with textured surface massages the feet and massage mounds let users stretch muscles. Power wedges on the back of the mat relieve calves while standing. The E7 lets users vary their standing postures even more than they can with a traditional standing mat.

Features

- Several options for users to switch postures and stretch muscles.
- Spacious anti-fatigue mat area to relieve pressure on the legs and feet while standing.
- Massage mounds on outer sides for arches of feet
- Rest bar at front with textured surface for massaging feet and exercising ankles.
- Power wedges at back to relieve heels and stretch calves.

E7 Small Active Anti-Fatigue Mat

The [E7 Small Active Anti-Fatigue Mat](#) allows you to stand comfortably for longer periods, take a stretch break, and work in greater comfort at your cubicle or workstation.

Engage your core and stretch targeted muscle groups in the legs, ankles, and feet with this multidimensional floor mat. Massage mounds on the edges can give your feet some needed rest and relaxation throughout the day. An incline at the front of the mat provides a place to vary your posture and stretch, and the mat's heel grab allows you to shift its position on the floor without needing to bend over awkwardly.

Because we know you'll be using your anti-fatigue mat for hours per day, we've made it from high-density materials that will stand the test of time. With a smaller design than our full-sized E7, this mat fits in more places and suits a wide range of users, from children to adults.

Features

- Switch postures and stand comfortably at your workstation
- Smaller design is ideal for compact office spaces and kids
- Built-in heel grab means users can move the mat without bending down
- Rest bar with textured surface at the front lets you massage tired feet
- Massage mounds on the outer edges allow for targeted stretching
- Boasts a high-density core for long-lasting, steadfast support
- Fits most users, from kids to adults

Under Desk Hammock

Transform your UPLIFT V2 Standing Desk into a place where you can relax and recharge (or take a midday nap) with the [Under Desk Hammock](#). Clip the hammock onto the sturdy UPLIFT V2 Standing Desk Frame's mounting points using the included carabiners and remove it just as quickly. With the use of the Connect mobile app, you can change the height of your desk (and your hammock), making it easy to get in or out when you're ready to lie down or stand back up.

The hammock comes with a storage bag, which stays attached so it won't get lost. While you're kicking back under your desk, the bag doubles as a place to keep your phone, glasses, or bottled drink.

Features

- Transforms your desk into a relaxing hide-a-way
- A portable, on-the-go design ideal for camping trips
- Attached storage bag

Illuminate LED Task Light

The **Illuminate LED Task Light** lets users direct their light source via a swiveling lamp head with multiple modes of adjustability. Users can bend and pose the lamp thanks to rotating joints in the lamp and body. Three light setting modes (Cool, Warm, and Natural), with five levels of brightness for each, produce light for a variety of tasks and environments, while LED lights reduce energy consumption and last for years of work. The Illuminate comes with a USB port on the base.

Features

- Upper arm swivels open upward, left, and right
- Collapsible upper arm
- 5 brightness levels
- Cool, warm, and natural light modes
- USB port

E3 LED Desk Lamp

Create your perfect lighting conditions for working, studying, or reading with our [E3 LED Desk Lamp](#) that features adjustable brightness and color temperature.

Press and hold the power button to cycle through light color temperatures - from a warm 2700K, to natural 4600K, to a cool 6500K, and anywhere in between. Slide your finger left or right for brightness adjustment, or tap the plus or minus to cycle through presets. Easily adjust the angle of the light and enjoy the benefits of long-lasting LED (rated for up to 30,000 hours).

Features

- Ideal for working, studying, or reading
- Rotate between warm, cool, and neutral light
- Thin, sleek design with discreet buttons

E7 LED Desk Lamp with Clamp

The [E7 LED Desk Lamp with Clamp](#) boasts a stepless dimming feature, allowing users to adjust to the perfect amount of light quickly and easily. Simply press and hold the power button to turn up or dim the light, and let go when the desired lighting is reached. A clamp mount allows the E7 to clamp onto desks up to 2.25" thick, and optional add-on desk and floor bases adapt the lamp to suit different users' lighting needs.

Clamp-On or Under-Mount Power with USB

With two power and two USB outlets within reach, the [Clamp-On or Under-Mount power with USB](#) allows you to charge your most essential devices within close range. Tool-free installation is designed with convenience in mind. Twist the bottom kobs to tighten the clamp. Once the power outlet is secured to your desk, plug into the wall using the attached 10' cord. Now you can begin charging your devices. The anti-slip neoprene pad located on the bottom of the power outlet will protect desktop surfaces from wear and tear. Use optional under desk mounting bracket to attach to the bottom of your desk.

Features

- More powerful than most computer USB ports
- Anti-slip neoprene pad protects surfaces from scratches
- Tool-free installation - twist bottom knobs to tighten
- Includes 2 outlets and 2 USB ports

Specifications

[See complete spec sheet here](#)

- Number of Outlets: 2
- Number of USB Ports: 2
- USB Capability: 5V/2.1A Output, Shared

8-Outlet Mountable Surge Protector

The [8-Outlet Mountable Surge Protector](#) brings you a power source with surge protection and a slim profile that can mount under your desktop, keeping wires out of the way. Can mount under almost any desktop to face outlets down towards the floor. Or using the included brackets, mount to the front or back of the desk to face outlets towards or away from you. V2 mounting brackets allow surge protector to mount directly to our UPLIFT V2 frames.

Features

- Keeps power outlets off the ground
- Can be attached so outlets face in the most optimal direction
- Includes 15' power cord and lighted on/off switch
- Hides cords and removes clutter from the desktop

Specifications

- Number of Outlets: 8

Wave Vertical Ergonomic Mouse

The comfortable and easy-to-use design of the Wave Vertical Ergonomic Mouse encourages healthy neutral wrist and arm positions for effortless movement with less wrist pressure and twisting. The DPI resolution can be adjusted from 800,1200, or 1600 for optimal tracking technology. The Wave mouse provides an excellent range of tracking sensitivity, on a broader range of surfaces than standard optical mice.

This product is also available in right or left-hand models, so it's perfect for anyone in the office. Ergonomically-Designed thumb rest and shape fit the contours of your palm for maximum comfort, which reduces pain and results in a happier work life. Additional mouse buttons can be used as next/previous buttons when browsing the web, action buttons for gamers, and can be utilized by other applications.

Features

- Ergonomic grip for comfortable movement
- Available in left and right-hand models
- Reduces pain with neutral wrist position
- Wirelessly connects via USB

Swell Vertical Ergonomic Mouse

The comfortable and easy-to-use design encourages healthy neutral wrist and arm positions for smoother movement and less strain and twisting. It's also ergonomically designed for smaller hands. The rechargeable battery is eco-friendly by eliminating the need for disposable batteries. The battery lasts for weeks on a single charge, but we recommend charging every 2-4 weeks for optimal use. Don't worry about draining the energy of your mouse when you're away from your desk. It automatically enters power saving mode after 15 minutes of idleness.

Additional buttons can also be used to return to previous pages when browsing the internet. The default DPI is set to 1600, but you have the option to adjust using computer settings.

Vert Ergonomic Office Chair

With a back designed to mimic the spine, the [Vert Ergonomic Office Chair](#) provides ideal seated support via a collection of ergonomic adjustment features. The Vert's rib design works together with an elastomer spine system to increase flexibility along the entire back while soft-touch armrests can be raised and lowered to suit different users and tasks. The plush seat offers height and depth adjustment while the chair's mesh back blends support and breathability for the user. Available in black or white.

Features

- Back mimics human vertebrae to deliver more support
- Rib design and elastomer spine system for flexibility
- Mesh back improves airflow
- Plush seat buttresses lower half
- Armrest height adjustment
- Seat height and depth adjustment
- Lumbar support adjustment
- Syncro-tilt mechanism
- Back tilt lock with weight-sensing mechanism

Pursuit Ergonomic Chair

The [Pursuit Ergonomic Chair](#) combines ideal support and customizable adjustments to suit one user or many for use at shared workstations. Intuitive support via a synchro-tilt mechanism lets the seat and back angle adjust automatically and provides continuous support as users change from upright to reclining postures. The chair has a height-adjustable back, arms, and headrest. A soft cushion fabric seat and mesh back blend comfort and breathability, while a waterfall seat edge decreases pressure behind legs for better circulation.

Features

- Fabric seat with mesh back
- Armrest height adjustment
- Back adjustment
- Headrest adjustment
- Synchro-tilt mechanism
- Waterfall seat
- Back angle adjustment with tension control

Facet Ergonomic Chair

The Facet Ergonomic Chair is a budget-friendly option with advanced adjustable features to ensure a perfect fit. The breathable mesh fabric allows for airflow, so you stay cool while seated, and the soft seat cushion delivers extra support. Synchro-tilt is an adjustable mechanism for back and seat resistance. This ensures that the backrest reclines when you lean backward and allows your feet to stay on the floor. Optional height and tilt-adjustable headrest support both your back and neck so you can focus on more critical tasks.

Features

- Height adjustment
- Seat depth adjustment
- Armrest height adjustment
- Back height adjustment
- Syncro-tilt mechanism
- Back tilt lock with weight-sensing adjustment
- Headrest height and angle adjustment
- Mesh back
- Adjustable lumbar support

Starling Stool

The **Starling Stool** tilts to relieve pressure off your feet, aligning your spine into a neutral position and combating fatigue that comes from sitting or standing all day. With 360 degrees of rotation and 10 degrees of tilt, this ergonomic stool lets you rotate and move from side to side for more stimulating work. Its waterfall seat edge and tilting motion allow the Starling Stool to relieve pressure on the rear of your legs and engage your core muscles for a healthier workday.

Features

- Waterfall edge on seat reduces pressure points
- Sturdy and lightweight frame for easy carrying
- Sit, stand, and perch to promote an active workday

Specifications

Large Half Circle Desk Drawer

Minimalist and effective, the [Large Half Circle Desk Drawer](#) is an easy way to add storage space to desks. The swiveling drawer comes with two separated compartments and holds items ranging from pens to glasses. A central mounting design allows for 360° of rotation, so users can swivel the drawer open and closed smoothly and seamlessly.

Features

- Integral storage compartments offer space for pens, pencils, sticky notes, and other small items
- Low profile minimizes under-desk footprint and allows drawer to be hidden when not in use
- 360° of rotation allows for tray to be opened or closed by pushing on either side

SPACE DIVISION

UPLIFT Power and Data Rail

The [UPLIFT Power and Data Rail](#) is comprised of customizable features you won't find on any other power rail solution, our patent-pending power and data rail is the most capable and flexible solution for open office environments.

Power all your devices in areas where access to outlets is limited, service up to 16 desks per power infeed, eliminate unsightly cable clutter on floors, organize electrical drops from ceilings (if you require them), and maintain consistent spacing between desks to keep your workspace attractive and organized.

As your office layout changes (and it always does), the Power and Data Rail can grow and transition right along with it. Its telescoping post height and rail width enable it to fit workspaces of various shapes and sizes.

Specifications

- 2 power covers with holes for Byrne receptacles
- 2 power covers with holes for Dekko receptacles
- 2 power covers with no holes for receptacles
- 2 data covers with no holes

ACOUSTICS

Acoustic Privacy Panel

Acoustic Privacy Panels absorb noise and distractions at work via dense polyester fiberboard panels that can be installed on nearly any height adjustable or fixed-height desk. Tackable panels come in multiple sizes, colors, and mounting options to suit all office decor and styles.

Features

- Absorbs office noise
- Provides extra privacy
- Can second as bulletin board
- Works with most desks

3D Wave Acoustic Wall Panel

3D Wave Acoustic Wall Panels allow individuals and businesses to build a sound-sheltered space that improves concentration at work. The thin, yet effective, panels can be installed on almost any flat wall and features a Noise Reduction Coefficient of .8, so 80% of noise that comes into contact with panels is absorbed. Made out of Polyester fiberboard, a single panel or multiple panels can be installed to dampen office noise. Lagoon Blue, Dark Gray, and Red Rock color options available.

Features

- Reduces ambient noise
- Adds texture to blank walls
- Wide range of patterns possible

3D Cubes Acoustic Wall Panel

The 3D cube design on the [3D Cubes Acoustic Wall Panels](#) creates more surface area for sound to be absorbed and enhances the look of plain walls. Sound-dampening panels lower ambient noise levels in office spaces and provide decoration for walls. Each 2' x 2' panel has a 0.80 noise reduction coefficient (NRC) —which means that 80% of the sound energy that hits the panel will be absorbed.

Our panels are made from 50% recycled plastic bottles, reducing their environmental impact, and reusing resources wisely.

Features

- Add texture to walls
- Add color to your workspace decor
- Absorb up to 80% of ambient sound

3D Pebbles Acoustic Wall Panel

Lower the overall noise level in your office while adding aesthetic appeal to your walls with the [3D Pebbles Acoustic Wall Panel](#). Improve sound dampening capabilities by increasing the acoustic square footage of your wall while bringing flat surfaces to life. Each panel is effective at eliminating sound reflection, boasting an 80% absorption rate (NRC 0.80). Add as many panels as will fit on your wall to create a modular noise solution for small and large wall surfaces.

Features

- Add aesthetic appeal to walls
- Add texture to your workspace decor
- Absorb up to 80% of ambient sound

Specifications

- Dimensions: 23.75" W x 23.75" H x 2.88" D

3D Cellular Acoustic Wall Panel

Absorb office noise and make it easier for employees to concentrate, while adding unique design textures to your walls with the [3D Cellular Acoustic Wall Panel](#). The textured surface absorbs more sound than most flat panels due to their increased surface area. Convert entire walls into decorative, sound-dampening surfaces. Engineered to an NRC (noise reduction coefficient) rating of 0.8, these panels absorb 80% of sound that reaches them.

Our panels are made from 50% recycled post-consumer material such as plastic bottles, giving you an eco-friendly acoustic solution.

Features

- Attach panels to the wall for improved room acoustics
- Add color to your workspace decor
- Absorb up to 80% of ambient sound

Specifications

- Dimensions: 23.75" W x 23.75" H x 3" D

Circular Acoustic Wall Panel

Lower the noise levels in your workspace by adding functional design elements to your walls. The [Circular Acoustic Wall Panels](#) are 1"-thick, sturdy, yet lightweight, and made of eco-conscious polyester fiberboard, which comes from 50% recycled material. Our panels are made to reduce noise effectively by absorbing 40% of all sound they come into contact with when flush-mounted against the wall. Leave an air gap by mounting panels to the wall with a spacer to increase this absorption up to 86%.

The panels come in 2' and 4' diameters so that you can put together the best arrangement for your space. Mounting the panels is quick and easy, and there are multiple options such as nails or Loctite® Construction Adhesive. For an additional level of functionality, panels can also be used as bulletin boards. Pin notes and reminders to the panels while dampening office noise.

3D Fan Acoustic Wall Panel

Add a dual-purpose design element to your office with the [3D Fan Acoustic Wall Panel](#). The circular panel's fan shape provides a colorful, 3D acoustic wall treatment, decreasing noise and echos while increasing aesthetic wall interest. The fan ridges gather and deflect noise and vibrations by providing more sound-absorbing surface area compared to most flat panels.

These panels are rated to absorb 80% of all the sound that reaches them (NRC 0.8). Mitigating workday phone call volume, conversations, and keyboard clacking result in a quieter work environment ideal for concentration. If you're looking for an eco-friendly option, these are perfect for you. The 3D Fan Acoustic Wall Panels are made from polyester fiberboard, which includes 50% recycled plastic bottles.

Circular Acoustic Ceiling Cloud

The [Circular Acoustic Ceiling Cloud](#) provides sound absorption and eliminates echo in open-space environments. Add a unique design element to your space with circular sound panels that hang from the ceiling. They absorb sound on all sides, for increased effectiveness. Sound panels have an NRC of 0.86 or higher, which means they absorb 86% of the sound that comes into contact with them. Installation is quick and easy.

Panels hang from steel aircraft cables attached to adjustable clips so that you can alter their height. Tailor your panel configuration for your design and sound-reduction needs.

Features

- Hang from the ceiling for a unique design
- Add color to your workspace decor
- Absorb up to 86% of ambient sound

Specifications

- Dimensions: Small: 23.5" Diameter
Large: 47.5" Diameter
- Panel Thickness: 0.95" (24 mm)
- Material: Pressed Polyester Fiberboard
- Noise Reduction Coefficient (NRC): > 0.86
- Fire Rating: Euro Class B and ASTM E84-08
