### Failure to retain registered name holder and registration data and failure to make such data available for inspection and copying

Sections 3.4.2 and 3.4.3 of the RAA require registrars to maintain registered name holder ("RNH") and registration data, and to make those records available to ICANN upon reasonable notice. FBS' failure to provide the requested registration records and data related to the compliance notices detailed in the chronology below is a breach of Sections 3.4.2 and 3.4.3 of the RAA.

### Failure to display a link to ICANN's Registrant Education Information Webpage

Section 3.16 of the RAA requires registrars to clearly display a link on its website to ICANN's Registrant Educational Information webpage. FBS' failure to provide a link to ICANN's Registrant Educational Information webpage on its website is a breach of Section 3.16 of the RAA.

### Failure to publish the full name and position of all officers on registrar's website

Section 3.17 of the RAA requires registrars to provide to ICANN and maintain accurate and current information as specified in the RIS of the RAA. In addition, a registrar must publish on each website through which it provides or offers registrar services, the information specified in the RIS as requiring publication. FBS' failure to publish the full name and position of all its officers on its website is a breach of Section 3.17 of the RAA.

### Failure to publish an email address to receive reports of abuse

Section 3.18 of the RAA requires registrars to publish an email address to receive abuse reports on the home page of their websites. FBS' failure to publish an email address on the home page of its website to receive abuse reports is a breach of Section 3.18 of the RAA.

### Failure to clearly display a link to renewal fees, post-expiration renewal fees (if different) and redemption/restore fees on registrar's website

Section 4.1 of the ERRP requires registrars to make their renewal fees, post-expiration renewal fees (if different) and redemption/restore fees reasonably available to RNHs and prospective RNHs at the time of registration of a gTLD name. At a minimum, these fees must be clearly displayed on the registrar's website and a link to these fees must be included in the registrar's registration agreements. FBS' failure to provide a link or clearly display these fees is a breach of Section 4.1 of the ERRP.

Failure to describe on its websites (if used) the methods used to deliver pre- and post-expiration notifications.

Section 4.2 of the ERRP requires registrars to describe on their websites (if used), and include a description of their notification methods or a link to the applicable page(s) on their website where this information is available in their registration agreements, the methods used to deliver pre- and post-expiration notifications for renewal of domain registrations. FBS' failure to describe these notifications on the website and in its registration agreement is a breach of Section 4.2 of the ERRP.

Failure to display the correct ICANN-Accredited Registrar logo

The Logo License Appendix of the RAA requires registrars, if displaying the ICANN-Accredited Registrar Logo, to use the logo displayed in the appendix. FBS' use of a modified version of the ICANN-Accredited Registrar Logo is a breach of the Logo License Appendix of the RAA.

Failure to pay accreditation fees

Section 3.9 of the RAA requires registrars to timely pay accreditation fees to ICANN, consisting of yearly and variable fees. FBS owes ICANN \$23,461.72 in past due accreditation fees, in breach of Section 3.9 of the RAA. FBS additionally owes \$1,000 in currently due accreditation fees, due 30 October 2014.
