Failure to clearly display a link to redemption/restore fees on registrar's website

Section 4.1 of the ERRP requires registrars to make their renewal fees, post-expiration renewal fees (if different) and redemption/restore fees reasonably available to RNHs and prospective RNHs at the time of registration of a gTLD name. At a minimum, these fees must be clearly displayed on the registrar's website and a link to these fees must be included in the registrar's registration agreement. Internet Solution's failure to provide a link or clearly display these fees is a breach of Section 4.1 of the ERRP.

Failure to describe the methods used to deliver pre- and post-expiration notifications

Sections 4.2 of the ERRP requires registrars to describe on their websites (if used), and include a description of its notification methods or a link to the applicable page(s) on their websites where this information is available in their registration agreements, the methods used to deliver pre- and post-expiration notifications for renewal of domain registrations. Internet Solutions' failure to describe these notifications on its website and in its registration agreement is a breach of Section 4.2 of the ERRP.

Failure to publish deletion and auto-renewal policies on website

Section 3.7.5.5 of the RAA requires registrars that operate a website for domain name registration or renewal to clearly display details of the registrar's deletion and auto-renewal policies on the registrar's website. Internet Solutions' failure to clearly display its deletion and auto-renewal policies on its website is a breach of Section 3.7.5.5 of the RAA.

Failure to pay accreditation fees

Section 3.9 of the RAA requires registrars to timely pay accreditation fees to ICANN, consisting of yearly and variable fees. Internet Solutions owes ICANN \$2,026.05 in past due accreditation fees, in breach of Section 3.9 of the RAA.
