RE: RSEP Request: Gateway Service for .XYZ

Dear Daniel,

This letter is to inform you that ICANN has made a preliminary determination on XYZ.COM, LLC's proposal to offer support for gateway service for .XYZ.

ICANN's preliminary determination has not identified any significant competition issues. ICANN has determined that the proposed Registry Service might raise significant Stability or Security issues, and therefore has decided to submit the proposal to the Registry Services Technical Evaluation Panel for further evaluation. Therefore we would like to solicit expert opinion on the likelihood and materiality of the proposed Registry Service's effects on Security or Stability, including whether the proposed Registry Service creates a reasonable risk of a meaningful adverse effect on Security or Stability.

XYZ.COM, LLC, has until 14 September 2015 (two business days following the expiration of the 15 calendar day period) to decide whether to continue with the evaluation of this proposal by the RSTEP. If the Registry Operator decides to proceed with the evaluation of this proposal by the RSTEP, the Registry Operator also agrees to be responsible for fees incurred by the RSTEP. Upon referral, the Chair of the RSTEP will select a Review Team from among the members of the RSTEP. The Review Team will have up to 45 calendar days upon referral to prepare a written report regarding the proposed service's effect on security or stability, which will be posted for public comment and provided to the ICANN Board.

Please advise whether XYZ.COM, LLC, intends to proceed with this request.

Sincerely,

DocuSigned by:
