PROFESSIONAL EXPERIENCE

Zakat, Tax and Customs Authority | Riyadh, Saudi Arabia   **Mar 2021 – Present**
Decision Support and Report Analyst

Bayan (Data science & Artificial intelligence) | Riyadh, Saudi Arabia   **Apr 2020 – Present**
Data Analyst / Data Scientist (Research & Development Team) | Freelance

- As part of the research and developments team at Bayan I helped with many projects and we did analysis on many subjects such as: COVID-19, Saudi football league, VAT and many other projects that can be found on Bayan.site.
- We develop dashboards, write research papers, analyze data, create machine learning models, create new datasets and many other subjects related to data science and artificial intelligence.

King Abdul-Aziz Airbase Hospital | Dhahran, Saudi Arabia   **Dec 2016 – Mar 2021**
Programmer

- Using Oracle PL/SQL I helped departments with their weekly/monthly statistics. This also include helping them find specific statistics requested by the department or by MSD and reporting to MSD.
- Using Oracle 11g and Oracle 6i I helped the hospital with its system by creating new application for departments using Oracle Forms builder
- Using Oracle 11g and Oracle 6i I designed many reports using Oracle Reports Builder, these reports vary from hospital reports for specific departments such as statistics or forms to fill manually or other departments such as human resources and sub-departments under it or supply department.

King Fahad Military Medical Complex | Dhahran, Saudi Arabia   **Dec 2010 – Jul 2011**
Payroll Specialist

- Manage payroll procedures for employees based on part time and full-time basis.
- Adjusted wages and overtime pay of employees based on the submitted time sheets.
- Applied secretarial skills in preparing excel spreadsheets for requested information.
- Prepared detailed reports of each employee's receivables.

SKILLS

- Data analysis, Python, data science, web development, blogging, programming, software development, Microsoft Office, SQL, data managements, data modeling, Windows and Mac OS.
