

GEODIS in Singapore

Established in 1995, GEODIS Singapore with 278 staff, is a true growth partner to its clients offering end-to-end solutions based on its knowhow, its infrastructure, processes and information systems that ensure operational excellence and the best service quality.

Our Activities

Our activities serve the needs along the entire supply chain. Complemented by a global accounts approach, managed at corporate levels across activities and geographies.

Road Transport

As your growth partner, GEODIS is committed to delivering effective security and support for your supply chain. We provide all road and multi-modal transportation operations and their associated logistics.

Air and Ocean Freight

As a Freight Forwarder, GEODIS offers a wide variety of Air & Ocean Freight solutions for all types of national and international freight shipments. Perhaps your needs are simple.

Project Logistics

Innovation is one of GEODIS' key values. This value is especially important when it comes to Project Logistics - each complex and challenging project comes with its own set of unique requirements.

Contract Logistics

GEODIS is one of the world's leading logistics providers, with over 300 platforms and 6,500,000 square meters of warehousing space around the globe.

Marine Logistics

As your growth partner, GEODIS offers tailored marine solutions with real time visibility for all types of marine clients. We offer customised global door to deck solutions as well as drydock project management for all types of ships.

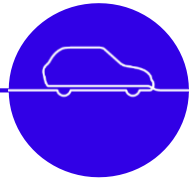

Customs

Increasing globalization also means an increase in the international exchange of goods. GEODIS' core and value-added customs brokerage services can support your company's global growth.

Our Verticals

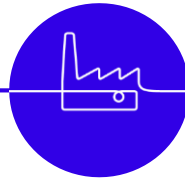

We design solutions that are industry-specific and that help you gain the competitive edge in your market.
