ESET TESTIMONIALS

★★★★★
Feb 16, 2021

"Best virus protection we've ever had!"

ESET PROTECT Advanced runs unnoticed by the user, except for a quick ESET screen that flashes on your display when turning on your computer. It does not compromise the speed or efficiency of my computer. We have not had any virus concerns on our PCs, tablets, or server since we installed this product 3 years ago. It protects us so that we can concentrate on serving our clients without concerns of data breaches or computer downtime due to virus infection.

"ESET antivirus software protects your data and applications professionally"

Easy to install and maintain. Updates work well and are compatible with most operating systems. No system slowdowns or crashes. Complete protection against hackers, malware, and data loss. This is suitable for any computer and works well for any servers. Makes all notifications about the system and greatly facilitates users. So far no virus has been able to interfere with the ESET antivirus software functionality.

"An amazing cloud-based anti-malware suite"

This cloud-based security software provides endpoint security against malware for businesses and enterprises of all kinds. Its functions are not just limited to endpoint security, but it also provides security against firewall breaches, spam emails, bots intrusion, and also protects your personal information such as passwords and usernames, etc. from threats.
