ICANN Final Determination

Re: Notice of Registry Operator Request for Termination of Registry Agreement - .jlc

On 01 June 2018, Richemont DNS Inc. [notified ICANN](#) of its intent to terminate the .jlc Registry Agreement entered into on 04 December 2014. Pursuant to Section 4.4(b) of the Registry Agreement, Registry Operator may terminate the Registry Agreement for any reason upon one hundred eighty (180) calendar day advance notice.

Pursuant to the terms of Section 4.5 of the Registry Agreement (as modified by Section 6 of Specification 13 for this .Brand TLD), ICANN consulted with Richemont DNS Inc. to assess whether to transition operation of the .jlc top-level domain (TLD) to a successor Registry Operator.

On 06 July 2018, ICANN made a preliminary determination that operation of the .jlc TLD need not be transitioned to a successor Registry Operator based on the following rationale:

1. .jlc qualifies as a .Brand TLD.
2. Transitioning the TLD is not necessary to protect the public interest.

On 05 August 2018, after a 30-day period for comments by interested parties, no comments were received. Pursuant to Section 4.4(b) of the Registry Agreement, ICANN will proceed to terminate the .jlc Registry Agreement by 28 November 2018.

In conformance with Section 4.5 of the Registry Agreement (as modified by Section 6 of Specification 13 for this .Brand TLD), ICANN may not delegate the TLD to a successor registry operator for a period of two years without Registry Operator's consent, which shall not be unreasonably withheld, conditioned or delayed.
