Subject: 2013 RAA Privacy and Proxy Specification Extension

Via E-mail

Hello Cyrus,

I'm pleased to inform you that the Registrar Stakeholder Group has again decided to voluntarily extend the specification for Privacy and Proxy services contained within the 2013 RAA for 19 months, with a new expiry date of Jan 31, 2021.

The RrSG recognizes that considerable work has gone into both the policy development process and the implementation process for a new Privacy and Proxy service regime. We also appreciate the community's patience as Registrars, ICANN org, and the rest of the community work to resolve tensions between the PPSAI disclosure framework, GDPR, and the work of the EPDP phase 2. It is in acknowledgement of this continued work that we have decided to continue to extend the specification.

Regards,

Graeme Bunton

Chair, Registrar Stakeholder Group
