Thick Whois Policy Implementation

Background

- Policy Recommendations adopted by the ICANN Board on 7 February 2014
  http://www.icann.org/en/groups/board/documents/resolutions-07feb14-en.htm#2.c
- Two expected outcomes (per policy recommendation #1)
  - Transition from thin to thick WHOIS for .COM, .NET and .JOBS
  - Consistent labeling and display for all gTLDs per Spec 3 RAA 2013

Status of Consistent Labeling & Display for all gTLDs (CL&D)

- A revised Consensus Policy excluding the RDAP published on 1 February 2017
- Effective date - 1 August 2017

Status of Transition from thin to thick for .COM, .NET & .JOBS

- Consensus Policy published on 1 February 2017
- Effective date for new registration – 1 May 2018
- Effective date for existing registration – 1 February 2019

IGO/INGO Identifiers Protection Policy Implementation

Background

- Recommendations adopted in part by the ICANN Board on 30 April 2014 https://www.icann.org/resources/board-material/resolutions-2014-04-30-en#2.a
- Current effort focusing on implementation of protections at top and 2nd level for:
  - Red Cross Red Crescent Movement (Full Names)
  - IOC Identifiers (Full Names)
  - IGOs Identifiers (Full Names)
  - INGOs Identifiers (ECOSOC General and Consultative Lists)

Current Status

- Staff and IRT have been discussing initial draft Consensus Policy Language addressing reservation at top and 2nd level, including exception procedures
- The final draft will be published for Public Comment with announcement target of 1 August 2017
- Policy Effective date (current assumption): 1 February 2018

Privacy/Proxy Service Provider Accreditation IRT

- Final Recommendations adopted by GNSO Council Jan. 2016; Board approved Aug. 2016; IRT convened Oct. 2016
- IRT adopted expedited timeline, meets weekly
- IRT has discussed initial questions on Policy, data retention/escrow, labeling; will begin draft Policy document review in late March
- Estimate posting draft Policy and Accreditation Agreement for public comment: Sept. 2017
- Final announcement date contingent on changes required per public comments

Translation and Transliteration of Contact Information

- Project Status
  - IRT working through “decision tree” to address complexities related to implementation of language and script tags
  - IRT discussing final issues related to data provisioning for **script data**
  - Issues related to data provisioning for **language data** and **registration data transformation** remain to be discussed
- Current Timeline
  - Tentative pending IRT discussion of language and script tags
  - Public comment on policy language document planned for Q2 2017

RDAP and RSP

- **RDAP**
  Projected timeline: TBD
  - RDAP is a new protocol intended to replace WHOIS
  - Key challenge: Resolve outstanding reconsideration request from RySG to move forward with implementation
  - Will discuss new proposal with community at ICANN 58

- **Registry Service Provider Program**
  Timeline: TBD
  - Explore the concept of a Registry Service Provider (RSP) Program by working collaboratively with the community to define and solve a set of identified issues
  - Awaiting input from RySG on scope of the program
  - Key challenge: Reach consensus with community on the scope and objectives of the program
