Dear Duane, Dear all,

As PTI's representation is specified by virtue of our enduring operational responsibilities, we do not consider our appointment having a formal term length or term limit. We will designate or replace our representative based on our staff composition and who can best contribute expertise to the committee. I have served as PTI's representative to RZERC since its inception.

As a practical matter, if you wish us to reconfirm our representative on a regular basis, I would suggest every 1 or 2 years would be fine.

Please let me know if you need further clarification.
