All participants have the same rights – you have the opportunity to discuss via chat or via microphone. Please make sure that your audio is functioning. Except for the speakers and session chairs, participants are asked to mute their microphones and to deactivate their cameras during presentations. The last 15 minutes of each session are reserved for discussion. Questions and comments or the request to speak may be written in the chat. The session chairs will moderate the discussion accordingly.

The presentations will be recorded, the discussions not. Before we make the recording of talks public, we will ask to consent.

Presenters (on Wednesday and Thursday):

As a presenting author, the organizers will give you the moderation rights for the slot you will be presenting your contribution in order to enable you to share your screen. Please make sure that your audio and video function properly. If you use PowerPoint, please open it in the presentation mode. As each talk has only 15 minutes, each presenter is asked not to overrun her/his time. Please be aware that there will be a short introduction of your presentation and that the screen sharing takes some seconds.

Session chairs:

As a session chair please keep the introductions of the talks as short as possible. And please moderate the discussion after the three talks of a session in such a way that every presentation gets a fair share as much as possible.

Breaks:

During the breaks, we offer a virtual lobby and networking opportunity. It is accessible via the same link, if you wish to network, please stay online and discuss or chat.
