

Merck Helps™

Merck Vaccine Patient Assistance Program

WE'RE WORKING TO KEEP MEDICINE WITHIN YOUR REACH

Offered through the Merck Patient Assistance Program, Inc.

Welcome to the Merck Vaccine Patient Assistance Program

Because very limited public funding is available in the United States to provide vaccines to adults without insurance, Merck has created the Merck Vaccine Patient Assistance Program (MVPAP).

This private and confidential program provides vaccines free of charge to eligible adults, mainly the uninsured who, without our assistance, could not afford certain needed Merck adult vaccines.

This booklet will help you understand the program. If you have any questions, please call 800-293-3881, 8 AM to 8 PM ET, Monday through Friday, and a live operator will be available to assist you.

You May Qualify

If your doctor or health care professional (eg, nurse practitioner, physician assistant) has determined that you should be vaccinated with a Merck vaccine available through this program, you may be eligible for the program if all of the following conditions apply:

1. You live in the United States and are age 19 or older.*

and

2. You do not have health insurance or other coverage for vaccines.

Examples of health insurance include private insurance, HMOs, Medicaid, Medicare Part D, veterans assistance, and any other social service agency support.

and

3. You cannot afford to pay for vaccination.

You may qualify for the program if you have a household income at a specific financial criteria level. For details, call 800-293-3881.

However, Merck recognizes that sometimes exceptions need to be made based on a patient's circumstances. Patients who do not meet the insurance coverage criteria may still qualify for the vaccine program if they have special circumstances of financial and medical hardship.

*You do not have to be a US citizen.

What You Need to Do

Step 1. Talk with your doctor or licensed health care professional to find out if you are an appropriate candidate for vaccines available through this program.

Step 2. If it is determined that you should be vaccinated, you and your doctor/licensed health care professional must complete and sign the enrollment form.

Step 3. Your doctor/licensed health care professional should fax the completed enrollment form to 800-528-2551.

The enrollment form must be submitted and approved prior to the administration of vaccine in order to qualify. Forms will be processed quickly—with a goal of less than 10 minutes—and the doctor/licensed health care professional will be notified by phone so that you can receive the Merck vaccine during that visit. Some vaccines require more than 1 dose. A new enrollment form must be completed, submitted, and approved before a patient can receive any additional dosages.

Merck Vaccines Available Through the Merck Vaccine Patient Assistance Program

Many Merck vaccines for adults are available through the program. For the most current list of Merck medicines available, please call the Merck Vaccine Patient Assistance Program at 800-293-3881, or visit merckhelps.com.

Medicine Assistance Tool

Merck is a proud participant in PhRMA's Medicine Assistance Tool (MAT). MAT helps eligible patients get free or nearly free brand name medicines through a single website. Visit MAT at www.medicineassistancetool.org

Other Important Information

Vaccines distributed through the Merck Vaccine Patient Assistance Program are free of charge to all eligible people. Merck is not associated with any individuals or organizations that may charge a fee to assist in completing an enrollment form for our program. These individuals or organizations are acting independently of Merck and do not have Merck's consent.*

Merck reserves the right to change or discontinue the program at any time.

*Your physician could charge for administering the vaccine or for an office visit, but not for the vaccine product.

Important Reminders

For more information on the Merck Vaccine Patient Assistance Program, call 800-293-3881 or visit [merckhelps.com](https://www.merckhelps.com). Specialists are available to assist you Monday through Friday, 8 AM to 8 PM ET.

This is not insurance.
