PHPP Parents Helping Parents

Supporters, Partners and Friends of PHP:

COVID-19 and shelter-in-place have had terrible consequences on families who have children with special needs.

Everyday, we hear from parents who are struggling. Their children with special needs continue to experience anxiety, depression, and prolonged loss of critical support and services.

Many of our families have experienced a job loss and are panic-stricken on how to make ends meet. And everyday many parents struggle at educating their child at home, on their own, in an attempt to stem regression and manage a multitude of challenges. We are so grateful to our partners and supporters for making it possible for PHP to serve the most families in its history.

Today, PHP stands on solid financial ground. PHP remains steadfast to provide critical support and resources to help our families stay strong as this pandemic wears on.

Thank you for your support and commitment,

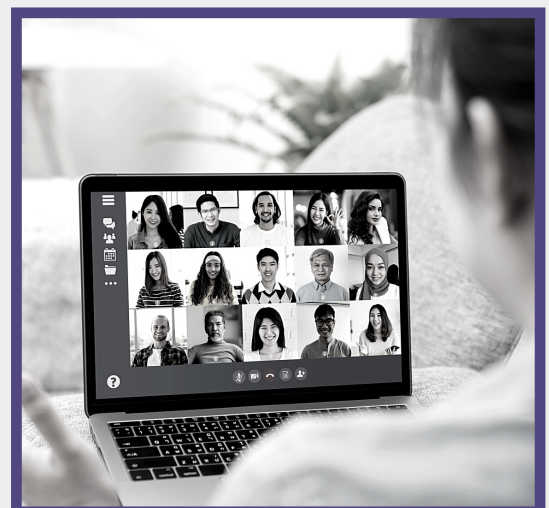

Maria Daane, Executive Director

Maria Daane

Increasing Support for Families...

- 19k** PHP provided nearly 19,000 services to 7,500+ parents and professionals last year. Including people served online, PHP supported 70,000+ people in 2019-20.
- 80%** Nearly 80% of families served by PHP represent non-white, communities of color. PHP provides support in 6 different languages.
- 90+** Since shelter-in-place began in March through June 30, more than 2,500 parents attended PHP's 90+ live webinars.
- 200%** Traffic on www.php.com increased 200% from March 1-June 30, 2020 vs. the same time period in 2019.
- 500+** PHP connected a record 500+ parents to support groups for critical support during the COVID outbreak.
- 175%** Parents and professionals watched a record number of 740 hours of trainings in our E-Learning Library during 2Q20, a 175% increase from 2Q19.

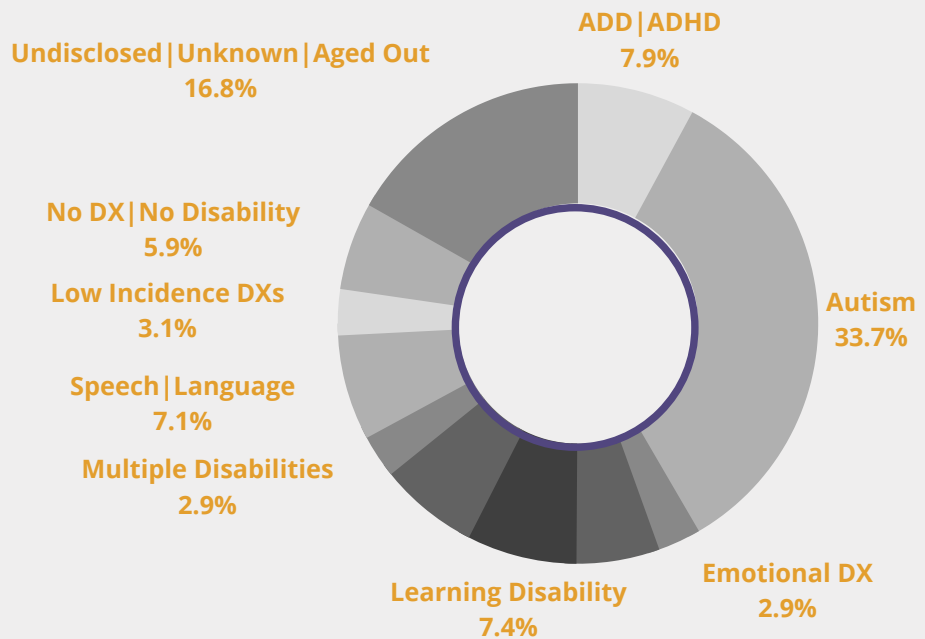

Families Remain in Crisis...

- 2x** Parents of school-aged children with special needs are twice as likely to say that distance learning is going poorly. *(Parents Together Action Survey, May 27, 2020)*
- 68%** 68% of services PHP provides are in underserved areas. Persons of color who have special needs and live in an underserved area are more than twice as likely to contract and die from COVID-19. *(NPR, June 2020)*
- 144k** There are 144,000 residents with disabilities in Santa Clara County, with 33k enrolled in special education; 12% of the total student population. *(Disability Compendium, 2015 & Ed Data, 2020)*
- 40%** 40% of parents worry about the mental health of their children with special needs. *(Parents Together Action Survey, May 27, 2020)*
- 70%** 65-70% of youth involved with the justice system have a disability, more than four times higher than the rate of youth without disabilities. *(National Council on Disability, 2020).*

Diagnoses Served by PHP

**Low-incidence diagnoses include hearing, orthopedic and visual impairments, and traumatic brain injuries.*
