

McGovern Medical School

FACT BOOK

ABOUT US

More than 1,000 medical students and 1,000 residents and fellows call McGovern Medical School their academic home.

The first class of 19 students joined the Medical School in 1970, and by 1979 class sizes grew to 200.

Today, classes of 240 are legislatively supported through state formula funding to meet the growing demand of physicians throughout the state of Texas.

McGovern Medical School has graduated more than 8,000 physicians.

OUR LOCATION

The core educational facilities of McGovern Medical School are located in the heart of the Texas Medical Center, the largest medical complex in the world. Our faculty, residents, students, and staff are part of a medical city whose members see 10 million patient encounters a year. The nine-story Medical School Building is located on Fannin Street and is connected on the south end to a six-story research building, the McGovern Medical School Expansion, and on the north to Memorial Hermann-Texas Medical Center.

McGovern Medical School has a major presence in The University of Texas Research Park with the Department of Psychiatry's Behavioral and Biomedical Sciences Building. Research programs are also located in the MD Anderson South Campus Research Building. McGovern Medical

School also has a prominent presence in the Jesse Jones Library Building.

The Fayez S. Sarofim Research Building is home to the Brown Foundation Institute of Molecular Medicine for the Prevention of Human Diseases.

Physician faculty provide the majority of their outpatient care in the UT Professional Building and Memorial Hermann Medical Plaza, which are situated across the street from McGovern Medical School, and at a growing number of UT Physicians clinics throughout the Greater Houston area.

PART OF THE UTHealth FAMILY

Six schools make up UTHealth. In addition to McGovern Medical School they are the: School of Public Health, Cizik School of Nursing, School of Dentistry, MD Anderson Cancer Center UTHealth Graduate School of Biomedical Sciences, and School of Biomedical Informatics.

UTHealth also includes The University of Texas Harris County Psychiatric Center, the Brown Foundation Institute of Molecular Medicine for the Prevention of Human Diseases, and several interdisciplinary centers.

ARE HEALTH RELATED

EDUCATION

McGovern Medical School is committed to providing the highest quality education and training for the future medical leaders of Texas and beyond.

Our integrated curriculum marries the clinical and fundamental sciences, offering our students hands-on learning from day one. Students have the opportunity to enrich their educational experience through our scholarly concentration program.

Our curriculum fosters strong inter-professional collaboration, not only within the other schools of UTHealth, but also with the institutions throughout the Texas Medical Center.

With more than 1,000 positions, our Graduate Medical Education program is one of the largest in the country. These highly competitive programs attract the best medical school graduates from across the country.

PATIENT CARE

Physicians, residents, fellows, and students provide exemplary clinical services at UT Physicians offices located throughout the Texas Medical Center and the Greater Houston area, with a focus on patient quality and safety.

With more than 2,000 clinicians certified in more than 80 medical specialties and sub-specialties, UT Physicians provides multi-specialty care for the entire family.

Our faculty, residents, and students provide inpatient care at our primary teaching hospitals, Memorial Hermann-Texas Medical Center, Children's Memorial Hermann Hospital, and Lyndon B. Johnson General Hospital, in addition to the UT Harris County Psychiatric Center, TIRR Memorial Hermann, and The University of Texas MD Anderson Cancer Center.

MISSION STATEMENT

To educate a diverse body of future physicians and biomedical scientists for a career dedicated to the highest ideals of their profession; to provide outstanding patient-centered care; and to conduct innovative research that benefits the health and well-being of the population of Texas and beyond.

CORE VALUES

- Deliver compassionate patient care focusing on effectiveness, quality, safety, and service.
- Provide a competency-based curriculum emphasizing integrity and professionalism.
- Embrace a culture of lifelong learning, evidence-based practice, open inquiry, and scholarship.
- Cultivate professional and respectful communication.
- Foster a diverse and inclusive learning community.
- Support the health and well-being of students, faculty, and staff.
- Promote inter-professional collaboration.
- Support leadership and innovation in teaching, research, and service.
- Advocate for excellent care for the underserved and for the reduction of health care disparities.
