

## **RECOMMENDED TRACK FOR FINANCIAL ANALYSTS**

*(available at the times below and on-demand following the initial viewing)*

---

### **GENERAL SESSION**

---

#### **Accelerating Innovation, Strategies for Winning Across Clouds and Apps**

**Tuesday, October 5<sup>th</sup> 9.00am - 9.55am PT**

- Raghu Raghuram, Chief Executive Officer, VMware
- Sumit Dhawan, President, VMware

Join CEO Raghu Raghuram as he lays out his vision for the future of multi-cloud technology, providing a view into the innovations VMware is driving at the intersection of clouds and apps. VMware President Sumit Dhawan will share a perspective on how VMware is delivering the critical capabilities that every digital business needs, with a special focus on the first-hand experience of VMware customers around the world.

---

### **APP MODERNIZATION**

---

#### **Make Your Move to Multi-Cloud Kubernetes with VMware Tanzu**

**Tuesday, October 5<sup>th</sup> 11.30am - 11.55am PT**

- Megan Bruce, Group Product Line Manager, VMware
- Navneet Joneja, VP, VMware
- Mark Leonard, Director of IT, Drax

We will explore the critical components you need to run, manage and monitor your applications on a consistent Kubernetes-based platform at scale on any cloud. We will also address how VMware Tanzu can help you scale DevOps adoption with a multi-cloud Kubernetes platform, tailored for both IT and platform teams, virtualizing the cloud and accelerating your cloud infrastructure transformation and Mark Leonard from Drax Group will share their real-world experience in becoming a multi-cloud Kubernetes enterprise.

---

### **NETWORKING & EDGE**

---

#### **Automation is Modernizing Networks**

*Tuesday, October 5<sup>th</sup> 11.30am - 11.55am PT*

- Tom Gillis, SVP/ GM, Networking & Security BU, VMware

See how a modern network with end-to-end network virtualization allows self-service connectivity and better security across diverse infrastructure with a great experience for end users, developers and IT admins.

#### **Automation is Modernizing Networks – See it in Action with HSBC**

*Tuesday, October 5<sup>th</sup> 12.00pm - 12.25am PT*

- Tom Gillis, SVP/ GM, Networking & Security BU, VMware
- Petek Ergul, Global Head of Telecommunication Services, HSBC

Join HSBC, a global financial organization, to see what a modern self-service network can do delivering a consistent public cloud experience by automating all required networking services across all clouds.

#### **The Future of Distributed Enterprise Edge Runs through Service Providers**

*Tuesday, October 5<sup>th</sup> 11.30am - 11.55am PT*

- Sanjay Uppal, SVP & GM, Service Provider & Edge BU, VMware
- Rupesh Chokshi, Vice President Cybersecurity & Edge, AT&T
- André Devillars, Head of IT Infrastructure Architecture, Michelin
- Dr. Rainer Deutschmann, Group COO, Telia

Join this session to learn about the new services that forward-thinking organizations are creating, the unique roles that CSPs play to deliver business value, and the transformative capabilities that VMware offers to enable the new business model and endless possibilities for enterprises and CSPs at the distributed edge.

---

## SECURITY

---

### Part I: Simplify Security Complexity

*Tuesday, October 5<sup>th</sup> 11.30am - 11.55am PT*

- Tom Gillis, SVP/GM, Networking & Security BU, VMware
- Patrick Morley, SVP/GM Security Business Unit, VMware

During this session, you will gain insights on how leveraging security as a distributed service and connecting control points, can lead to greater situational intelligence. And you will learn how this unique approach is enabling businesses to bring technologies and teams together to redefine security to make it simpler, faster, and smarter.

### Part II: Simplifying Security Complexity in Real Life: Customer Perspectives

*Tuesday, October 5<sup>th</sup> 12.00pm - 12.55pm PT*

- Tom Gillis, SVP/GM, Networking & Security BU, VMware
- Patrick Morley, SVP/GM Security Business Unit, VMware
- Wouter Meijs, ING

Hear real life customer perspectives from across industries on today's security challenges in the middle of unprecedented risk and threat volumes. In a series of virtual fireside chats with VMware Security leadership, follow several real-world situations from your peers as they discuss how their organizations are solving security challenges and partnering with VMware in the battle against today's most sophisticated threat actors.

---

## END USER COMPUTING

---

### The Future of Hybrid Work Made Possible Today

*Tuesday, October 5<sup>th</sup> 11.00am - 11.25am PT*

- Shankar Iyer, SVP and GM, EUC, VMware
- Hemant Kumar, Genpact

Supporting secure, productive workspaces for our employees working anywhere has become a necessity. But, easier said than done as customers struggle with perimeter-based security and management constructs. Join Shankar Iyer as he brings to reality VMware Anywhere Workspace – an integrated solution featuring cloud-native endpoint management, endpoint protection, and SASE technologies. You will learn how Anywhere Workspace empowers your distributed workforce with secure, frictionless experiences, and your IT teams with the power of ruthless automation.

### Part I: Vision & Announcements

*Tuesday, October 5<sup>th</sup> 11.30am - 11.55am PT*

- Shawn Bass, CTO End User Computing, VMware

Part 1 covers the critical relationship between employee experience and zero trust security, as well as the role of automation.

### Part II: Technical Deep Dives on SASE & Horizon

*Wednesday, October 6<sup>th</sup> 10.30am - 10.55am PT*

- Shawn Bass, CTO End User Computing, VMware
- Shikha Mittal, Senior Director, Product Management, VMware

The EUC Solution keynote continues with a deep dive into two important topics. First, Shawn Bass will talk about VMware SASE, VMware Secure Access, and what they mean for EUC strategies in a world of distributed work. Next, we will take look at what's new in Horizon, and a deep dive into what's coming next.

---

## MULTI-CLOUD

---

### **DevSecOps Your Way to Any Cloud (And Delight Customers)**

*Tuesday, October 5<sup>th</sup> 10.00am - 10.25am PT*

- Ajay Patel, SVP, VMware
- Sarah Cooke, Product Leader, Humana
- Stephen O'Grady, Principal Analyst & Co-Founder, Redmonk
- Pratik Roychowdhury, Product Management, VMware
- Valentina Alaria, Director Product Management, VMware

Join us to hear how companies have embarked on modernization journeys to deliver better customer experiences continuously. We'll walk through the DevSecOps approach that empowers developers to build innovative, secure apps; deliver applications in a compliant, secure way, and manage modern, distributed applications sustainably.

### **The Enterprise Apps Fast Track to a Secure Multi-Cloud**

*Tuesday, October 5<sup>th</sup> 10.30am - 10.55am PT*

- Kit Colbert, CTO, VMware
- Salvatore Cassara, Chief Information Officer, SGB-SMIT

Hear from VMware leaders on our vision and latest technology innovation for multi-cloud infrastructure services and Salvatore Cassara, CIO of SGB SMIT, will share their real world experience in becoming a multi-cloud enterprise.

### **The VMware Multi Cloud Computing Infrastructure Strategy of 2021**

*Tuesday, October 5<sup>th</sup> 11.30am - 11.55am PT*

- Matthew Morgan, Global Vice President, Cloud Infrastructure, VMware
- Purnima Padmanabhan, SVP/GM Cloud Management, VMware

This session will cover the latest releases and capabilities of our core infrastructure (vSphere, vSAN, NSX) and cloud management offerings, the latest on our cloud provider and hyperscaler partnerships, and discuss industry examples from our enterprise customer base.

---

## VISION & INNOVATION

---

### **What's Next? A Look inside VMware's Innovation Engine**

*Tuesday, October 5<sup>th</sup> 11.30am - 11.55am PT*

- Chris Wolf, Chief Research and Innovation Officer, VMware
- Kit Colbert, CTO, VMware

You will learn about what's on the horizon from VMware's innovation engine, with intriguing technical demos in emerging technology areas inclusive of edge computing, security, machine learning and more.
