Kaspersky Security for Small and Medium Businesses

Security challenges SMBs face

Cyberthreats

One size doesn't fit all. Smaller businesses face many of the same cyberthreats as large enterprises. But they don't have the same resources to deal with them.

Overstretched resources

The best security makes life easier, not harder, for overworked IT departments. If you are running a small or medium sized business, the chances are that resources are continuously overstretched. So you need to work smart – picking the security solution that delivers instant protection and makes minimal demands on your budget, time and energies.

Effortless protection which evolves as your business matures

Cryptolockers   Payment scams   Targeted attacks   User errors   Web threats   Online fraud   New
unknown threats   Data loss   Spam   Phishing   Ransomware

Kaspersky Security Awareness (cloud-based)

Kaspersky ASAP changes employees' behavior, providing them with the skills to protect the business and help create a cybersafe environment for everyone. ASAP is built on the principle of interval learning with constant reinforcement to develop 'pattern perception': employees are able to recognize new dangers and behave safely, even when faced with unknown threats.

Ideal for all types of organizations, especially those interested in instant program set-up and hassle-free management

Business benefits

Incremental learning with skill-based lessons: employees acquire a new skill every day

Automated learning management saves hundreds of platform management hours each year

All lessons are connected with employees' everyday working life

Supports GDPR and data compliance

Use cases

Creates a 'human firewall' to protect your business from within
