

Drupal 9: Build the best of the web

THE NEXT STEP IN 20 YEARS OF OPEN SOURCE INNOVATION

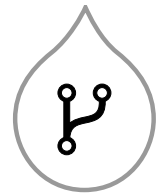

Drupal continues to lead the industry with powerful new features, an enhanced user experience, and a roadmap built for the future.

- **Dramatically easier tools**—enables users to take advantage of Drupal's robust technical architecture more easily than ever before.
- **Continuous innovation**—powerful new features delivered continuously, keeping Drupal at the cutting edge of the web.
- **Easiest upgrade in a decade**—and Drupal's commitment to easy upgrades in the future means never having to worry about a major replatforming to stay up to date.

Easy content authoring, reliable performance, and excellent security are standard features of Drupal. But what sets it apart is its flexibility. Its tools help you build the versatile, structured content that dynamic web experiences need. You can extend it with any one or more of thousands of add-ons – or integrate Drupal with external services and other applications in your infrastructure. No other content management software is this powerful and scalable.

Content Management Systems (CMS) are the platforms through which digital experiences like websites are designed and managed. An *open source* CMS provides the code without charging licensing fees.

**Open Source =
Powerful & Secure CMS with No Subscription Fee**

Drupal is a favorite open-source choice, with tens of thousands of developers and millions of users around the world.

Built by a global community of many of the best developers in the world constantly reviewing code for vulnerabilities, the fact that Drupal is open source makes it the most secure web platform available.

Features of Drupal 9

- ✓ **Enhanced ease-of-use**—Drupal 9 empowers content editors and marketers with dramatically easier tools to take advantage of the powerful technical architecture under the hood—no technical background required.
- ✓ **Greater accessibility**—Drupal 9 successfully takes its out-of-the-box accessibility to a new level, as our community of designers and developers prioritize accessibility with each newly added feature and interface.
- ✓ **Content hub for web, mobile and more**—whether your end-point is a dynamic website, mobile application, JavaScript framework or in-flight entertainment system, Drupal provides both a structured content model and flexible web service APIs serve all your channels from one source.

- ✓ **Powerful editorial digital management tools**—with reusable media and publication workflows, your marketing team has the latest tools at their fingertips.
- ✓ **API-first architecture**—not only on the forefront of headless/decoupled architecture, Drupal enables your engineering team to integrate with next-generation channels like voice assistants and wearable devices.
- ✓ **Security through transparency**—leveraging the power of open source, with thousands of developers keeping an eye on the code, and an industry-leading security team.
- ✓ **Multilingual**—the web knows no borders, and neither do we: Drupal has the best language support of any CMS, has been translated into more than 100 languages.
- ✓ **Performance and Scalability**—utilizing advanced solutions like BigPipe, Dynamic Page Cache, and major cache improvements, Drupal is used by some of the largest sites on the web.

Build the best of the web with Drupal 9 today!
