

## TLD Registration Policies

The mission and purpose of the .GAP TLD is to serve as a trusted, hierarchical, and intuitive namespace provided by The Gap, Inc. (“Registry Operator”) for use by Registry Operator, its qualified Affiliates, and Trademark Licensees. Only Registry Operator and its qualified Affiliates and Trademark Licensees may be allowed to register or control domain names or control the DNS records associated with domain names at any level in the .GAP TLD. Registry Operator will implement an internal process to determine which second-level domain names will be registered and which Affiliates and Trademark Licensees will be eligible to register second-level domains. All domain name registrations will be managed by the Registry Operator.

For the purposes of this proposed Registration Policy, Registry Operator utilizes the following definitions\*:

**Affiliate** – Affiliate means a person or entity that, directly or indirectly, through one or more intermediaries, or in combination with one or more other persons or entities, controls, is controlled by, or is under common control with, the person or entity specified.

**Control** – Control (including the terms “controlled by” and “under common control with”) means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a person or entity, whether through the ownership of securities, as trustee or executor, by serving as an employee or a member of a board of directors or equivalent governing body, by contract, by credit management or otherwise.

**Trademark Licensee** – Trademark Licensee means any corporation, partnership, limited liability company or similar legal entity (and not a person) that has a written trademark license agreement with Registry Operator or its Affiliate, for use of the registered trademark owned by Registry Operator or its Affiliate, the textual elements of which correspond exactly to the .BRAND TLD string operated by Registry Operator, where:

- (i) such license is valid under applicable law;
- (ii) such license is for the use of such trademark in the regular course of that entity’s business outside of the provision of TLD Registry Services, and is not primarily for the purpose of enabling registration or use of domain names in the TLD;
- (iii) such trademark is used continuously in that entity’s business throughout the Term; and
- (iv) the domain names in the TLD registered to the Trademark Licensee are required to be used for the promotion, support, distribution, sales or other services reasonably related to any of the goods and/or services identified in the trademark registration.

Registry Operator will review each second-level domain name to ensure that the name complies with internal policies governing the registration of .GAP domain names, including this Registration Policy. Additionally, Registry Operator will conduct ongoing reviews of each second-level domain at least once per calendar year namely to ensure compliance with the terms of the .GAP Registry Agreement, as well as with ICANN Consensus or Temporary Policies.

Pursuant to the policies outlined above, Registry Operator and its qualified Affiliates and Trademark Licensees will be the sole registrants of all domain names within the .GAP gTLD. Registry Operator has no affiliation with any government or country-code top-level domain manager, and as such, none of the domain names within the .GAP gTLD are registered to, operated by, sponsored by, or endorsed by a government or country-code top-level domain manager.

Registry Operator will take reasonable steps to investigate and respond to any reports from governmental agencies and ccTLD operators of conduct that causes confusion with the corresponding country code in connection with the use of a letter/letter two-character ASCII .GAP domain. Such complaints should be directed to the .GAP Abuse Contact and sent via e-mail to the following address: [gapregistries@fairwindspartners.com](mailto:gapregistries@fairwindspartners.com).

Registry Operator reserves the right to amend its registration policy.

\*Definitions for "Affiliate" and "Control" are taken from Section 2.9(c) of the Registry Agreement. The definition of "Trademark Licensee" is taken from Section 9.2 of Specification 13 of the Registry Agreement.
