

GEODIS in Hong Kong

GEODIS Hong Kong is a true growth partner to its clients offering end-to-end solutions based on its knowhow, its infrastructure, processes and information systems that ensure operational excellence and the best service quality.

Our Activities

Our activities serve the needs along the entire supply chain. Complemented by a global accounts approach, managed at corporate levels across activities and geographies.

E-Commerce

e-Commerce is a booming global logistics market. Driven by the purchase behavior of consumers with higher expectations, brands are propelling this unstoppable momentum.

Air and Ocean Freight

As a Freight Forwarder, GEODIS offers a wide variety of Air & Ocean Freight solutions for all types of national and international freight shipments. Perhaps your needs are simple.

Contract Logistics

GEODIS is one of the world's leading logistics providers, with over 300 platforms and 6,500,000 square meters of warehousing space around the globe.

Project Logistics

Innovation is one of GEODIS' key values. This value is especially important when it comes to Project Logistics - each complex and challenging project comes with its own set of unique requirements.

Control Tower

GEODIS control tower provides high supply chain visibility across countries and modalities. The heart of the control tower is an information hub, supported by detailed processes (SOPs, KPIs, milestones etc.) executed by a highly trained team.

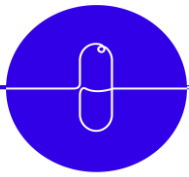

Buyers' Consolidation

GEODIS offers Buyers Consolidation Load (BCL), helps customers to move goods from multiple suppliers, consolidate goods at origin and ship to the destination countries. BCL is an efficient and cost-effective option for customers, seeking to consolidate cargoes in FCL containers rather than ship them individually by LCL.

Our Verticals

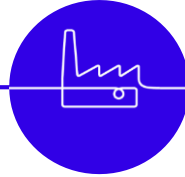

We design solutions that are industry-specific and that help you gain the competitive edge in your market.
