Publiccare un tema su wordpress.org

Gioie e dolori, un anno dopo

WordPress Meetup Day Milano (Online) 2021 - Francesco [Grasso](#)

Cos'è un tema

Cos'è un tema

Un tema si occupa di presentare i dati di un sito in più modi.

Applica a questi uno stile e diversi layout.

Si occupa anche della rappresentazione di questi sui vari dispositivi desktop, mobile e non.

È un insieme di file php, css, js, immagini ecc...

File principali

Due file necessari alla sua definizione (+1):

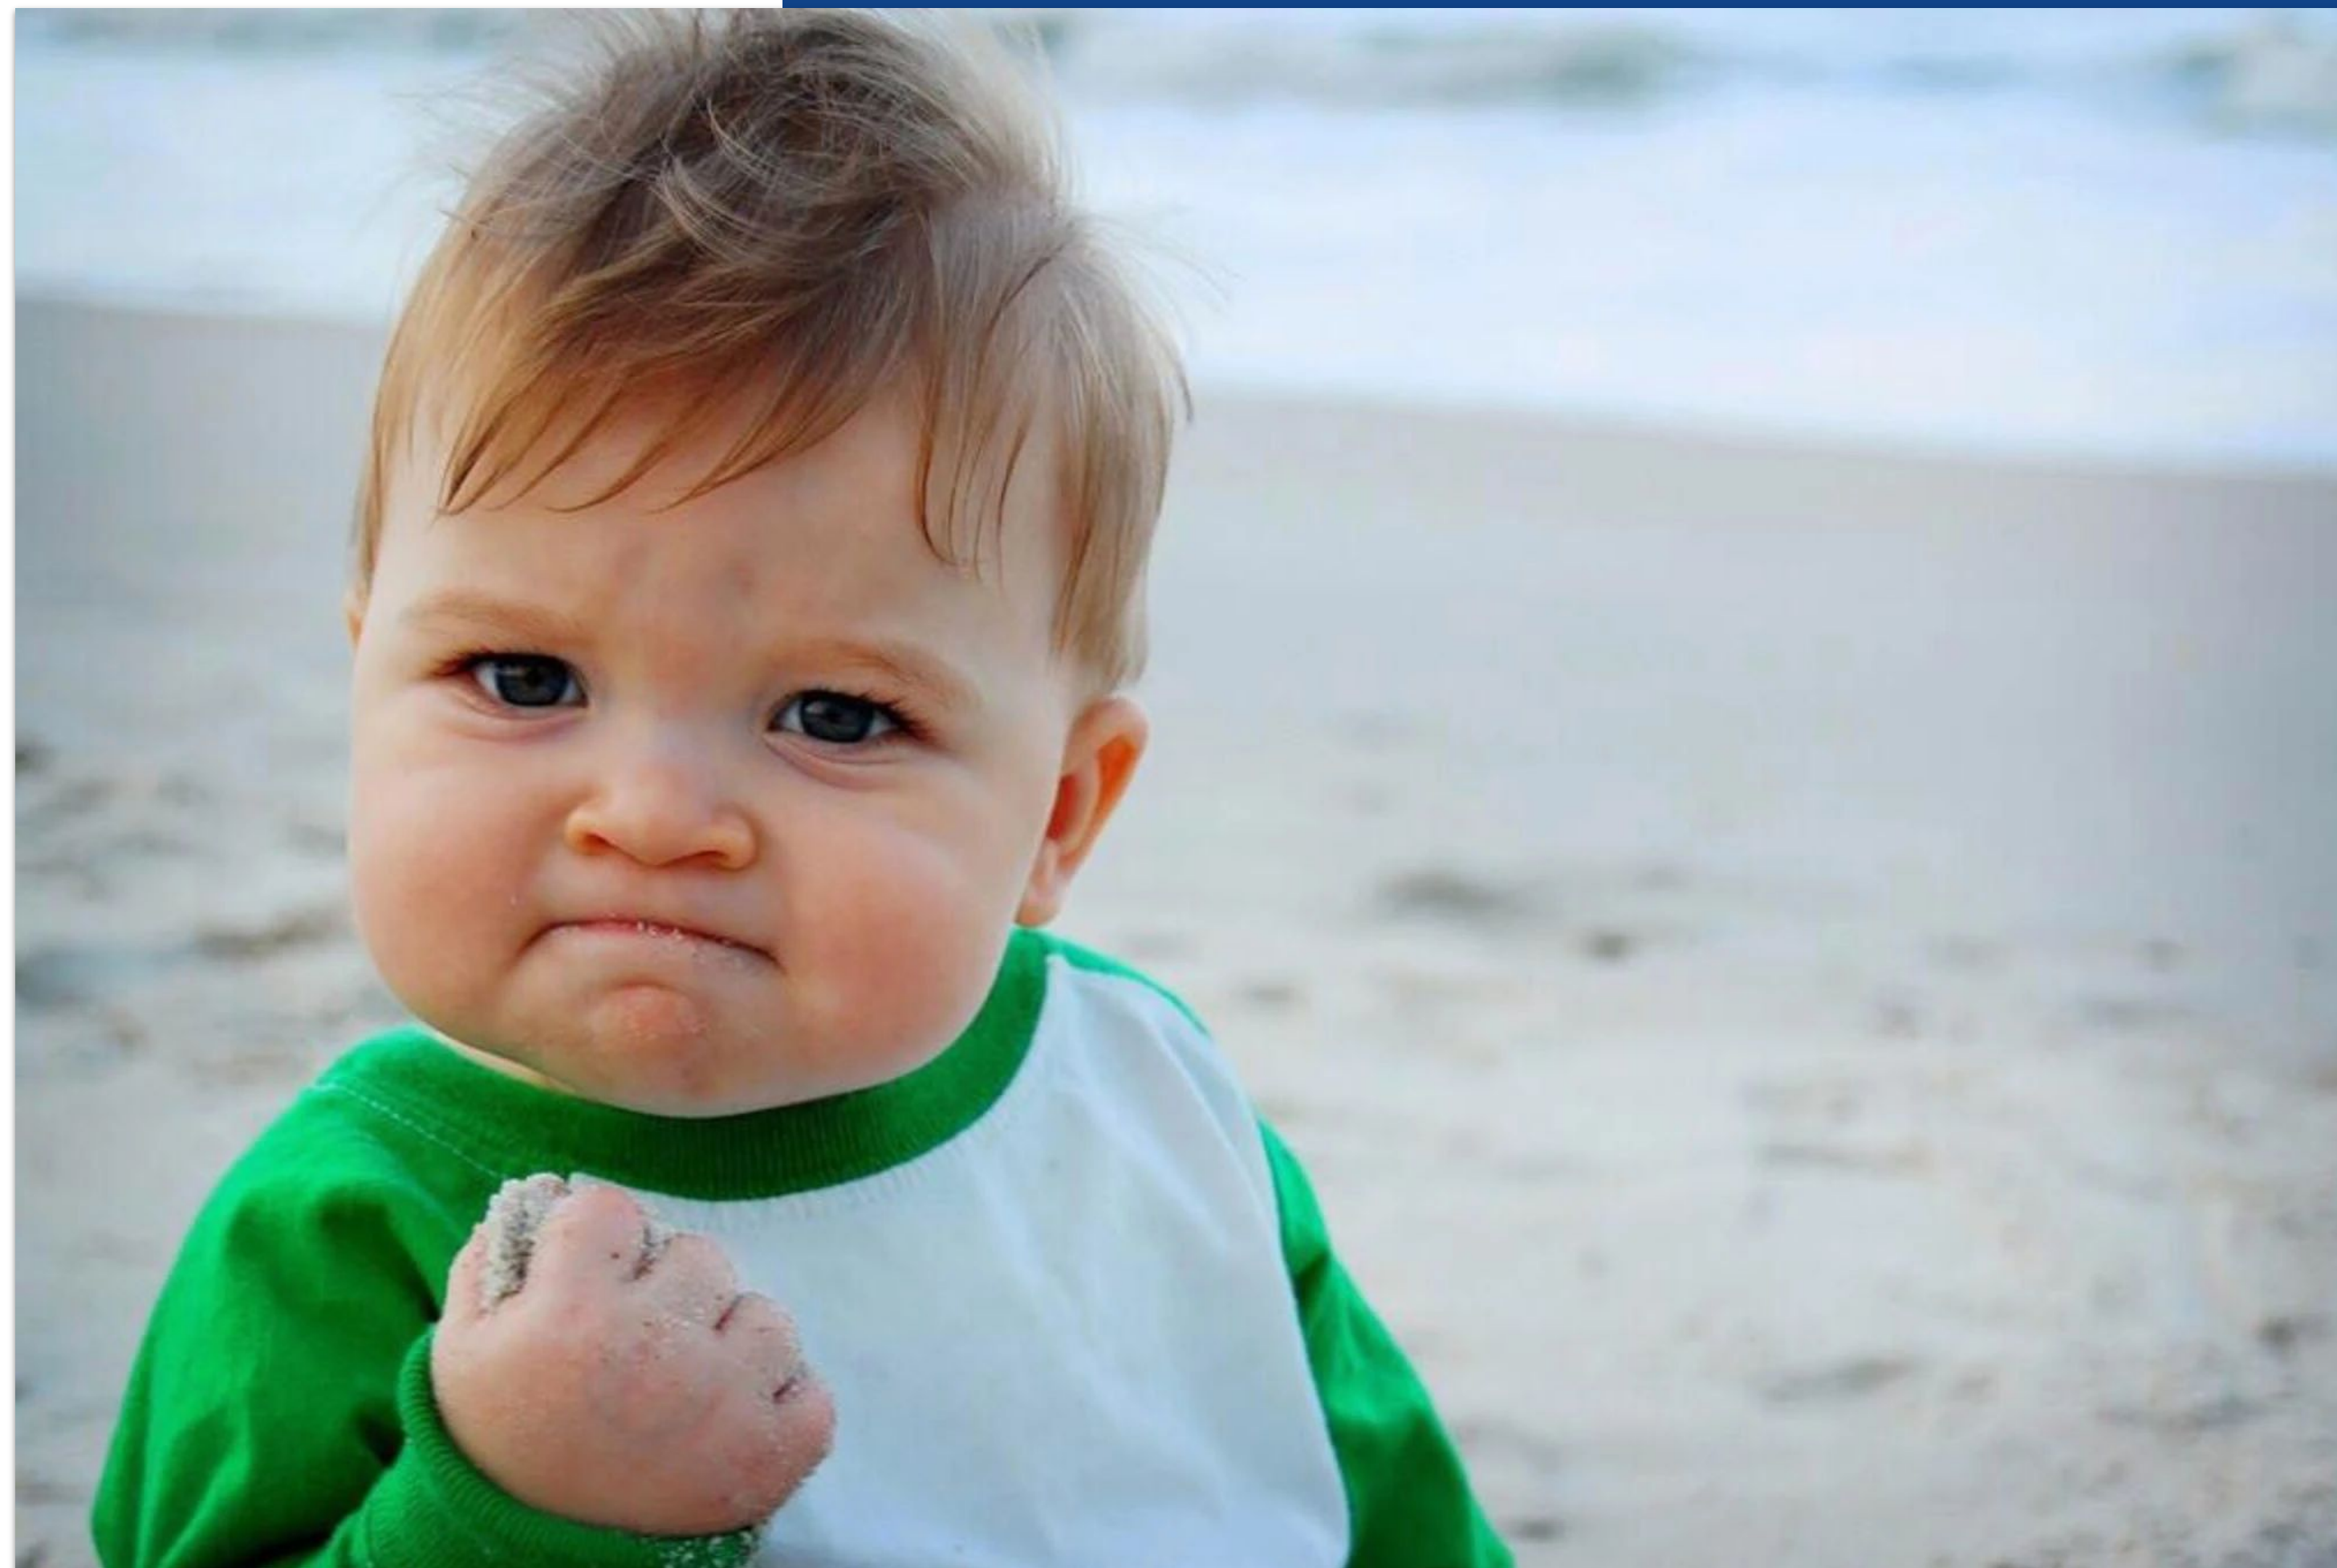

- `index.php`
- `style.css`

File principali

Due file necessari alla sua definizione (+1):

- `index.php`
- `style.css`
- `functions.php`

OK. Posso farcela!

Publicazione del tema

Chi si occupa della revisione e pubblicazione dei temi su wordpress.org è un team di volontari. Volontari.

Un team abbastanza ristretto che si occupa di controllare centinaia di richieste attraverso un processo tutt'altro che veloce!

Publicazione del tema

La prima volta che ho caricato il mio tema ho atteso per la prima revisione 4 MESI.

Frustrante? Sì. Tantissimo.

Ma c'è davvero poco da recriminare ai pochi volontari di questo team di wordpress.org

Publicazione del tema

La prima volta che ho caricato il mio tema ho atteso per la prima revisione 4 MESI.

Frustrante? Sì. Tantissimo.

Ma c'è davvero poco da recriminare ai pochi volontari di questo team di wordpress.org.

* Ho in programma di contribuire in questo team dopo l'esperienza maturata sul campo.

=== JS and CSS =====

The Theme is using lots of Minified CSS and JS which is good, it should have the original un minified version of the CSS and JS. Please read this.

Hi,

Still the image license are missing for the screenshot. I have mentioned you and its already there in the theme development hand book that all the image use in the screenshot should have 100% GPL compatible license. Freepick doesn't hold GPL license. and your screenshot having several images, you should mentioned each license separately.

Please check GPL compatible image source.

<https://make.wordpress.org/themes/handbook/review/resources/#recommended-websites-for-images>

I am not going to review this theme further till you fix this issue and check properly the requirement.

If you have any doubt please let us know via slack so that we can help you.

Please try to understand that it wasting our time too.

Thanks a lot.

Proteo is a modern, fast and fully customizable WooCommerce theme. Designed and developed by YITH - a team of top developers of premium themes - with a beautiful UI, a minimal design and an optimized code, is perfect for each kind of site or shop. With the Proteo Wizard you can import our demo content with just a

Come rendersi accattivanti rispetto temi super diffusi

- Una grafica moderna e leggera
- Qualità del codice
- Tante configurazioni facilmente attivabili
- Opzioni, opzioni, opzioni
- Procedure di onboarding integrate (setup wizard)
- Continuo sviluppo ed aggiunta di funzionalità
- Supporto a TUTTI i plugin che possono venire in mente agli utenti (builder inclusi)
- Nel caso di un tema shop: non sovrascrivere troppi template di WooCommerce. Meno problemi e aggiornamenti più veloci
