

ProSupport Plus for Enterprise

Introduction

Dell Technologies¹ is pleased to provide ProSupport Plus for Enterprise (the “**Service(s)**” or “**Support Services**”) in accordance with this Service Description (“**Service Description**”). Your quote, order form or other mutually-agreed upon form of invoice or order acknowledgment from Dell Technologies (the “**Order Form**”) will include the name(s) of the Product(s)², applicable Service(s) and related option(s), if any. For additional assistance, or to request a copy of your governing agreement applicable to the Services (the “**Agreement**”), contact your Dell Technologies sales representative. For Customers who purchase from Dell under a separate Agreement that authorizes the sale of these Services, the Dell Services Terms & Conditions Supplement³ also applies to these Services. For a copy of your agreement with your applicable Dell Technologies reseller, contact that reseller.

The Scope of This Service

The features of this Service include:

- Access on a 24x7 basis (including holidays)⁴ to a specialized Dell Technologies technical support resource from the Dell Technologies Customer Service and Support organization for troubleshooting assistance of Products.
On-site dispatch of a technician and/or delivery of replacement parts to the Installation Site or other Customer business location approved by Dell Technologies as detailed in the Agreement (as necessary and according to support option purchased) to address a Product problem.
- Access to a remote Service Account Manager (SAM).

Please review the table below for more details.

How to Contact Dell Technologies if You Require Service

Online, Chat, and Email Support: Dell Technologies website, chat, and email support available for select products at <https://www.dell.com/support>.

Telephone Support Requests: Available on a 24x7 basis (including holidays). Availability may differ outside of the United States and is limited to commercially reasonable efforts unless otherwise specified in this document. Visit <https://www.dell.com/support> for a list of applicable telephone numbers for your location.

The following chart lists the service features of ProSupport Plus for Enterprise provided under Dell Technologies’s warranty and/or maintenance terms. ProSupport Plus for Enterprise is available to support and maintain:

1. Dell Technologies Equipment which is identified on the [Dell Technologies Product Warranty and Maintenance Table](#) and/or on your Order Form as
 - including ProSupport Plus for Enterprise during the applicable warranty period; or
 - eligible for upgrade to ProSupport Plus for Enterprise during the applicable warranty period; or
 - eligible for ProSupport Plus for Enterprise during a subsequent maintenance period.
2. Dell Technologies Software which is identified on the [Dell Technologies Product Warranty and Maintenance Table](#) and/or on your Order Form as eligible for ProSupport Plus for Enterprise during a maintenance period.

¹ “Dell Technologies”, as used in this document, means the applicable Dell sales entity (“Dell”) specified on your Dell Order Form and the applicable EMC sales entity (“EMC”) specified on your EMC Order Form. The use of “Dell Technologies” in this document does not indicate a change to the legal name of the Dell or EMC entity with whom you have dealt.

² As used in this document, “Dell Technologies Products”, “Products”, “Equipment” and “Software” means the Dell Technologies Equipment and Software identified on the [Dell Technologies Product Warranty and Maintenance Table](#) or on your Order Form, and “Third Party Products” is defined in your Agreement, or in the absence of such definition in your Agreement, in the [Dell Technologies Commercial Terms of Sale](#), or your local Dell Technologies terms of sale, as applicable. “You” and “Customer” refers to the entity named as the purchaser of these Services named in the Agreement.

³ To review the Dell Services Terms of Sale Supplement, please go to <https://www.dell.com/servicecontracts/global>, choose your country and select the Support Services tab on the left hand navigation column of your local country page.

⁴ Availability varies by country. Contact your sales representative for more information.

SERVICE FEATURE	DESCRIPTION	PROSUPPORT PLUS—COVERAGE DETAILS
GLOBAL TECHNICAL SUPPORT	Customer contacts Dell Technologies by telephone or web interface on a 24x7 basis to report an Equipment or Software problem. Telephone contacts will be routed to a remote technical support contact to assist with their issue.	Included.
ONSITE RESPONSE	Dell Technologies sends authorized personnel to Installation Site to work on the problem after Dell Technologies has isolated the problem and deemed Onsite Response necessary.	<p>Included for Equipment only.</p> <p>Initial Onsite Response objective is based on the option purchased by the Customer. The options available to the Customer are the following; either 1) a four-hour service response during the same business day, or 2) a service response during the next local business day, during normal business hours, after Dell Technologies deems Onsite Support is necessary.</p> <p><u>4-Hour Mission Critical On-site Response</u></p> <p>Typically arrives on-site within 4 hours after completion of telephone-based troubleshooting.</p> <ul style="list-style-type: none"> • Available seven (7) days each week, twenty-four (24) hours each day - including holidays. • Available within defined four (4) hour response locations. • 4 Hour parts locations stock essential operational components, as determined by Dell Technologies. Non-essential parts may be shipped using overnight delivery. • Ability to define if the issue is a Severity 1 upon remote supports initial diagnosis • Critical situation procedures - Severity level 1 issues are eligible for quick Escalation/Resolution Manager and “CritSit” incident coverage. • Emergency dispatch - onsite service technician dispatched in parallel with immediate phone-based troubleshooting for Severity 1 issues. <p><u>Next Business Day On-site Response</u></p> <p>Following telephone-based troubleshooting and diagnosis, a technician can usually be dispatched to arrive on-site the next business day.</p> <ul style="list-style-type: none"> • Calls received by Dell Technologies after local cutoff at Customer site local time may require an additional business day for service technician to arrive at Customer’s location. • Available only on select models of Products. <p>Onsite Response does not apply to Software and may be separately purchased.</p>

*SEVERITY LEVEL DEFINITIONS

SEVERITY 1 Critical – loss of ability to perform critical business functions and requires immediate response

SEVERITY 2 High – able to perform business functions, but performance/capabilities are degraded or severely limited.

SEVERITY 3 Medium/Low – little to no business impact.

REPLACEMENT PARTS DELIVERY	Dell Technologies provides replacement parts when deemed necessary by Dell Technologies.	Included. Replacement parts delivery objective is based on the option purchased by the Customer. The options available to the Customer are the following; either 1) a four-hour service response during the same business day, or 2) a service response during the next local business day, during normal business hours, after Dell Technologies deems that a replacement part delivery is necessary. A Same Business Day part is one which upon failure may prevent the Supported Product that causes the loss of ability to perform critical business functions and requires immediate response. Parts deemed non-critical include, but are not limited to: bezels, mechanical chassis, hard drive blanks, rail kits, cable management accessories. Parts that may be deemed critical are: motherboards, CPUs, select memory modules and hard disk drives. Local country shipment cut-off times may impact the same day/next local business day delivery of replacement parts. Installation of all replacement parts performed by Dell Technologies as part of Onsite Response, but Customer has option to perform installation of Customer Replaceable Units (CRUs). See Dell Technologies Product Warranty and Maintenance Table for listing of parts designated as CRUs for specific Equipment or contact Dell Technologies for more details. If Dell Technologies installs the replacement part, Dell Technologies will arrange for its return to an Dell Technologies facility. If Customer installs the CRU, Customer is responsible for returning the replaced CRU to a facility designated by Dell Technologies. If the Dell technician determines that the Supported Product is one that should be replaced as a whole unit, Dell Technologies reserves the right to send Customer a whole replacement unit. Whole unit replacements may not be stocked for same day response times and there may be extended lead times for arrival of a whole unit replacement at your location, depending on where you are located and the type of Product being replaced.
PROACTIVE SOLID STATE DRIVE REPLACEMENT	Included for Storage and Converged Products. If the Endurance Level (as defined below) for any solid state drive prior to the device reaching its full capacity or less (as determined by Dell Technologies) the Customer is eligible to receive a replacement solid state drive. Endurance Level means the average percentage of life span remaining on the eligible SSD.	Included. Response objective is based on the applicable Replacement Parts Delivery and Onsite Response service features detailed above. Customer must activate and maintain the currently supported version(s) of SupportAssist and/or Secure Remote Support software during the applicable term of support. SupportAssist and/or Secure Remote Support enablement, as applicable is a prerequisite for these additional renewal service features.
RIGHTS TO NEW RELEASES OF SOFTWARE	Dell Technologies provides the rights to new Software Releases as made generally available by Dell Technologies.	Included.

INSTALLATION OF NEW SOFTWARE RELEASES	Dell Technologies performs the installation of new Software Releases.	<p>Equipment Operating Environment (OE) Software Included only when the associated Equipment into which the operating environment Software is being installed is covered by a Dell EMC warranty or a current Dell Technologies maintenance contract. Equipment operating environment Software is defined as software programming and/or microcode firmware needed to enable the Equipment to perform its basic functions, and without which the equipment cannot operate.</p> <p>Other Software (non-OE) Customer performs the installation of new Software Releases unless otherwise deemed necessary by Dell Technologies.</p>
24X7 REMOTE MONITORING AND REPAIR	<p>Certain Products will automatically and independently contact Dell Technologies to provide input to assist Dell Technologies in problem determination.</p> <p>Dell Technologies remotely accesses Products if necessary for additional diagnostics and to provide remote support.</p>	<p>Included for Products that have remote monitoring tools and technology available from Dell Technologies.</p> <p>Once Dell Technologies is notified of a problem, the same response objectives for Global Technical Support and Onsite Response will apply as previously described.</p>
24X7 ACCESS TO ONLINE SUPPORT TOOLS	Customers who have properly registered have access on a 24x7 basis to Dell Technologies's web-based knowledge and self-help Customer support tools via the Dell Technologies Online Support site.	Included.

(CONTINUES BELOW)

**SERVICE
ACCOUNT
MANAGER
("SAM")**

The ProSupport Plus for Enterprise assigned SAM is a remote resource that provides a wide range of system, environmental and account management features and capabilities designed to reduce downtime and improve the overall support experience from Dell Technologies.

Included with the Service:

Onboarding assistance: Ensuring the customer is fully enabled to receive the ProSupport Plus service by:

- Verifying the accuracy of relevant Customer support information such as account name, address, etc.
- Providing knowledge transfers such as how to contact Dell Technologies to open service requests and use of Dell Technologies support tools and technologies
- Designating schedule for SAM deliverables such as reporting and service reviews

Monthly Reporting: Reporting and recommendations on entitled systems including:

- Summary of open and closed service requests by month;
- Verification of currently installed system software versions against target code recommendations; and
- Contract status, including start/end dates and other basic contract details.

In order to fully enable monthly reporting, Dell Technologies connectivity technologies such as SupportAssist and/or Secure Remote Support must be installed with the appropriate log collection options enabled

Included on Products covered by ProSupport Plus for Enterprise service or then current maintenance contract during Dell Technologies's normal local business hours which may vary by region and country, excluding Dell Technologies and local holidays. See additional Coverage Details below.

Dell Technologies is responsible for performing only the SAM activities and tasks expressly specified in this document. All other tasks, activities and services are out of scope.

**SERVICE
ACCOUNT
MANAGER
("SAM")
CONTINUED**

Service Review: The SAM provides a service review of the details in the Service Report. Schedule, timeframe and other topics to be reviewed will be determined between the SAM and the Customer during Onboarding.

System Maintenance For entitled assets, the SAM will assist Customer in coordinating delivery of System Maintenance events within the Customer's maintenance window. See below for additional information.

Dell Technologies Escalation Support: Acting as the Services liaison to coordinate all resources necessary to address individual Severity 1 issues or more systemic problems.

ADDITIONAL SUPPORTASSIST DETAILS

SERVICE FEATURE	DESCRIPTION	COVERAGE DETAILS
SUPPORTASSIST ENTERPRISE PREDICTIVE DETECTION OF HARDWARE FAILURES	For entitled-systems that are monitored via SupportAssist Enterprise, intelligent analysis of device telemetry is collected and used to predict hardware failures that may occur in the future.	Included. Please note; Predictive detection of hardware failures is applicable only for the batteries, hard drives, backplanes, and expanders of 12th and later generation of PowerEdge servers that have PowerEdge RAID Controller (PERC) Series 5 to 10. Predictive detection of hardware failures is available only when the automated periodic collection and upload of system information is enabled in SupportAssist Enterprise.

ADDITIONAL SUPPORT WITH CLOUDIQ

SERVICE FEATURE	DESCRIPTION	COVERAGE DETAILS
CLOUDIQ	Customers who have properly connected their entitled-system to Dell Technologies using either Secure Remote Services or SupportAssist have access to CloudIQ, which provides proactive health scores, performance impact analysis and anomaly detection and workload contention analysis.	Included for the following Dell Technologies platforms; PowerMax, PowerStore, PowerScale, PowerVALut, Dell EMC Unity XT, XtremIO, SC Series, VxBlock and Connectrix switches.

Customer Responsibilities for SAM Service Feature

Dell Technologies's provision of the SAM service feature detailed above is contingent upon the Customer fulfilling the following responsibilities:

- Making an appropriate system maintenance window(s) available for the SAM as deemed necessary by Dell Technologies.
- Ensuring that all environment, technical and operational requirements are met.
- Providing the SAM with timely access to (a) at least one technical contact with system administration responsibilities and appropriate system/information access privileges, and (b) applicable subject matter experts, systems and networks (including, without limitation, remote systems/ network access) as deemed necessary by Dell Technologies.
- Assuming all responsibility for network connectivity, performance, and configuration issues.
- Verifying that the Equipment location(s) is/are prepared prior to the commencement of ProSupport Plus for Enterprise.

Additional important information on SAM Service Feature

- Availability of the SAM service is during normal business hours. Business hours are defined by the location where the SAM resides, and may vary by region and country. At Dell Technologies's discretion and when deemed necessary by Dell Technologies, SAM services may be performed onsite.
- Afterhours support may be provided by other resources within Dell Technologies at Dell Technologies's discretion.
- The location of the SAM will be assigned during on-boarding based on Customer's preferred service area and staffing availability.

PROSUPPORT PLUS FOR ENTERPRISE SYSTEM MAINTENANCE

ProSupport Plus System Maintenance provides Dell Technologies customers with necessary remote maintenance events occurring during the term of the service contract on devices covered by ProSupport Plus for Enterprise and monitored under applicable Dell Technologies connectivity technology, such as SupportAssist and/or Secure Remote Services, as applicable. System maintenance helps maintain performance and may reduce the likelihood of future incidents due to incompatible hardware, software, BIOS, and firmware versions. System Maintenance events are coordinated between the customers, the SAM and Dell Technologies support personnel. Delivery of System Maintenance is generally available 24x7x365, but may be subject to mutual customer and Dell Technologies resource availability. Dell Technologies recommends System Maintenance occur twice per year. Certain Products may have limitations on the number of times System Maintenance may be performed per year. Please consult with your sales representative or assigned SAM for a list of supported Products and any applicable limitations.

Not Included in ProSupport Plus for Enterprise System Maintenance

- Updates on interconnected devices not covered by a current ProSupport Plus for Enterprise support contract.
- Updates on any software without corresponding entitlement to such updates under an appropriate, software support contract by either Dell Technologies or a third party for select Third Party Products.
- Operating System upgrades and hypervisor patch creation or other related engineering or software development support.
- Creation of application patches.
- Onsite delivery of maintenance.
- De-installation or installation of additional hardware, or configuration tasks.
- Installation or configuration of software not specifically listed in this Service Description
- Application performance tuning.
- Virus, spyware, or malware identification or removal.
- Any other updates or other activities not specifically documented within this Service Description.

Additional Important Information about ProSupport Plus for Enterprise System Maintenance

- During the maintenance event, upgrades may cause a temporary loss of connectivity to other attached devices.
- After completion of the upgrade attached devices may need to be rebooted and connectivity verified.
- System(s) to be upgraded must be made available to Dell Technologies or Dell Technologies-authorized agents during the agreed upon maintenance window.
- Depending on the system(s) to be upgraded an additional system management system or resource may need to be made available.
- Depending on the system(s) to be upgraded appropriate administrative rights to the device may need to be provided to Dell Technologies or Dell Technologies authorized agents.
- Customer is responsible for having and maintaining all license requirements pertaining to Equipment and Software updates.
- In the event that updating Software on entitled Product could cause degradation or impact performance on other unentitled Product, Dell Technologies in consultation with the customer may choose to not proceed with the System Maintenance activity until that situation is resolved.
- In order to fully enable ProSupport Plus for Enterprise System Maintenance, applicable connectivity technology such as Dell Technologies SupportAssist and/or Secure Remote Support must be installed with log collection options enabled.
- Installation of new Software Releases for the Dell Technologies Converged and Hyperconverged Infrastructure systems, determined during System Maintenance including but not limited to software versions posted on applicable interoperability configuration matrices (The Dell Technologies Simple Support Matrix or the Release Certification Matrix) may require the purchase of a separate services engagement from Dell Technologies. Contact Dell Technologies for more information.

COLLABORATIVE ASSISTANCE

If a Customer opens a service request and Dell Technologies determines that the problem arises with an eligible third-party vendor's products commonly utilized in conjunction with Products covered by a current Dell Technologies warranty or maintenance contract, Dell Technologies will endeavor to provide Collaborative Assistance under which Dell Technologies: (i) serves as a single point of contact until the problems are isolated; (ii) contacts the third-party vendor; (iii) provides problem documentation; and (iv) continues to monitor the problem and obtain status and resolution plans from the vendor (where reasonably possible).

To be eligible for Collaborative Assistance, Customer must have the appropriate active support agreements and entitlements directly with the respective third-party vendor and Dell Technologies or an authorized Dell Technologies reseller. Once isolated and reported, the third-party vendor is solely responsible to provide all support, technical and otherwise, in connection with resolution of the Customer's problem. **Dell Technologies IS NOT RESPONSIBLE FOR THE PERFORMANCE OF OTHER VENDORS' PRODUCTS OR SERVICES.** A list of Collaborative Assistance partners can be found on the [Collaborative Assistance List](#). Please note that supported third-party products may change at any time without notice to Customers.

DELL TECHNOLOGIES SYSTEM SOFTWARE SUPPORT

Dell Technologies Software support included within ProSupport Plus for Enterprise provides support for select Third Party Products, including select end-user applications, operating systems, hypervisors and firmware when such Third Party Products are 1) used with and are currently installed and operating on Products at the time that support is requested, and 2) covered by an existing ProSupport Plus for Enterprise support and maintenance term of service. This level of support is provided on entitled ProSupport Plus for Enterprise Equipment, regardless of how the eligible software was purchased and licensed, but Customer is responsible for ensuring that such eligible software was purchased and licensed properly according to the publisher. Customer is solely responsible for correcting any problems with licenses and purchases of eligible software to be eligible to receive these Services at any time during the coverage period. A list of eligible software can be found on the [Comprehensive Software Support List](#). Please note that supported Third Party Products may change at any time without notice to Customers. Situations giving rise to Customer's questions must be reproducible on a single system, which may be physical or virtual. Customer understands and accepts that resolutions of certain issues giving rise to Customer's service request may not be available from the publisher of the relevant software title and may require support from the publisher, including installation of additional software or other changes to Products, Customer accepts that in such situations where no resolution is available from the publisher of the relevant software title, Dell Technologies's obligation to provide support to the Customer will be fully satisfied.

Additional Terms and Conditions Applicable to End Users Purchasing Product(s) from an OEM

An "OEM" is a reseller who sells the Supported Products in a capacity as an original equipment manufacturer that is purchasing Dell Technologies Products and Services from the OEM Solutions (or its successor) business group for an OEM project. An OEM typically embeds or bundles such Dell Technologies Products in or with OEM Customer's proprietary hardware, software or other intellectual property, resulting in a specialized system or solution with industry or task-specific functionality (such system or solution an "OEM Solution") and resells such OEM Solution under OEM's own brand. With respect to OEMs, the term "Supported Products" includes Dell Technologies Supported Products that are provided without Dell Technologies branding (i.e. unbranded OEM-ready system), and "End-User" means you, or any entity purchasing an OEM Solution for its own end-use and not for reselling, distributing or sub-licensing to others. It is OEM's responsibility to provide first level troubleshooting to the End User. An appropriate best-effort initial diagnosis should be performed by OEM before the call goes to Dell Technologies. This OEM maintains responsibility for providing the initial troubleshooting even when its End User engages Dell Technologies to request service, and if an End User contacts Dell Technologies for service without contacting their OEM, Dell Technologies will ask the End User to contact their OEM to receive first level troubleshooting before contacting Dell Technologies.

Dell Technologies ProSupport Plus for Enterprise on Non-Standard Parts in Custom Server Products

The repairs and exchanges of non-standard or unique parts ("Non-Standard Component Support Services") are a value-added exchange service complementing Customer's PowerEdge Product warranty that covers standard Dell Technologies components in a standard configuration, and that require replacement due to defects in workmanship or materials ("Warranty Repairs"). Dell Technologies branded firmware/software for "Non-Standard Components" is NOT available, and the Customer must use manufacturer provided utilities to monitor and/or update the component. The Customer will also work with the manufacturer directly to resolve any quality issues related to software/firmware, utilities, and hardware. Dell Technologies will provide Non-Standard Support Services to replace non-standard or

unique parts that Customer forecasted and guaranteed to be available as set forth above, and once Customer has made corresponding arrangements to assist Dell Technologies in placing any orders for service stock in order to facilitate repair activity. Provided Customer has accurately forecasted stocking needs, Dell Technologies will exchange the part that exhibits a defect according to the Customer's applicable response time for Warranty Repairs and install the replacement part in the Customer's Product, but Customer acknowledges and agrees that Dell Technologies is not liable to Customer to ensure part availability. Same day (e.g. 4 hour) parts and field response may not be available for "non-standard" component replacement, and Dell Technologies will default to Next Business Day Service in these cases. Replacement parts may be new or refurbished as permitted by local law, and fulfillment of Non-Standard Component Support Services repairs and exchanges may require Dell Technologies to utilize a third party manufacturer/third party publisher's warranty and/or maintenance services, and Customer agrees to assist Dell Technologies and provide any materials requested by any third party manufacturer or third party publisher to facilitate utilization of the corresponding third party warranty and/or maintenance services.

Dell Technologies's engineering testing of the resulting configuration pursuant to a separate statement of work (SOW) after installation of the non-standard or unique parts, software requested by Customer is a point in time activity and the Non-Standard Component Support Services are available only on the specific configuration as defined by Customer and tested by Dell Technologies. Dell Technologies will communicate the exact hardware configuration tested including firmware levels. Once engineering testing is complete Dell Technologies will provide the results via reports with indication of Pass/Fail. Dell Technologies will use commercially reasonable efforts to support recognition and operation of the non-standard component on the Dell Technologies Product, however modification of Dell Technologies standard utilities (including BIOS, IDRAC, and SupportAssist) will not be supported. Customer will be responsible for working with the manufacturer directly to resolve any non-standard component issues which arise during engineering testing (including quality issues, software, firmware, or hardware specifications/limitations). Additional Dell Technologies engineering testing after Customer has received a report with an indication of PASS will require a new SOW and associated non-recurring engineering fees, including any engineering testing requested in connection with a repair or replacement of any component of the configuration during the warranty term of the Customer's Equipment.

Other Details about Your Service

The warranty periods and support options ("Support Information") on this website apply (i) only between Dell Technologies and those organizations that procure the applicable products and/or maintenance under a contract directly with Dell Technologies (the "Dell Technologies Customer"); and (ii) only to those products or support options ordered by the Dell Technologies Customer at the time that the Support Information is current. Dell Technologies may change the Support Information at any time. Other than changes caused by publishers and manufacturers of Third Party Products, the Dell Technologies Customer will be notified of any change in the Support Information in the manner stated in the then current product ordering and/or maintenance related agreement between Dell Technologies and the Dell Technologies Customer, but any such change shall not apply to products or support options ordered by the Dell Technologies Customer prior to the date of such change.

Dell Technologies will have no obligation to provide Support Services with respect to Equipment that is outside the Dell Technologies Service Area. "Dell Technologies Service Area" means a location that is within (i) one hundred (100) drivable miles or one hundred sixty (160) drivable kilometers of an Dell Technologies service location for Storage and Data Protection Equipment and/or components; and (ii) the same country as the Dell Technologies service location, unless otherwise defined in your governing agreement with Dell Technologies, in which case the definition in the governing agreement prevails. For EMEA customers, unless stated otherwise in this Service Description or the Agreement, on-site service is available within a distance of up to 150 kilometers from nearest Dell Technologies Logistics location (PUDO or Pick-Up/Drop-off location). Please contact your sales representative for more information about availability of on-site service in EMEA.

This Service is not available at all locations. If your Product is not located in the geographic location that matches the location reflected in Dell Technologies's service records for your Product, or if configuration details have been changed and not reported back to Dell Technologies, then Dell Technologies must first re-qualify your Product for the support entitlement you purchased before applicable response times for the Product can be reinstated. Service options, including service levels, technical support hours, and on-site response times will vary by geography and configuration, and certain options may not be available for purchase in Customer's location, so please contact your sales representative for these details. Dell Technologies's obligation to supply the Services to relocated Products is subject to various factors, including without limitations, local Service availability, additional fees, and inspection and recertification of the relocated Products at Dell Technologies's then-current time and materials consulting rates. Unless otherwise agreed between Dell Technologies and Customer, in cases where service parts are shipped directly to Customer, the Customer must be able to accept shipment at the location of the Products to be serviced. Dell Technologies will not be held liable for support delays due to the Customer's failure or refusal to accept shipment of parts. Multi-component storage systems require active support option agreements on all hardware and software components of the system in order to receive all of the benefits of the support agreement for

the entire solution. Unless otherwise agreed in writing with Customer, Dell Technologies reserves the right to change the scope of Support Services on sixty (60) days' prior written notice to Customer.

Products or services obtained from any Dell Technologies reseller are governed solely by the agreement between the purchaser and the reseller. That agreement may provide terms that are the same as the Support Information on this website. The reseller may make arrangements with Dell Technologies to perform warranty and/or maintenance services for the purchaser on behalf of the reseller. Customers and resellers who perform warranty and/or maintenance services or professional services must be properly trained and certified. Performance of any services by untrained/uncertified Customers, resellers or third parties may result in additional fees if support from Dell Technologies is required in response to such third parties' performance of services. Please contact the reseller or the local Dell Technologies sales representative for additional information on Dell Technologies's performance of warranty and maintenance services on Products obtained from a reseller.
