A NEW GREEN DEAL FOR EUROPE'S NATURE

Science and political action towards socio-ecological restoration

The organizing committee and the University of Alicante welcome you to the 12th European Conference on Ecological Restoration.

Between September 7-10 2021, we will discuss challenges facing ecological restoration in post-2020 Europe, and particularly, how can ecological restoration promote the recovery of damaged, degraded and destroyed socio-ecological systems in these critical times.

Let's meet online and work together towards a new green deal for Europe's Nature!
