LATITUDE 3320

Smaller and smarter than ever.

SLEEK AND PROFESSIONAL DESIGN

With an ultra-portable, modern design, the Latitude 3320 is the world's smallest and lightest 13" essential commercial notebook.* Its drop hinge creates a clean, modern look that reduces overall height when open. The Latitude 3320 comes in Titan Grey, and the 13.3" FHD screen with narrow bezels delivers sharper-looking, more detailed images and enables clear, crisp viewing. Enjoy an excellent user experience with a new edge-to-edge keyboard design, with larger keycaps and L/R keys, plus a larger mylar touchpad that comes with a precise, glass-like feel. Now available with an integrated lockslot for added security. Ideal for any business and any budget.

BUSINESS-CLASS PERFORMANCE FOR ENHANCED PRODUCTIVITY

Power through any day with 11th Gen Intel Core Processors (TGL-U) and Intel Iris Xe integrated graphics. Offered with up to 16GB LPDDR4x memory and up to 1 TB Class 40 SSD storage. Enjoy extended battery life with high-density batteries. Choose either the 41Whr 3-cell battery or the 54Whr 4-cell battery for even longer battery life. Experience enhanced connectivity with both legacy and future-ready ports, including HDMI, 2xUSB 3.2 Gen1, and USB 3.2 Gen2x2 Type-C. Achieve EPEAT Gold status by choosing a Type-C power supply. Add an optional fingerprint reader that is built into the power button. Optional Dell Hybrid Client software solution with hybrid cloud management enables seamless, streamlined access to applications and data.

UP-LEVELED INTELLIGENCE WITH DELL OPTIMIZER

The Latitude 3320 now features Dell Optimizer, built-in AI that learns and responds to the way you work to improve application performance, battery life and audio settings. ExpressConnect dynamically provides better Wi-Fi connection for faster, prioritized speeds and prioritizes bandwidth for conference calls. ExpressResponse learns how users typically utilize their favorite applications, continuously improving and applying settings, for the nimblest performance possible. ExpressCharge reduces downtime and learns your day-to-day charging habits to ensure your battery operates at its full potential, and charges up to 80% in about 1 hour. Intelligent Audio will automatically tune your system by reducing echoes and background noise, managing speech volume, and refining overall sound experience.

Built for business

Experience a new way to work with Dell Technologies Unified Workspace. Intelligence built-in. Modernization built-on.

We know that having the right device is just the start to a great workday. Employees need intelligent, intuitive and responsive experiences that allow them to work productively and without interruption. Dell Technologies Unified Workspace is transforming the employee experience and ensuring IT has proactive, predictive and automated solutions to deliver on the promise of a modern workday, while simplifying their ability to deploy, secure, manage and support their environment.

DEPLOY

ProDeploy in the Unified Workspace allows IT to move away from traditional, high-touch, manual deployment, and instead, ship devices preconfigured with company apps and settings from the Dell factory directly to their end users—having end users up and working on day one.

SECURE

Secure: Dell Trusted Devices are a secure foundation for the modern mobile workforce. Our comprehensive family of endpoint security solutions work together to secure the device both above and below the OS, giving IT confidence and enabling end users to remain productive.

MANAGE

With Dell's modern end-point management solutions, we can accelerate uninterrupted workflow with automation, integration and optimization from one trusted partner.

PROSUPPORT CLIENT SUITE WITH SUPPORTASSIST

AI-driven predictive, proactive support keeps end-users working at full speed and IT admins looking ahead by virtually eliminating unplanned downtime.
