

ways factory provisioning will streamline your IT workflow.

Introducing ProDeploy in the Unified Workspace. This is how deployment gets done.

1 | Ready-to-go systems:

By integrating factory and cloud, we're the first OEM that performs all of your provisioning with VMware Workspace ONE right in the factory.*

2 | Ready-to-work employees:

Then we ship systems from our people to yours, anywhere, everywhere, so they hit the ground running.

3 | Save IT time:

This saves up to nearly a week of IT time per 1,000 devices deployed**

4 | Fast-track your operation:

This also reduces your work time to deliver core applications to your employees from 2 hours to just 12 minutes, and reduces the time from application requests to delivery from 20 days down to three.***

5 | Freedom to innovate:

ProDeploy in the Unified Workspace frees you from time-consuming IT deployment, so you can focus on other management priorities, and what's next.

Find out how ProDeploy in the Unified Workspace gives IT time back so you can focus on innovation.
