

Delta Dental Community Care Foundation

2021 New York Giving

In 2021, the Delta Dental Community Care Foundation granted \$1,272,385 within the state of New York.

The Foundation partnered with local community organizations to increase access to care, support dental education, fund research that advances the oral health field and respond to disasters or other community needs as they arose.

New York Partner Spotlight

Supported by a grant from the Delta Dental Community Care Foundation, the University at Buffalo School of Dental Medicine (UB SDM) is working to increase delivery of oral health care to people with intellectual and developmental disabilities in Western New York State, while developing a workforce that is prepared to treat this population. This effort addresses a critical need since patients with disabilities often face numerous barriers to dental care. Over a two-year period, the UB SDM will collaborate with the nonprofit organization Arc GLOW to overcome these challenges. Working in a new, state-of-the-art mobile dental clinic, UB SDM staff, faculty and students will provide preventive, restorative and surgical procedures at different Arc GLOW locations several days per week, serving individuals in New York State's Genesee, Livingston, Orleans and Wyoming counties.

Since 2011, the Foundation, the philanthropic arm of Delta Dental of California, has awarded more than \$80 million across 15 states and the District of Columbia in the form of:

Access to care grants are awarded to organizations working to increase access to quality dental care for underserved children, seniors and adults.

Education and research grants provide funding for oral health research and scholarships for students pursuing the dental profession.

Community Giving grants support local nonprofits, including organizations promoting social justice, chronic disease and disaster relief.
