DO I HAVE TO BE ENROLLED IN VA HEALTH CARE TO RECEIVE VET CENTER SERVICES?

You do not have to be enrolled in VA health care or have a service-connected disability.

HOW LONG WILL IT TAKE TO BE SEEN?

Anyone who visits a Vet Center will be seen that day and a plan to obtain further services will be discussed. You may also call and schedule an appointment at a time that works for you, including non-traditional hours.

Do I need to bring any documentation?

A Vet Center team member will look for one or more of the following: discharge documents (such as a DD214), receipt of certain awards or pay stubs. If these documents are not readily available before you visit, someone will help you obtain these when you come in.

What is Bereavement Counseling?

Bereavement counseling is assistance and support to eligible individuals with emotional and psychological stress after the death of a loved one. Bereavement counseling includes a broad range of transition services including outreach, counseling and referral services to family members.

What is Military Sexual Trauma Counseling?

Military sexual trauma counseling may include individual or group counseling, marital and family counseling, referral for benefits assistance, liaison with community agencies or substance abuse information and referral to help you deal with the emotions of military sexual trauma and regain confidence in your everyday life. Any eligible Veteran who was sexually traumatized while serving in the military is eligible to receive counseling regardless of gender or era of service. Onsite counseling, assessment and referral for sexual trauma is available at all Vet Centers.

Will Vet Centers share my information with VA or the Department of Defense (DoD)?

Confidentiality is very important. Vet Centers are safe places to discuss feelings or emotions that may arise after transitioning out of the military, experiences endured while serving in combat, or from sexual assault or trauma that occurred while serving. Vet Center records are not linked to any mental or behavioral health records and will not be shared with VA Medical Centers or the DoD without a signed release of information from the Veteran or Service member.
