

TCO Certified and Dell Technologies

We're committed to doing the most good for people and the planet. TCO Certified is one of the many sustainability programs we participate in to show our responsibility for enriching the world.

[View Our Eco Labeling Standards](#)

Criteria that drives progress

These comprehensive standards promote social and environmental sustainability by demanding technology that's durable, upgradeable and recyclable.

Responsible Manufacturing

Manufacturing must follow practices that benefit workers' health and safety and the environment.

Product Life Cycle

A product should fit within a circular economy by producing less waste throughout its lifespan.

Eco-friendly Materials

Recyclable packaging and take-back options lessen a product's environmental impact.

Sustainable Performance Indicators

Metrics like energy consumption and recycled plastic content measure progress toward sustainability goals.

What is TCO Certified?

A leading sustainability certification for IT products. Technology must meet criteria for energy efficiency, ergonomic design and more.

The following pages contain a list of our currently registered TCO products, for information on legacy products or more information visit [TCOCertified.com](https://www.dell.com/TCOCertified).

To purchase a TCO Certified product, please contact your local sales representative.
