

Dell Hybrid Client

KEY USES

Dell Hybrid Client — a modern client for today's users

World's first client computing software with hybrid cloud management enabling seamless access to applications and data whether they are in the cloud, in the data center or locally¹.

Performance-oriented power worker accessing a rich mix of local, cloud-based and virtualized apps

- ✓ Built-in VDI protocol to connect to a remote workstation and perform graphic-intensive work
- ✓ Secure access to cloud-based productivity applications reducing reliance on VDI for non-mission critical workloads
- ✓ Local offloading of cloud productivity apps and unified communications tools to users' device
- ✓ Flexible office space as well as a space saving remote work solution with the modular all-in-one OptiPlex 7090 Ultra

Non-Windows desktop for the knowledge worker accessing cloud-based resources

- ✓ Out of the box support for cloud-based productivity applications with an easy to manage, highly secure client device
- ✓ Built-in feature rich VDI client
- ✓ Single-sign-on across VDI and cloud resources
- ✓ A flexible, space-saving modular all-in-one solution with OptiPlex 7090 Ultra to streamline office and home office
- ✓ Centralized management of the user's devices and application orchestration from the cloud

Task worker accessing VDI applications and transitioning to cloud resources

- ✓ Highly managed, cost-effective client device
- ✓ Full-featured local browser with security parameters centrally managed (restrict/allow URLs, restrict plugins, etc...)
- ✓ Out of the box access to cloud-based productivity applications and support for local Linux applications reducing the strain on VDI back-end resources
- ✓ Built-in support for VDI brokers from leading vendors (Citrix, VMware and Microsoft)
- ✓ Easy to adopt, leveraging local Active Directory or sync on-prem Azure AD
- ✓ Single-sign-on across VDI and cloud resources
