YEAR OF THE GUARD

EXECUTIVE OVERVIEW

Today's complex and evolving security environment requires greater reliance on the Guard

Continued investment in the National Guard ensures future threats are met

By Gen. Daniel Hokanson *Chief, National Guard Bureau*

The National Guard is a lethal, cost-effective, dual-role operational force that provides strategic depth to the Army, Air Force, and Space Force, and responds to crises in our homeland. We are capable of operating in a complex global security environment, and continue to invest in modernization and readiness to prepare for the threats of the future. Today's National Guard is an integral part of addressing the gravest challenges facing the Joint Force.

Globally, China, Russia, Iran, North Korea, and violent extremist organizations continue to present significant threats to U.S. prosperity and security. At home, our adversaries use of cyber-attacks and disinformation threaten our democracy, while the growing frequency and severity of hurricanes, wildfires, floods, and a global pandemic challenge the safety of our citizens and communities.

The year 2020 was unprecedented and historic. National Guard members supported every Combatant Commander around the globe and met every mission here at home. On June 6, 120,000 National Guard Soldiers and Airmen were mobilized in support of overseas and domestic missions, one of the highest levels of National Guard support to our nation since World War II.

Given the uncertain future and budget priorities, we expect the Department of Defense (DOD) to rely on the National Guard more, not less. Therefore, we must be ready to execute our three core missions: fighting America's wars; securing the homeland; and building enduring partnerships that support our nation's strategic objectives. Continued investment in the National Guard ensures we can meet today's demands while preserving the capability, capacity and deterrence our nation needs against a broad spectrum of potential future threats.

WARFIGHT

The National Guard is the primary combat reserve of the Army and Air Force, and provides operational capability to the Space Force. We provide enduring, rotational, surge, and follow-on forces to meet any Joint Force mission. Today, thanks to the substantial investment in training, equipment and readiness by Congress and DOD leaders, we have become the most capable, professional, ready, and combat-proven National Guard in the history of the United States.

In 2020, Soldiers with the North Carolina Army National Guard's 30th Armored Brigade Combat Team, who tested their combat skills at the National Training Center in 2019, returned from their deployment to Kuwait and Syria and began supporting their communities' COVID-19 response efforts and civil disturbance missions. The Idaho Air National Guard's 124th Fighter Wing also deployed their A-10s and Airmen to the Central Command Area of Responsibility in 2020. The 124th's

deployment, the wing's second-largest ever, required pilots, security forces, maintainers, medical personnel, special warfare tactical air controllers and staffers to support operations across two continents.

The National Guard is also a trusted space and cyber partner. For 25 years, National Guard space units have provided operational, unit-equipped, surge-to-war capability to protect our nation's vital interests in this contested domain and today supply the Space Force with 20% of its space professionals and 60% of offensive electronic warfare capability. In addition, our cyber warriors bring their military and civilian skillsets to bear in support of Cyber Command's global commitments.

Two decades of investment and modernization in the National Guard has paid measurable dividends to our Joint Force's lethality and our nation's security.

HOMELAND

Unique to the National Guard is our ability to apply the training and equipment from our wartime missions to our state responses in the homeland. National Guard Soldiers and Airmen logged over 10.9 million days serving our communities in 2020 – more than four times as many as 2019.

The events of 2020 required an unprecedented response to various unforeseen events within the homeland. Most significantly, the men and women of the National Guard served more than 7.6 million days in support of the COVID-19 pandemic – a mission that continues today. They provided over 632 million meals to neighbors, distributed over 539 million pieces of personal protective equipment to essential workers, and tested or screened over 16.1 million people for the virus across the 50 states, 3 territories and the District of Columbia (DC) in 2020. In addition, they were called to fight record wildfires in California with specially equipped C-130s, helicopters, MQ-9 drones and shovels; expedited recovery efforts after a record number of named hurricanes battered the Gulf Coast; and provided support to cyber security, cyber assurance and recovery from cyber-attacks at the local, state, and federal levels.

In 2021, your National Guard continues to help with logistics, distribution, and vaccination efforts in the communities they serve. To date, Guard Soldiers and Airmen have vaccinated millions of civilians, administering well over 150,000 shots a day – with those numbers continuing to grow.

The National Guard's skills and abilities developed for the warfight – such as leadership, training, logistics, and communications – coupled with its unique array of authorities and trusted local, state, and federal partnerships, make it a natural choice for tackling some of the most difficult challenges we face at home.

PARTNERSHIPS

Building enduring partnerships at the international, federal, state, and local levels contributes to our nation's strength and readiness. Our approach makes the National Guard a force other nations and organizations are eager to partner with.

At the international level, the National Guard's State Partnership Program (SPP) is a key pillar to the DOD's focus on alliances and partnerships. Through the SPP, the National Guard maintains long-term relationships that strengthen alliances, enhance interoperability, reassure allies and deter our adversaries.

Improving the military, security and emergency response capacity of partner nations improves their resilience, benefiting the entire international community. Through 82 SPP relationships, the National Guard is engaged with 89 nations, 45% of the world's nations, and ensures the Department of Defense has capable, trusted and interoperable partners at our side.

At the federal and state levels, the National Guard maintains productive interagency relationships with the Federal Emergency Management Agency, Department of Homeland Security, Department of Health and Human Services, and U.S. Customs and Border Protection that contribute to rapid and unified responses when disasters strike. Additionally, the National Guard runs several counterdrug schools that offer in-person training courses to federal, state and local law enforcement personnel.

At the local level, we develop partnerships and connections in the communities we serve through efforts such as the National Guard Youth Challenge, and DOD's Innovative Readiness Training (IRT)

and STARBASE programs. Youth Challenge is a community-based program that leads, mentors and trains 16-to-18-year-old, at-risk youths on values, life skills, education, and the self-discipline required to become productive citizens in America's future. The IRT program connects annual military training opportunities with the needs of disadvantaged or remote communities to produce mission-ready forces, civil-military partnerships and strong communities. The STARBASE program also exposes our nation's most underrepresented youths to activities in the Science, Technology, Engineering, and Math (STEM) career fields through a hands-on learning experience at National Guard and other DOD installations across the nation.

CHIEF, NATIONAL GUARD BUREAU

I am honored to serve with you as the 29th Chief of the National Guard Bureau. As a member of the Joint Chiefs of Staff, I provide input on every decision impacting our Joint Force. I also advise the Secretary of Defense on all matters involving the National Guard and the capabilities we provide our nation.

My goal over the next three years is to build a sustainable operational force by focusing on our core missions of Warfight, Homeland and Partnerships through four priorities: People, Readiness, Modernization and Reform. To do this, the National Guard Bureau will work in concert with the 54 states, territories and DC to prioritize our efforts.

Those efforts will focus on providing a sustainable balance for our Soldiers, Airmen, space professionals, families and civilians when it comes to their military career, civilian career, and their family. It will also include access to the resources needed to maintain their resilience. Maintaining the welfare of our force also means ensuring we continue to promote inclusion,

equality, diversity and resilience, with zero tolerance for abuse, harassment or discrimination.

Today's National Guard is the most modern, ready and interoperable Joint Force in our 384-year history. However, our adversaries do not rest.

Today's leaders will have to contend with budget pressures, training shortfalls, time constraints and modernization gaps. We must develop leaders capable of performing at today's pace of change. We must also redefine how we train forces and approach readiness, and seek to become more joint- and multi-domain-minded. This is critical as we look to normalize the capabilities of an operational National Guard within the DOD's processes.

We must continue to build a National Guard that is stronger and more responsive; a force with greater lethality, global influence and the combat readiness to deter aggression.

Always Ready, Always There!

Serving with the **443,000 men and women of the National Guard** is an honor. We provide combat proven formations to the Joint Force and tirelessly help our communities where we live. We stand ready to face the threats of today, and prepare for the challenges of tomorrow. Serving in nearly every ZIP code, and answering the call in nearly every corner of the globe, the National Guard remains **Always Ready, Always There!**

SECURING THE HOMELAND

PROVEN AND PREPARED, THE NATIONAL GUARD MET
EVERY OVERSEAS AND HOMELAND MISSION IN 2020

Trusted in the Homeland

- National Guard Soldiers and Airmen **served their communities a record 10.9 million days**, supporting missions such as COVID-19, wildfires, civil disturbances and hurricanes.
- Air Guard personnel protect the airspace over America by **operating 15 of the 16 NORAD Aerospace Control Alert (ACA) sites** and the Eastern and Western air defense sectors. Guard ACA pilots flew 2,058 sorties in FY 2020 – 1,825 scramble sorties (practice and real-world) and 233 Operation Noble Eagle sorties.
- To allow effective communication between local, state and federal emergency agencies, National Guard **Joint Incident Site Communications Capability teams** set-up and operated a self-contained communications package at the Super Bowl and numerous other major events and exercises last year.
- The 57 full-time National Guard Weapons of Mass Destruction **Civil Support Teams (CST) carried out 2,475 missions** in FY 2020 ranging from no-notice call-outs to identify substances, to supporting national security events, to training and assisting state partners. CSTs typically respond in 1 to 3 hours.
- The National Guard **runs 17 battalion-sized** (nearly 2,400 people) Chemical, Biological Radiological Nuclear (CBRN) Enhanced Response Force Packages, or CERFPs, in 17 states capable of responding in 3 to 6 hours.
- National Guard Soldiers and Airmen comprise **55% of the DOD's** chemical, biological, radiological, nuclear response capability.
