Earliest and latest time can be extended by half an hour in exceptional circumstances and with the agreement of the chaperone. This has to be in the best interests of the child and the chaperone has the final say. Any additional extension must be agreed with the licensing authority

For a child to have a break, ideally they should be removed from the place of filming/recording i.e. off set or away from main location. Otherwise this can count as "performance" minutes. But talk it through with chaperone

If it is a formal break, required under the legislation, then both the child and the chaperone should be informed so that this is noted on the hours document

NB Form should be filled in by chaperone and a separate copy made by designated production person. Senior production person should check forms and sign off at end of record day
