

EMS = ENVIRONMENTAL MANAGEMENT SYSTEM

APPLIES TO: ALL 179AW AND 200RHS MEMBERS, STATE EMPLOYEES, CONTRACTORS, AND AAFES PERSONNEL

GOVERNED BY AIR FORCE POLICY DIRECTIVES 90-8 AND 32-70

AFPD 90-8

AFPD 90-8 establishes Air Force policy for Environment, Safety, and Occupational Health (ESOH) and Risk Management Programs, directs development of the EMS to provide oversight, achieve goals, and empowers Airmen to minimize risk in daily activities.

AFPD 32-70

AFPD 32-70 establishes policy to address environmental considerations in all Air Force programs and activities. The policy assigns duties and responsibilities, establishes long-term goals, and defines specific environmental programs.

THE 179AW / 200RHS ENVIRONMENTAL MANAGEMENT SYSTEM IS COMMITTED TO AFPD 90-8 AND 32-70 PRIORITIES:

ENVIRONMENTAL COMPLIANCE

The 179AW and 200RHS ensure compliance with federal, state, local, DoD, and Air Force regulations and policy by:

- Utilizing self-inspection to identify discrepancies in our day-to-day operations
- Implementing a robust environmental training program
- Building environmental concerns into all policies, programs, and missions

RISK MANAGEMENT

The 179AW and 200RHS conduct training and operations in a manner that:

- Enhances mission effectiveness
- Preserves resources
- Prevents pollution
- Minimizes ESOH risk to Air Force personnel and the public both on and off the installation
- Motivates every leader and Airman to manage risk during all on and off duty activities

CONTINUOUS IMPROVEMENT

The 179AW and 200RHS ensure environmental programs focus on:

- Mission accomplishment
- Employee involvement
- Continuous improvement

Every Airman must constantly minimize risk and improve the Air Force mission.

WHAT IS MY ROLE IN THE ENVIRONMENTAL MANAGEMENT SYSTEM?

- Implement the environmental commitment in your daily activities.
 - ⇒ Comply with environmental rules, manage risk, and continually improve.
- Understand how your work activities affect the environment.
- Complete environmental training as required.
- Know your role in the event of an emergency.
 - ⇒ Report all spills immediately.
- Report all environmental concerns promptly.
 - ⇒ Notify your supervisor and Environmental Office if you have concerns.
