

ACM-BCB 2022

The 13th ACM Conference on Bioinformatics, Computational Biology, and Health Informatics
Chicago, IL, August 7 - 10, 2022.

The 13th ACM Conference on Bioinformatics, Computational Biology, and Health Informatics (ACM-BCB) is the flagship conference of the ACM SIGBio. ACM-BCB 2021 is the conference's thirteenth year, building upon the success of the first twelve meetings in Boston, Niagara Falls, Chicago, Orlando, Washington DC, Newport Beach, Atlanta, Seattle, Washington DC, Niagara Falls, and online (due to COVID-19). The ACM-BCB 2022 conference will be held in Chicago, IL, August 7-10, 2022.

The ACM-BCB is a premier dissemination forum for interdisciplinary research linking computer science, mathematics, statistics, biology, bioinformatics, biomedical informatics, and health informatics. The past few decades have seen tremendous growth in the scale and complexity of biological and medical data including recent mainstream recognition of big data challenges. This conference serves to showcase leading-edge research on new technologies and techniques around gathering, processing, analyzing, and modeling of data and information for a variety of scientific, clinical, and healthcare applications, from bench to bedside.
