ALC Logistics' **ALCHEMY TMS** is designed to help shippers effectively and efficiently address transportation demands—including multi-pick/multi-drop, change orders, spot bids, and appointment scheduling—by simplifying the processes involved in managing supply chain networks. The solution uses an SaaS/cloud architecture and integrates with ERP, order entry, and financial systems.

Averitt Express
1-800-AVERITT
www.averittexpress.com

AVERITT CONNECT, Averitt's online, self-serve, multi-carrier TMS, enables shippers to control their shipping needs directly with their carriers. Through technology integrations, shippers can shop for LTL rates via Averitt Connect and book and track the shipments directly through the online portal. Powered by MyCarrierTMS.

Cardinal Logistics Management
704-789-2000
www.cardlog.com

Cardinal's flexible and comprehensive transportation IT system offers seamless communication across all transportation for end-to-end visibility. Whether managing fuel consumptions and driver e-logs, or capturing product condition upon loading and delivery, Cardinal can customize its solution to supply the information a shipper needs. Cardinal's transportation IT platform easily integrates into existing order management systems and extracts relevant data to manage a transportation network's key performance indicators.

3PL
TECHNOLOGY COMPANIES

MANY THIRD-PARTY LOGISTICS PROVIDERS OFFER BEST-IN-CLASS TECHNOLOGY SOLUTIONS AS PART OF THEIR SERVICE. HERE ARE JUST A FEW OF THE MANY LEADING 3PLs WITH OUTSTANDING TECHNOLOGY.

Echo Global Logistics
800-354-7993
www.echo.com

ECHOSHIP, Echo's self-service shipping platform for less-than-truckload (LTL) and truckload shippers, offers a simple user-friendly interface. EchoShip eliminates repetitive workflows and speeds shipping with an efficient, four-step process, giving shippers time back to focus on their core business.

GlobalTranz
866-275-1407
www.globaltranz.com

The **GLOBALTRANZ TMS** provides end-to-end transportation management, from robust track-and-trace capabilities to real-time freight analytics. Users gain immediate access to GlobalTranz's network of 50,000+ truckload carriers and 120+ local, regional, and national LTL carriers. As a company's needs grow, the GlobalTranz TMS grows with it, providing e-commerce and system integrations, freight claims management, advanced freight bill payment and audit, and carrier relationship management services to negotiate and maintain rates.

Kenco
800-758-3289
www.kencogroup.com

STARR is Kenco's latest technology offering. This advanced transportation management system empowers small to mid-sized shippers with the technology, resources, and competitive freight rates they need to effectively manage their networks and drive business success. With fast and easy deployment, out-of-the-box reporting, and intuitive user experience, Kenco customers can quickly leverage this TMS tool to optimize their transportation networks to lower costs and increase customer satisfaction. Kenco STARR includes access to free training and specialized services through a single point of contact, enabling customers to leverage these benefits.

Port Logistics Group
855-504-1191
www.portlogisticsgroup.com

Port Logistics Group recently acquired **WHIPLASH MERCHANDISING**, a flexible, scalable e-commerce fulfillment platform. The Whiplash platform provides retailers and brands with real-time inventory, warehouse, and order management. Whiplash receives order information from multiple sources, updates inventory, and allows its customers (as the shipper) to view, change, update, or pause orders for the end consumer. The Whiplash e-commerce fulfillment platform easily integrates with third-party shopping cart platforms, such as Shopify, Magento, StitchLabs and Returnly, and features integrated, discounted parcel shipping.

Transplace
866-413-9266
www.transplace.com

Transplace's **SAAS TMS** is an internally developed, multi-tenant, comprehensive, cloud-based TMS that spans the core functionality of planning, execution, and settlement across all modes with strong analytics and performance management. Transplace's **SAAS PARCEL TMS** is an enterprise-class, multi-carrier, parcel shipping solution embedded in the Transplace TMS for shippers needing a full-service solution. It is also offered as a standalone technology for shippers that only need parcel transportation management. The solution streamlines and optimizes carrier selection, manifesting, tracking, invoice reconciliation, and business intelligence reporting.

Transportation Insight
877-226-9950
www.transportationinsight.com

Transportation Insight's unified transportation management platform is designed to rate and shop carriers, create shipping documents, and track and tender shipments with added visibility and reporting. The platform manages shipment execution processes—automate load tenders, secure carriers with a private bid board, monitor carrier confirmations, create bills of lading, and manage transportation document storage. It also lets users track and trace freight in real time so they can plan labor or production and communicate with partners. Insight TMS integrates with ERP software, allowing improved visibility to cost and compliance performance measurement.
