Mr. Dennis Tan Tanaka
Chair, Root Zone Label Generation Rules Study Group

RE: Recommendations for Employing Root Zone Label Generation Rules

Dear Dennis and the Study Group,

The ICANN Board has received the [Recommendations for the Technical Utilization of the Root Zone Label Generation Rules](#) from the Root Zone Label Generation Rules Study Group (RZ-LGR SG), through the correspondence dated 9 October 2019 and posted at <https://www.icann.org/en/system/files/correspondence/tanaka-to-chalaby-09oct19-en.pdf>.

The ICANN Board would like to thank you and the volunteers from the ICANN community including [Supporting Organizations \(SOs\)](#), [Advisory Committees \(ACs\)](#), and the [Internet Architecture Board \(IAB\)](#) for undertaking this comprehensive study.

The ICANN Board will review these recommendations on how to technically apply the [RZ-LGR](#) in a harmonized way to generic and country code top-level domains and determine the next steps.

With kind regards,

Maarten Botterman
Chair, ICANN Board of Directors
