

Premium Tax Credit Verification

Name of Taxpayer	Taxpayer Identification Number	Tax Period Ending

We need to verify that you are eligible to claim the Premium Tax Credit (PTC) shown on your return. To show you are eligible for the PTC, you will need to send all of the applicable documents from the list below. If you did not retain the necessary records, we suggest you contact the health insurance marketplace, insurance providers, plan administrators, and/or financial institutions for the information.

Important: You must have purchased health insurance coverage through a Health Insurance Marketplace (also known as an Exchange). This includes a health plan purchased on healthcare.gov or through a State Marketplace. If you did not purchase health insurance from a Health Insurance Marketplace, you are not eligible for the Premium Tax Credit.

If you received Advanced Premium Tax Credit (APTC), you must file Form 8962. If your household income in Part 1 of the Form 8962, *Premium Tax Credit*, is greater than 400% of the Federal Poverty Line, you are not eligible to receive Premium Tax Credit and must repay any Advanced PTC (APTC) amounts received. The Federal Poverty Line is based on modified income and family size. You may refer to Publication 974, *Premium Tax Credit (PTC)* for additional information.
