B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:

The existing wetland on the property was previously an open water. The ditch under this review was constructed to drain the pond, which then converted to a wetland over time. The ditch does not contain any standing water, nor does it exhibit any ordinary high water mark. Side-cast material from construction of the upland ditch was left in place and is now overgrown with vegetation. There is also vegetation growing within the confines of the ditch. The ditch serves as a conveyance between the wetland and the intermittent tributary to Big Run.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
