

U.S. ARMY CORPS OF ENGINEERS
REGULATORY PROGRAM
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 13-AUG-2021

ORM Number: LRL-2021-00682-MAD

Associated JDs: N/A

Review Area Location¹:

State/Territory: KY City: County/Parish/Borough: Shelby County

Center Coordinates of Review Area: Latitude 38.204808 Longitude -85.360996

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

B. Rivers and Harbors Act of 1899 Section 10 (§ 10)²

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination
N/A	N/A	N/A	N/A

C. Clean Water Act Section 404

Territorial Seas and Traditional Navigable Waters ((a)(1) waters)³

(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination
N/A	N/A	N/A	N/A

Tributaries ((a)(2) waters):

(a)(2) Name	(a)(2) Size	(a)(2) Criteria	Rationale for (a)(2) Determination
N/A	N/A	N/A	N/A

Lakes and ponds, and impoundments of jurisdictional waters ((a)(3) waters):

(a)(3) Name	(a)(3) Size	(a)(3) Criteria	Rationale for (a)(3) Determination
N/A	N/A	N/A	N/A

Adjacent wetlands ((a)(4) waters):

(a)(4) Name	(a)(4) Size	(a)(4) Criteria	Rationale for (a)(4) Determination
N/A	N/A	N/A	N/A

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide and included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12))⁴:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
LRL-2021-00682, Ephemeral 1	75 feet	(b)(3) Ephemeral feature, including an ephemeral stream, swale, gully, rill, or pool	The feature is a first order stream that was dry during the field assessment. The stream does not exhibit flow more than in response to precipitation and has a morphology typical of ephemeral stream in the region.
LRL-2021-00682, Ephemeral 2	110 feet	(b)(3) Ephemeral feature, including an ephemeral stream, swale, gully, rill, or pool	The feature is a first order stream that was dry during the field assessment. The stream does not exhibit flow more than in response to precipitation and has a morphology typical of ephemeral stream in the region.
LRL-2021-00682, Ephemeral 3	410 feet	(b)(3) Ephemeral feature, including an ephemeral stream, swale, gully, rill, or pool	The feature is an outlet of Open Water 3 and drain to a culvert under the adjacent railway and leaves the review area. The feature receives flow from Open Water 3 only during heavy rain events. The feature was dry during the field assessment, does not exhibit flow more than in response to precipitation and has a morphology typical of ephemeral stream in the region.
LRL-2021-00682, Open Water 1	6.5 acres	(b)(8) Artificial lake/pond constructed or excavated in upland or a non-jurisdictional water, so long as the artificial lake or pond is not an impoundment of a jurisdictional water that meets (c)(6)	Open Water Pond 1 was constructed in uplands between 1969 and 1983. The artificial pond is not an impoundment of a jurisdictional water that meets (c)(6)
LRL-2021-00682, Wetland 1	1.172 acres	(b)(1) Non-adjacent wetland	The Wetland is adjacent to Open Water 1, a (b)(8) excluded feature.
LRL-2021-00682, Wetland 2	0.048 acres	(b)(1) Non-adjacent wetland	Wetland 2 is a scrub wetland located in the southeastern portion of the property immediately adjacent to the railroad tracks. The feature is physically isolated in the landscape with no outlet to any jurisdictional waters.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

 x Information submitted by, or on behalf of, the applicant/consultant: *Request for Jurisdiction Determination Dreisbach Property* dated July 28, 2021 submitted by RES Kentucky, LLC
This information (*is/is not/is and is not*) sufficient for purposes of this AJD.
Rationale: *N/A or describe rationale for insufficiency (including partial insufficiency).*

 Data sheets prepared by the Corps: *Title(s) and/or date(s).*

 x Photographs: (*aerial and other*) *Applicant photos dated July 12, 2021; Google Earth aerials dated (11/05/2020, 04/12/2017, 12/30/2012, 06/14/2008, 06/19/2004, 03/14/1998*

 Corps Site visit(s) conducted on: *Date(s).*

 Previous Jurisdictional Determinations (AJDs or PJDs):

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. Other data sources used to aid in this determination:

Data Source (select)	Name and/or date and other relevant information
USGS Sources	N/A.
USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	N/A.

- B. Typical year assessment(s):** The Antecedent Precipitation Tool was utilized the applicant's site assessment dates from July 12, 2021. The data shows that the assessment was during wetter than normal conditions during the dry season. The assessment was during wetter than typical year conditions.
- C. Additional comments to support AJD:** N/A
