Applicable/supporting scientific literature: Other information (please specify):

REVIEW AREA ONLY INCLUDES DRY LAND: The site consists entirely of upland grazing fields and no jurisdictional features were identified within the study area. Three potential drainage features were further evaluated and it was determined that the portions within the study area are all uplands.

<sup>&</sup>lt;sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
