

Will This Strange Antarctic Squid Solve America's Memory Crisis?

New Deep Sea Discovery Proven to Be The #1 Natural Enhancer of Memory and Focus

Half a mile beneath the icy waters off the coast of Argentina lives one of the most remarkable creatures in the world.

Fully grown, they're less than 2 feet long and weigh under 10 pounds...

But despite their small size, this strange little squid can have a bigger positive impact on your brain health than any other species on the planet.

They are the single richest source of a vital "brain food" that 250 million Americans are starving for, according to a study published in the British Medical Journal.

It's a safe, natural compound called DHA – one of the building blocks of your brain. It helps children grow their brains significantly bigger during development. And in adults, it protects brain cells from dying as they get older.

Because DHA is so important, lacking enough of it is not only dangerous to your overall health but could be directly related to your brain shrinking with age.

With more than 16 million Americans suffering from age-associated cognitive impairment, it's clear to a top US doctor that's where the problem lies.

Regenerative medicine specialist Dr. Al Sears, says thankfully, "there's still hope for seniors. Getting more of this vital brain food can make a life changing difference for your mental clarity, focus, and memory."

Dr. Sears, a highly-acclaimed, board-certified doctor— who has published more than 500 studies and written 4 bestselling books — says we should be able to get enough DHA in our diets... but we don't anymore.

"For thousands of years, fish were a great natural source of DHA. But due to industrial fish farming practices, the fish we eat and the fish oils you see at the store are no longer as nutrient-dense as they once were," he explains.

DHA is backed by hundreds of

studies for supporting razor sharp focus, extraordinary mental clarity, and a lightning quick memory... especially in seniors.

So, if you're struggling with focus, mental clarity, or memory as you get older...

Dr. Sears recommends a different approach.

THE SECRET TO A LASTING MEMORY

Research has shown that our paleo ancestors were able to grow bigger and smarter brains by eating foods rich in one ingredient — DHA.

"Our hippocampus thrives off DHA and grows because of it," explains Dr. Sears. "Without DHA, our brains would shrink, and our memories would quickly fade."

A groundbreaking study from the University of Alberta confirmed this. Animals given a diet rich in DHA saw a 29% boost in their hippocampus — the part of the brain responsible for learning and memory. As a result, these animals became smarter.

Another study on more than 1,500 seniors found that those whose brains were deficient in DHA had significantly smaller brains — a characteristic of accelerated aging and weakened memory.

PEOPLE'S BRAINS ARE SHRINKING AND THEY DON'T EVEN KNOW IT

Dr. Sears uncovered that sometime during the 1990s, fish farmers stopped giving their animals a natural, DHA-rich diet and began feeding them a diet that was 70% vegetarian.

"It became expensive for farmers to feed fish what they'd eat in the wild," explains Dr. Sears. "But in order to produce DHA, fish need to eat a natural, marine diet, like the one they'd eat in the wild."

"Since fish farmers are depriving these animals of their natural diet, DHA is almost nonexistent in the oils they

produce."

"And since more than 80% of fish oil comes from farms, it's no wonder the country is experiencing a memory crisis. Most people's brains are shrinking and they don't even know it."

So, what can people do to improve their memory and brain function in the most effective way possible?

Dr. Sears says, "Find a quality DHA supplement that doesn't come from a farmed source. That will protect your brain cells and the functions they serve well into old age."

Dr. Sears and his team worked tirelessly for over 2 years developing a unique brain-boosting formula called **Omega Rejuvenol**.

It's made from the most powerful source of DHA in the ocean, squid and krill — two species that cannot be farmed.

According to Dr. Sears, these are the purest and most potent sources of DHA in the world, because they haven't been tampered with. "**Omega Rejuvenol** is sourced from the most sustainable fishery in Antarctica. You won't find this oil in any stores."

MORE IMPRESSIVE RESULTS

Already, the formula has sold more than 850,000 bottles. And for a good reason, too. Satisfied customers can't stop raving about the memory-boosting benefits of quality-sourced DHA oil.

"The first time I took it, I was amazed. The brain fog I struggled with for years was gone within 24 hours. The next day, I woke up with the energy and mental clarity of a new man," says Owen R.

"I remember what it was like before I started taking **Omega Rejuvenol**... the lack of focus... the dull moods... the slippery memory... but now my mind is as clear as it's ever been," says Estelle H.

"My mood and focus are at an all-time high. I've always had trouble

MEMORY-RESTORING SENSATION: The memory-saving oil in this Antarctic squid restores decades of lost brain power starting in just 24 hours.

concentrating, and now I think I know why," raves Bernice J. "The difference that **Omega Rejuvenol** makes couldn't be more noticeable."

And 70-year-old Mark K. says, "My focus and memory are back to age-30 levels."

These are just a handful of the thousands of reviews Dr. Sears regularly receives thanks to his breakthrough memory formula, **Omega Rejuvenol**.

WHERE TO FIND OMEGA REJUVENOL

To secure bottles of this brain-booster, buyers should contact the Sears Health Hotline at **1-800-966-7958**. "It takes time to manufacture these bottles," says Dr. Sears. "The Hotline allows us to ship the product directly to customers who need it most."

Dr. Sears feels so strongly about this product, he is offering a 100%, money-back guarantee on every order. "Send back any used or unused bottles within 90 days and I'll rush you a refund," says Dr. Sears.

The Hotline is taking orders for the next 48 hours. After that, the phone number may be shut down to allow for inventory restocking.

Call **1-800-966-7958** to secure your limited supply of **Omega Rejuvenol**. Readers of this newspaper immediately qualify for a steep discount, but supplies are limited. To take advantage of this great offer use Promo Code **NP123OM48** when you call.

Chiefs GM also has Eagles ties

By RYAN DUNLEAVY
and BRIAN COSTELLO

PHOENIX — Welcome to the Super Bowl of familiarity, right up to the top of the food chain.

It's not just the Kelce brothers on opposite sides. Or Andy Reid's history coaching both teams.

But Chiefs general manager Brett Veach worked for the Eagles from 2004-12. He served as a scout from 2010-12 before leaving for Kansas City with Reid. Eagles GM Howie Roseman saw Veach work up-close in those years and remains a fan.

"He wouldn't care what anyone else's opinion was. He had a strong opinion," Roseman said. "He had a great feel for evaluating talent, a great feel for kind of putting the team together. I felt like he was an amazing guy for me to have on staff because he was always digging guys out and then he wouldn't just write the report. He'd be in your office. He'd tell you, 'Have you watched this guy yet? Did you see this game? Did you see that game?'"

Roseman recalled one instance when Veach's enthusiasm was evident before he was even asked a question.

"I think it was the 2012 draft where we called him into the draft room," Roseman said. "He was our Southeast scout. We called him into the draft room and he just said, 'Take him.' I said, 'Veach, I didn't even ask you what player we're talking about right now.' He's that kind of guy."

► **Brian Daboll** is 5-0 in Super Bowls as a Patriots assistant coach. The first-year Giants head coach is back this year to see if he can go 1-0 at the NFL honors.

After spending last week in Mobile, Ala., scouting draft prospects at the Senior Bowl, the Giants head coach returned home to New Jersey for a few days before flying out Monday with his wife to the site

of Super Bowl 57. Daboll, Eagles head coach **Nick Sirianni** and 49ers head coach **Kyle Shanahan** are the finalists for Associated Press Coach of the Year, which will be revealed Thursday during the NFL Honors program.

One thing on Daboll's mind this week is the Cardinals and Colts' head-coach searches. Giants defensive coordinator **Wink Martindale** is expected to get a third interview with the Colts, while offensive coordinator **Mike Kafka's** odds of taking over the Cardinals seem to be increasing. **Brian Flores** was hired as Vikings defensive coordinator, leaving Bengals defensive coordinator **Lou Anarumo** and Kafka as the only known finalists in Arizona.

SB LVII NOTES

► The Chiefs made a couple of roster moves Monday. WR **Mecole Hardman** was placed on injured

reserve. Hardman aggravated a pelvis injury in the AFC Championship game. He had not played since Week 9 before playing in the AFC title game against the Bengals.

RB **Clyde Edwards-Helaire** was activated from IR after missing the last nine games with an ankle injury. **Isiah Pacheco** and **Jerick McKinnon** have been carrying the load for the Chiefs with Edwards-Helaire on the sideline.

► Fifteen years ago, **Tom Coughlin** wanted to get as far away from the Super Bowl XLII hubbub as possible, which is why he opted for an out-of-the-way hotel for the Giants. Coughlin loved that his team spent the week in Chandler, Ariz., at the Sheraton Grand at Wild Horse Pass, on the Gila River Indian Reservation. The resort is 21 miles from downtown Phoenix — about as far away from the action as possible.

The Eagles this week are taking the same approach, as they will also stay at the Sheraton Grand at Wild Horse Pass.

VEACH TRIP: Chiefs GM Brett Veach worked for the Eagles from 2004-12, leaving for Kansas City with coach Andy Reid. AP
