### STRATEGIC OBJECTIVES

1. Respond to the humanitarian needs and **save the lives of populations severely affected** by food and nutritional insecurity, human mobility and hydrometeorological disasters with a human rights approach, intersectoral perspective, differentiated by age, gender and diversity, and with cultural and linguistic relevance.

2. Complement the humanitarian response with actions that increase the **protection, resilience and empowerment of people severely affected**, improving their environment and enhancing a recovery focused on sustainable development (triple nexus).
