From: Stephen Bieda III, Chief
 Severe, Fire, Public and Winter Weather Services Branch

Subject: Updated: Implementation of Mixed-Case Text/95 ASCII Character Set
in Preliminary Local Storm Reports (LSRs) with Modified Event Types and
Sources on or about April 27, 2023

Updated to correct asterisks in Table 3 and to add Volcanic Ash to Table
4.

The implementation of mixed-case Text/95 American Standard Code for
Information Interchange (ASCII) character set in Preliminary LSRs will be
effective beginning on or about April 27, 2023. No other product format
changes (spacing, order, etc.) will be included with this transition to
mixed-case.

Additionally, new and modified Event Sources and Event Types will be
included in this implementation, according to the following tables, with
changes noted by asterisk(s).

Table 1: Event Source List
