Discourse

	Civilized Discourse Construction Kit, Inc
latforms:	Web
	Localization, Proofreading
anguage:	English → Chinese Simplified, Portuguese Brazilian, Italian, French, German, Arabic, Finnish, Japanese, Spanish.
lords:	55 000
hallenge:	To unify terminology and proofread community translations. New content was to be translated following instructions left by the client.
olution:	We created the glossary and obtained the client's approval. The workflow was adjusted to meet the client's needs. The same translator handled translation of the new content and proofreading of existing content, ensuring consistency throughout the project. After the translators finished their work and integrated all comments, we performed localization QA for the whole project.
