

Cleveland Harbor Dredged Sediment Placement “Strategy 2015”

- The strategy does not include open lake placement in 2015.
- Strategy 2015 is dependent upon local sponsor support and cost share.
- Strategy 2015 is to dredge 180,000 Cubic Yards (CY) of sediment and defer 45,000 CY.

Existing Confined Disposal Facilities (CDFs)

Port CDF
USACE CDF

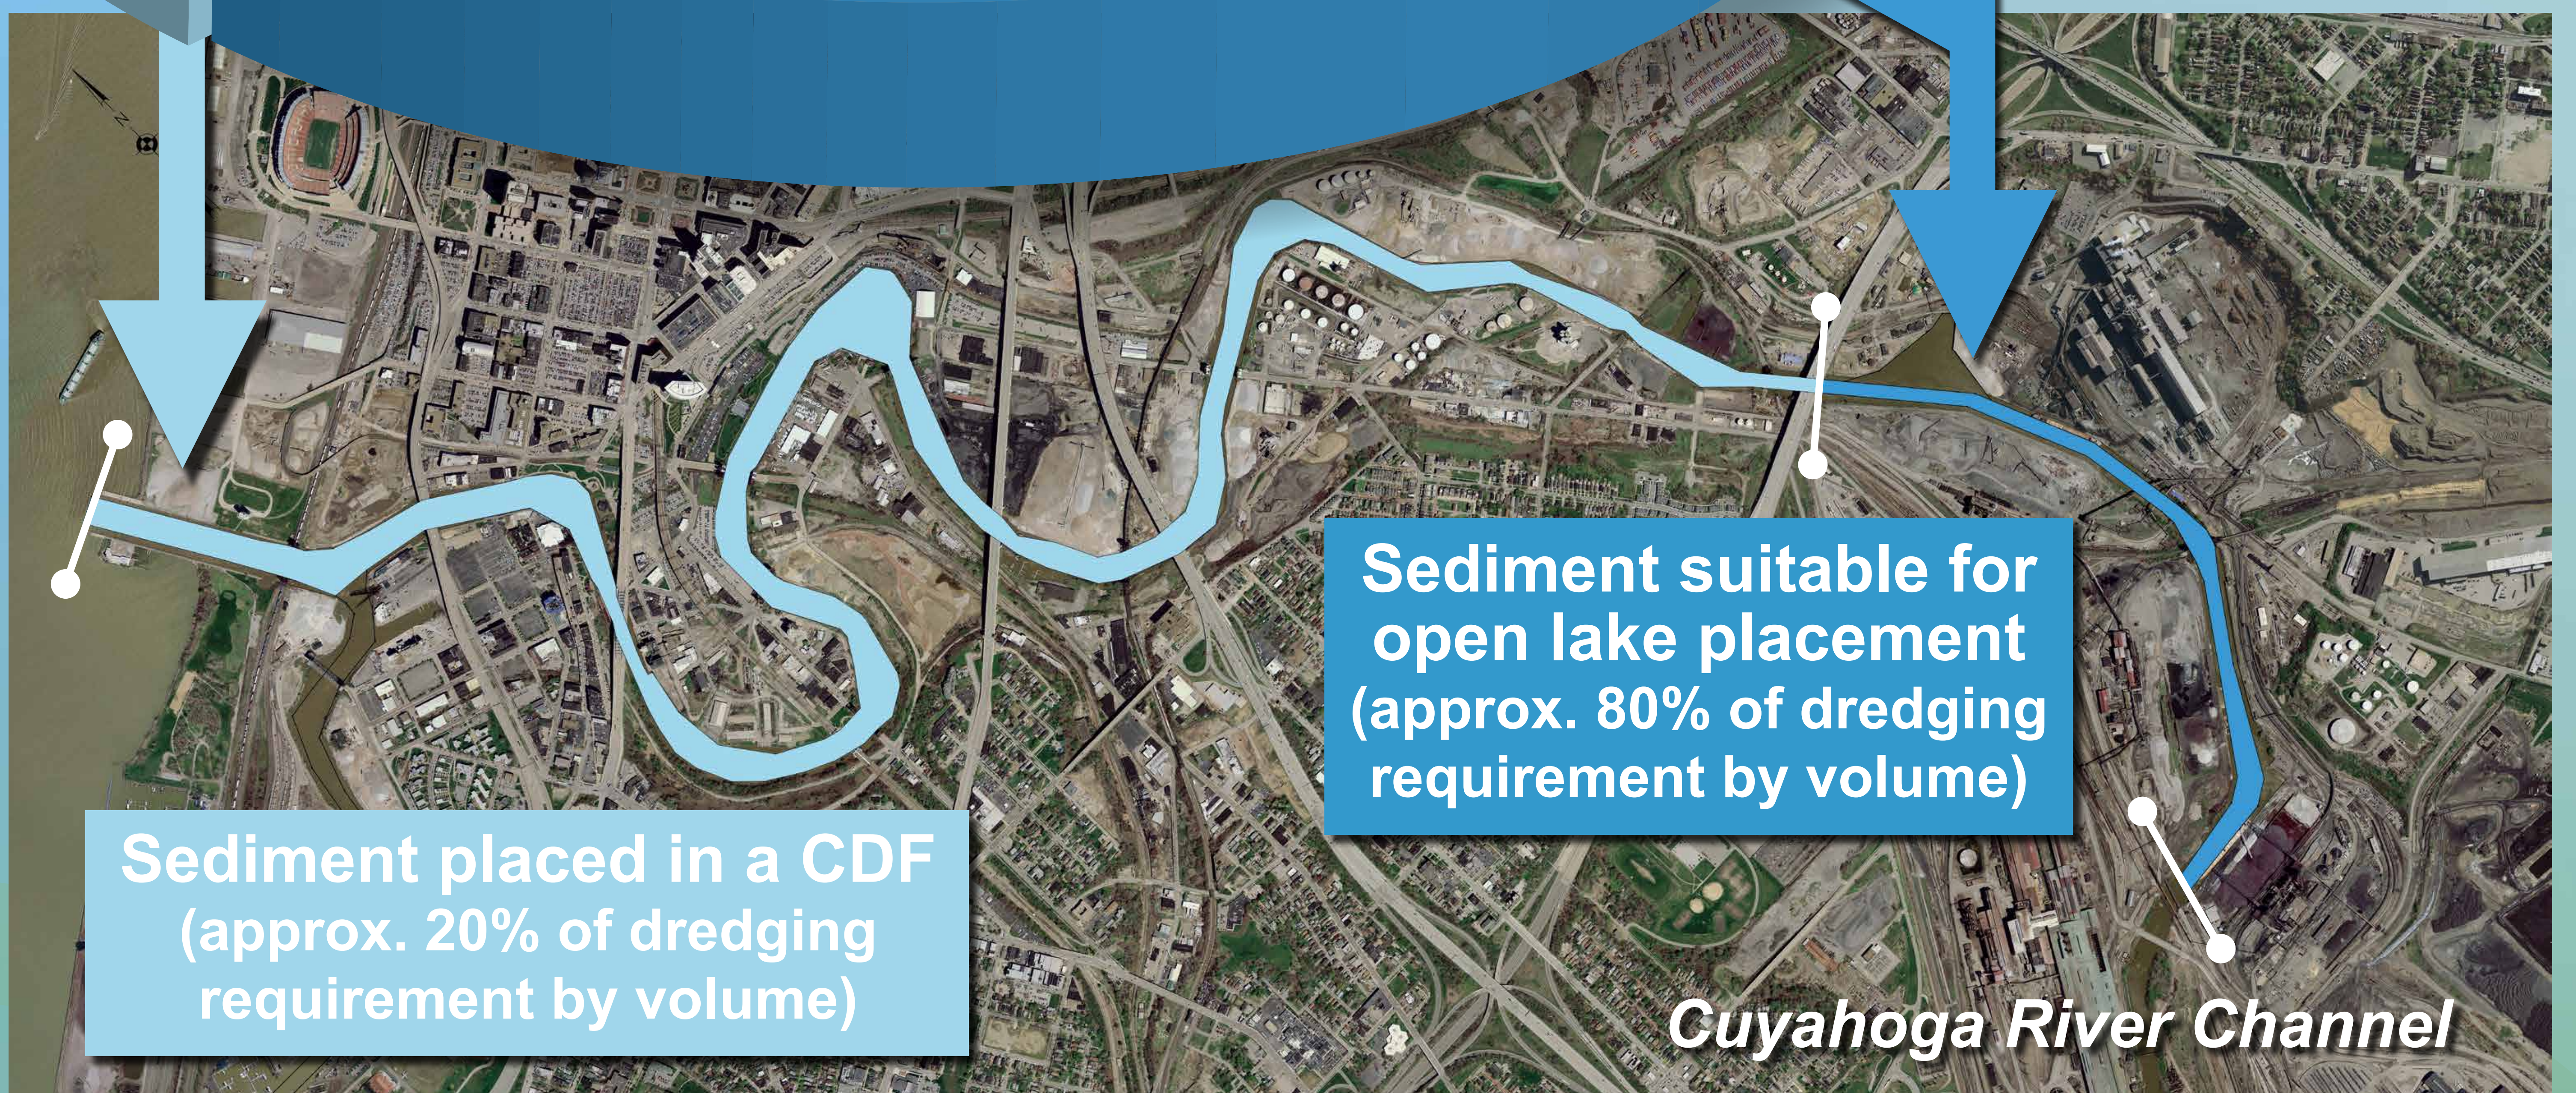

Qty: 45,000 CY
DO NOT DREDGE

Qty: 45,000 CY
From: Upper River
Place: Port Authority CDF

Qty: 45,000 CY
From: Lower River
Place: USACE CDF

Qty: 90,000 CY
From: Upper River
Place: USACE CDF

Sediment suitable for open lake placement (approx. 80% of dredging requirement by volume)

Sediment placed in a CDF (approx. 20% of dredging requirement by volume)
