Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and each major fund of the Sacramento Area Flood Control Agency (SAFCA), as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise SAFCA's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of SAFCA, as of June 30, 2022, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of SAFCA, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 8 to the basic financial statements, effective July 1, 2021, SAFCA adopted the provisions of Governmental Accounting Standards Board Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

SAFCA's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about SAFCA's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SAFCA's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the SAFCA's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of revenues, expenditures and changes in fund balance – General Fund – budget and actual, the schedule of SAFCA's proportionate share of the net pension liability, the schedule of SAFCA's pension contributions, the schedule of changes in the net OPEB liability and related ratios, and the schedule of SAFCA's OPEB contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency

with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2022, on our consideration of SAFCA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of SAFCA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the SAFCA's internal control over financial reporting and compliance.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

As management of the Sacramento Area Flood Control Agency (SAFCA), we offer readers of SAFCA's financial statements this narrative overview and analysis of the financial activities of SAFCA for the fiscal year ended June 30, 2022

Please read it in conjunction with SAFCA's basic financial statements following this section.

Financial Highlights

- The liabilities and deferred inflows of resources of SAFCA exceeded its assets and deferred outflows of resources at June 30, 2022 by \$(45,922,754) (*net position*). Of this amount, \$147,245,914 was invested in capital assets and \$455,408 was restricted for the Hansen Ranch and Magpie projects. The unrestricted net position for the current fiscal year amounted to \$(193,624,076) and is negative due to the fact that SAFCA issued bonds to improve existing levees and other flood control facilities, but the facilities are owned by other entities.
- SAFCA's total net position increased by \$10,924,568 during fiscal year 2021-2022 due to the increased reimbursements received from the Department of Water Resources for various programs and other contributions from other agencies.
- SAFCA's governmental funds ending balances increased by \$3,297,908 in comparison with the prior year. The increase in fund balance is primarily due to increased reimbursements from the Department of Water Resources for various projects.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to SAFCA's basic financial statements composed of three components: 1) governmental-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of SAFCA's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of SAFCA's assets, deferred outflows of resources, liabilities, and deferred inflow of resources with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of SAFCA is improving or deteriorating.

The *statement of activities* presents information showing how SAFCA's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses, and inflows and outflows, are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The statement of activities distinguishes functions of SAFCA that are principally supported by charges for services and capital grants and contributions (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

The governmental activities of SAFCA include public protection, and public ways and facilities.

The government-wide financial statements can be found on pages 12-13 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. SAFCA, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of SAFCA's funds are governmental funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of nonspendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

SAFCA reports three major governmental funds: General Fund, Capital Projects Fund and Debt Service Fund. SAFCA's Operations and Maintenance Assessment District No. 1 acts as their General Fund. Information is presented separately for each major fund in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances.

SAFCA adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund, as required supplementary information, to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 14-15 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to provide a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 16-42 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

Government-wide Financial Analysis

As noted previously, net position may serve over time as a useful indicator of a government's financial position. In the case of SAFCA, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$45,922,754 at the end of June 30, 2022. The deficit in net position is caused by the financing of long-term capital improvement projects with funds received from the issuance of local assessment district bonds. In the long-term, property assessments will provide the revenues to pay the long-term debt financing, but the related capital improvements are owned by other governmental entities.

Key elements of the current year decreases/increases are as follows:

The current and other assets decreased by \$13,682,488 (7%), which comprised primarily of a decrease in cash reimbursements due from the State of California. Total liabilities decreased by \$12,280,052 (3%) due to payments for long-term obligations for the outstanding bonds. Total net investment in capital assets increased \$13,081,285 (10%) primarily due to the purchase of land related to the Capital Projects Fund.

Governmental Activities

- For the fiscal year ended June 30, 2022, current year operations increased SAFCA's net position by \$10,924,568. SAFCA's net position has increased in fiscal year 2022 due to the increased reimbursements received as related to various programs and other contributions from other agencies.

The following is a summary of SAFCA's Statement of Activities for the fiscal years ended June 30, 2022 and 2021:

**Condensed Statement of Activities

(1) 2021 Balances were not restated due to GASB Statement No. 87, *Leases*.

Key elements of current year decreases/increases are as follows:

- Capital grants and contributions increased by \$1,375,304 (203%) during the year due to an adjustment on fees received from the Greenbriar Community Facilities District.
- Interest and other income decreased by \$923,972 (203%) during the year primarily due to reduced investments of the Consolidated Capital Assessment District (CCAD) No. 2 Bonds proceeds and decreasing market rate returns.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

- Public protection decreased by \$638,419 (7%) during the year primarily due to a decrease in other professional services expense and insurance expense.
- Public ways and facilities expenses increased by \$508,048 (1%) during the year due to an increase in infrastructure-drainage costs.
- Interest on long-term debt decreased by \$205,353 (1%) due to interest payments on outstanding bonds, as interest amounts were lower this year.

Financial Analysis of the Governmental Funds

As noted earlier, SAFCA uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of SAFCA's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing SAFCA's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2022, SAFCA's governmental funds reported combined fund balances of \$189,114,309, an increase of \$3,297,908 (2%) in comparison with the prior year. \$706,063 or less than 1 percent of the total fund balance is nonspendable due to trust agreements regarding Hansen Ranch and Magpie, as well as prepaid expenses. The remaining 99 percent or \$188,408,246 is available to meet SAFCA's current and future needs. \$51,800,125 is restricted for debt service payments, \$122,974,422 is restricted for capital projects, \$199,065 is restricted for Hansen Ranch vernal pool projects, \$1,682,846 is assigned for pension obligations, and the remaining \$11,751,788 of unassigned fund balances can be used for any of SAFCA's needs.

The **General Fund** is the chief operating fund of SAFCA. As of June 30, 2022, the unassigned fund balance of the General Fund was \$11,751,788 while the total fund balance was \$14,339,762. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. The unassigned fund balance represents 137 percent of total General Fund expenditures, while total fund balance represents 167 percent of that same amount. The fund balance of SAFCA's General Fund increased by \$55,512 during fiscal year 2022. The increase is due to lower than budgeted public protection costs.

The **Capital Projects Fund** consists of all SAFCA capital projects. As of June 30, 2022, total fund balance was \$122,974,422. The Capital Projects Fund consists of all the capital assessment districts and the development impact fee funds. The purpose of these projects is to improve levees and ensure the integrity of the existing levee system; provide a minimum of 100-year flood protection for the region; and pursue SAFCA's long-term goal of achieving a level of flood protection (200-year or greater) for the Sacramento area. The fund balance decreased by \$4,780,720 (3.7%) during fiscal year 2022 due to an increase in expenditures related to SAFCA's project in the Natomas Basin and projects covered by the Development Impact Fund.

The **Debt Service Fund** has a total fund balance of \$51,800,125 all of which is restricted for the payment of debt service. The fund balance increased by \$8,023,116 (18%) during fiscal year 2022. The increase is due to the surplus remaining after the debt service payments not being transferred to the surplus or operation funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

The following table compares the revenues and expenditures for fiscal years 2022 and 2021 along with the net change from 2021 to 2022, for total governmental funds.

Aid from other governments decreased by \$9,517,797 due to decreased reimbursements from the Department of Water Resources. Intergovernmental revenue increased due to an agreement with a local government for a local project. Development impact fees decreased by \$5,224,134 primarily due to a decrease in development fees attributable to a slowing economy. Special capital assessment increased by \$642,416 due to an increase in property values. Interest and other income decreased by \$923,972 due to a decrease in investment rates of return and a smaller balance of funds from CCAD No. 2. Public protection expenditures decreased by \$98,763 due to a decrease in other professional costs. Public ways and facilities expenditures decreased by \$4,072,154 due to a decrease in land acquisition and infrastructure costs.

General Fund Budgetary Highlights

During the year, actual revenues were lower than budgeted revenues by \$607,397, mostly due to GASB 31 adjustments. Actual expenditures were less than budgetary estimates by \$2,292,868, primarily due to a decrease in employee's payroll expenses and engineering costs. Due to the nature of the operations and maintenance of the General Fund it is not always possible to budget for uncertainties and it is management's policy to maintain the budget based on potential program costs.

Capital Asset and Debt Administration

Capital Assets - SAFCA's investments in capital assets for its governmental activities as of June 30, 2022 amount to \$147,527,558 (net of accumulated depreciation). This investment in capital assets includes land, permanent easements, infrastructure, equipment and a leased asset. The total increase in the SAFCA's investment in capital assets for the current fiscal year was 10 percent, or \$12,946,469. This increase was primarily due to the purchase of land. SAFCA keeps records of all assets for governmental activities.

Economic Factors and Next Year's Budget

The fiscal year 2022-2023 Final Budget was adopted by SAFCA's Board of Directors on June 16, 2022. The budget supports SAFCA's continuing efforts to address the region's flood control needs during the coming year and is consistent with the objectives of SAFCA's current Strategic Plan. SAFCA's Strategic Plan identifies the efforts which SAFCA will undertake to ensure the integrity of the existing levee system; provide a minimum of 100-year flood protection for the region; and pursue SAFCA's long-term goal of achieving a high level of flood protection (200-year or greater) for the Sacramento area.

The proposed means, interfund transfers, of financing some of the \$143,378,560 in total budgeted expenditures for fiscal year 2022-2023 includes:

- Estimated prior year fund balances \$59,821,689
 - Operations and Maintenance Assessment District (O&M) Fund: \$ 1,213,835
 - Development Impact Fees (DIF): \$ 16,652,350
 - Natomas Basin Local Assessment District (NBLAD) Fund: \$ 16,680,851
 - Consolidated Capital Assessment District No. 2 (CCAD) Fund: \$ 25,274,653

- Anticipated Revenues \$39,339,998
 - State Revenue: \$ 26,031,998
 - DIF Revenue: \$ 6,400,000
 - Interest Revenue: \$ 360,000
 - Miscellaneous Revenue: \$ 25,000

- Assessments \$6,423,862
 - O&M Fund: \$ 6,400,000
 - NBLD Fund: \$ 25,000
 - CCAD Fund: \$ 98,000

In addition, a transfer from reserves in the amount of \$16,344,211 and a transfer from the surplus in the amount of \$27,872,662 was needed to source the total appropriations of \$143,378,560.

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

NOTE 1 – REPORTING ENTITY

Definition of Reporting Entity and Governing Board

The Sacramento Area Flood Control Agency (SAFCA) is a political subdivision of the State of California. It was created January 1, 1990 under the laws of the State of California and provisions of a Joint Exercise of Powers Agreement. Parties to this agreement are the County of Sacramento (County), County of Sutter, City of Sacramento, Reclamation District No. 1000, and the American River Flood Control District. SAFCA was formed to plan, coordinate, and finance regional flood protection improvements in the Sacramento area.

SAFCA is governed by a Board of Directors composed of thirteen members appointed by the parties to the agreement. Five members are appointed by the Sacramento County Board of Supervisors, one from the Sutter County Board of Supervisors, three from the Sacramento City Council, two from Reclamation District Number (No.) 1000, and two from the American River Flood Control District. Employees of SAFCA are contracted from the County of Sacramento and City of Sacramento.

Districts and Programs

The SAFCA Board of Directors established several assessment districts to facilitate operations of the organization. These assessment districts which operate within SAFCA's boundaries and governed by the SAFCA Board of Directors include:

Operations and Maintenance Assessment District No. 1

The district which was established by Resolution 91-010 on June 20, 1991 resulting from the Sacramento Area Flood Control Agency Act augmented by the California State Legislature which granted SAFCA the ability to levy and collect assessments and to pay for administrative, operations and maintenance costs.

SAFCA North Area Local Project Capital Assessment District No. 2

The district was established by Resolution 95-112 on September 21, 1995. The SAFCA Board of Directors authorized the issuance of bonds in the principal amount of \$84,345,000; in fiscal year 2005 additional bonds were authorized and issued in the principal amount of \$34,595,000.

SAFCA Consolidated Capital Assessment District

The district was established by Resolution 07-052 on May 31, 2007. In 2007 and 2008 the SAFCA Board of Directors authorized the issuance of bonds in the principal amount of \$172,095,000. In fiscal year 2013 additional bonds were authorized and issued in the principal amount of \$38,000,000. In fiscal year 2016 additional bonds were authorized and issued in the principal amount of \$16,505,000.

SAFCA Development Impact Fee Program

The program was established by Resolution 09-010 on May 15, 2008, and becoming effective January 1, 2009. The purpose of the program is to augment the existing Consolidated Capital Assessment District (CCAD No. 1) funding sources for achieving at least a 200-year level of flood protection for the Sacramento Area over the next 11 years thereby offsetting any increase in exposure to flood damages that might otherwise result as new development occurs in the protected floodplain during this period.

NOTE 1 – REPORTING ENTITY (CONTINUED)

SAFCA Natomas Basin Local Assessment District

The district was established by Resolution 2001-052 on April 29, 2011. The SAFCA Board of Directors authorized on June 16, 2011, the issuance of bond anticipation notes in the amount of \$6,200,000. The SAFCA Board of Directors authorized on May 15, 2014, the issuance of bonds in the principal amount of \$35,350,000 part of which was used to pay the balance due on the 2011 bond anticipation notes.

SAFCA Consolidated Capital Assessment District No. 2

The district was established by Resolution No. 2016-108 adopted on October 20, 2016, as amended by Resolution No. 2016-114 adopted on November 3, 2016. The SAFCA Board of Directors authorized the issuance of bonds in the principal amount of \$278,195,000. SAFCA formed CCAD No. 2 to amend and replace CCAD to increase funding capacity by extending annual assessment revenue collection period and updating the assessment methodology. All four series of SAFCA's bonds secured by the original CCAD assessments have been refunded. In 2020 SAFCA Board of Directors authorized the issuance of bonds in the principal amount of \$57,110,000.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities display information about the primary government (SAFCA). These statements include the financial activities of the overall government. The statement of activities presents direct expenses and program revenues for each function of SAFCA's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including interest and other income, are presented instead as general revenues.

When both restricted and unrestricted resources are available, restricted resources are used first, then unrestricted resources as needed.

Fund Financial Statements

The fund financial statements provide information about SAFCA's funds, which include only *governmental funds*.

SAFCA reports the following major governmental funds:

The *General Fund* is the main operating fund and is used to account for all revenues and expenditures necessary to carry out basic governmental activities of SAFCA that are not accounted for through other funds. For SAFCA, the General Fund's activities include public protection only.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The *Capital Projects Fund* is used to account for the bond proceeds and the accumulation of other resources for, and expenditures relating to financing, or reimbursing, SAFCA for the cost of certain flood control facilities consisting of a series of levee and other flood control improvements to be acquired and constructed.

The *Debt Service Fund* is used to account for all revenues received from the annual levy and collection of assessments when received. The monies are used to pay interest, principal and redemption premiums on all debts including the Series 2014, 2016 and 2020 revenue bonds. Through June 30, 2022, the special capital assessments funded all principal and interest payments scheduled.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which SAFCA gives (or receives) value without directly receiving (or giving) equal value in exchange, includes special assessments, grants, entitlements and donations. On an accrual basis, revenue from special assessments is recognized in the fiscal year for which the assessments are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Special assessments, interest and certain state and federal grants are accrued when their receipt occurs within three hundred sixty-five days after the end of the accounting period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and the sale of capital assets are reported as other financing sources.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are exchange or exchange-like transactions between functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. SAFCA did not have any of these types of transactions.

Cash and Investments

Pursuant to the Joint Exercise of Powers Agreement, the Treasurer of the County of Sacramento (County) has custody of all cash and investment balances and is the fiscal agent for SAFCA. All investments in the debt service fund represent funds for debt service payments and bond reserves; the remainder of SAFCA's cash is held in the County's cash and investment pool (as an involuntary participant) with other County funds. SAFCA's share of the pooled cash account is separately accounted for and interest earned, net of related expenses, is apportioned at the end of each quarter based upon the relationship of its daily cash balance to the total of the pooled account.

Investments are stated at fair value. However, the value of the pool shares in the County Treasurer's investment pool that may be withdrawn is determined on an amortized cost basis, which approximates fair value.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
 NOTES TO THE BASIC FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Capital assets are depreciated over their useful lives unless they are either inexhaustible or are infrastructure assets reported using the modified approach. Inexhaustible capital assets such as land, land improvements, and permanent easements are not depreciated.

Capital assets may be sold, abandoned, or traded in for new assets. Assets which have been retired or disposed of must be removed from capital accounts including related accumulated depreciation.

For simplicity and consistency, the straight-line depreciation method (cost divided by useful life) is used for depreciation of all depreciable capital assets. In addition, it will be assumed that the capital assets will have no salvage value. Right-to-use assets are amortized over the lease term.

SAFCA uses the following asset classifications, thresholds, and useful lives:

Capital Asset	Threshold	Useful Life
Equipment	\$5,000	5-10 years
Buildings and Improvements	\$100,000	40 years
Land and Permanent Easements	N/A- Capitalize All	No useful life assigned for inexhaustible assets
Infrastructure	\$3,000,000	40 years

Special Benefit Assessments

Special benefit assessments are recognized and apportioned only as received. The special benefit assessment is billed with the Sacramento and Sutter County property taxes. It is, however, not a property tax since it is exempt from the tax rate limitation pursuant to Article XIII A of the California Constitution. Assessments are payable in equal installments on November 1 and February 1. They become delinquent after December 10 and April 10, respectively. The assessment date is July 1 and the lien date is January 1 of each year.

Special Capital Assessments

Special capital assessments are levied on parcels of property in the Capital Assessment Districts to satisfy the annual debt service during the ensuing bond year. Although the annual special capital assessments constitute liens on the lots and parcels assessed, they do not constitute a personal indebtedness of the respective owners of the lots and parcels. Furthermore, there is no assurance as to the ability or the willingness of the owners to pay the special capital assessments.

The special capital assessments are levied annually on the County’s secured tax roll on which general taxes on real property are billed. The special capital assessments are payable and become delinquent at the same time and in the same proportionate amounts and bear the same proportionate penalties and interest after delinquency as do the general taxes except that accelerated foreclosure procedures are imposed. Amounts not received at year-end are delinquent. Special capital assessments are recognized and apportioned to SAFCA in installments.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Development Impact Fee

The Counties of Sacramento and Sutter, and the City of Sacramento (City), collect the Development Impact Fee as a condition of issuance of a building permit for any building, for which building permit is required, located in the Program Area (Lower American and Sacramento Rivers and their tributaries) that has a finished floor below elevation of 35.6 feet. As funds are collected by the Counties and City, the collections are remitted to SAFCA and recorded in SAFCA's Capital Projects Fund.

Receivables

SAFCA does not accrue an allowance for doubtful accounts for special benefit assessments as the Sacramento Area Flood Control Agency Act provides authority for accelerated judicial foreclosure in the event of nonpayment.

SAFCA does not accrue an allowance for doubtful accounts for special capital assessments as SAFCA participates in the County's Teeter Plan where the County has historically purchased 100 percent of SAFCA's delinquent assessments. Under the Teeter Plan, the County purchases the annual delinquent secured property taxes from the local taxing entities and selected special assessment districts in Sacramento County.

Due from other governments totals \$34,770,078 as of June 30, 2022, which is mostly comprised of \$8,374,061 related to the Urban Flood Risk Reduction Agreement, \$5,065,689 related to the Early Implementation Plan with the California Department of Water Resources, \$1,210,694 in development impact fees, and \$20,045,861 is due from the California Department of Water Resources for various reimbursements.

Deposits with others

Deposits with others in the capital projects fund, of \$3,469,290 is related to a deposit with the State Treasury- Condemnation Fund for eminent domain.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position may report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an expense/expenditure until then. Deferred outflows of resources consist of the loss incurred in refunding a prior bond issuance and deferred outflows related to pensions from changes in assumptions, differences between projected and actual investment earnings on pension plan investments, differences between employer's contributions and proportionate share of contributions and from contributions made subsequent to the measurement date and which will be recognized as a reduction of the net pension liability in the following year. As of June 30, 2022, the loss on debt refunding totaled \$10,162,439, net of accumulated amortization. Amortization of the loss on debt refunding is computed using the straight-line method, over the remaining life of the related bond. The deferred outflows related to pensions as of June 30, 2022 is \$377,750 and deferred outflows related to Other Postemployment Benefits OPEB is \$49,035.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position will sometimes report a section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. SAFCA has two items that qualify for reporting in this category. Deferred inflows related to pensions of \$591,837 and deferred inflows related to OPEB of \$89,580.

Prepaid Bond Insurance

Bond insurance is required by the issuance of the 2014 and 2020 revenue bonds in lieu of making a reserve fund deposit. As of June 30, 2022, prepaid bond insurance totaled \$171,844 net of accumulated amortization. Amortization of the prepaid bond insurance is computed using the straight-line method, over the remaining life of the related bond.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of SAFCA's California Public Employees Retirement System (CalPERS) plans and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and inflows of resources related to OPEB, and OPEB expense have been determined on the accrual basis of accounting. The OPEB Plan recognized benefit payments when due and payable in accordance with the benefit term. For the current fiscal year, additional contributions of \$32,198 and net changes in the deferred outflows and inflows of resources and related expenses resulted in a net OPEB asset of \$22,902.

Use of Estimates

The preparation of the financial statements requires the use of estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Fair Value Measurements

SAFCA categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

SAFCA is a participant in the Sacramento County Treasurer’s Pool (County Pool). The County Pool is an external investment pool, is not rated and is not registered with the Securities Exchange Commission (SEC). Cash on deposit in the County Pool at June 30, 2022, is stated at fair value. The County Pool values participant shares on an amortized cost basis during the year and adjusts to fair value at year-end. For further information regarding the County Pool, refer to the County of Sacramento Comprehensive Annual Financial Report, which is available on the County of Sacramento Auditor Controller Accounting and Financial Reporting webpage located at:

Effect of New Government Accounting Standard Board (GASB) Pronouncements

These statements are effective for fiscal year 2021-2022.

GASB Statement No. 87 – In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. As a result of the implementation of this Statement, SAFCA restated its Statement of Net Position to recognize the right-to-use lease asset and lease liability balance as of July 1, 2021. The effect of the implementation of this Statement is disclosed in Note 8.

GASB Statement No. 92 – In January 2020, GASB issued Statement No. 92, *Omnibus 2020*. The primary objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. SAFCA has determined that there was no effect on its financial statements.

GASB Statement No. 93 – In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. The primary objectives of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR (Interbank Offered Rate). SAFCA has determined that there was no effect on its financial statements.

GASB Statement No. 97 – In June 2020, GASB issued statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans- An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32*. The primary objectives of this Statement are to increase consistency and comparability related to the reporting of fiduciary component units, mitigate costs associated with reporting of certain defined contributions plans and enhance the relevance, consistency and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans. This Statement is effective for reporting periods beginning after June 15, 2021, or the 2021-2022 fiscal year. SAFCA has determined that there was no effect on its financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Effect of New Government Accounting Standard Board (GASB) Pronouncements (Continued)

GASB Statement No. 99, *Omnibus 2022*. Effective July 1, 2021, SAFCA implemented Statement No. 99, paragraphs 26-32 with the remaining paragraphs to be implemented in following years. The objective of this statement and these paragraphs are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issued that have been identified during implementation of certain GASB statements. SAFCA has determined that there is no effect on its financial statements.

NOTE 3 – FUND BALANCES AND NET POSITION

Fund Balance

Governmental funds report fund balance in classifications based primarily on the extent to which the SAFCA is bound to honor constraints on the specific purposes for which amounts in the funds can be spent.

As of June 30, 2022, fund balances for government funds are made up of the following:

- *Nonspendable Fund Balance* – includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact such as an endowment. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example: amounts held for perpetuity, prepaid amounts, and long-term receivables.
- *Restricted Fund Balance* – includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.
- *Committed Fund Balance* – includes amounts that can only be used for the specific purposes determined by a formal action of the SAFCA’s highest level of decision-making authority, SAFCA’s Board of Directors. Commitments may be changed or lifted only by SAFCA taking the same formal action that imposed the constraint originally. For SAFCA, the commitments would occur by a resolution approved by the Board of Directors.
- *Assigned Fund Balance* – comprises amounts intended to be used by the SAFCA for specific purposes that are neither restricted nor committed. Intent is expressed by (1) SAFCA’s Board of Directors or the Executive Director, or their nominee, to which SAFCA’s Board of Directors have delegated the authority to assign amounts to be used for specific purposes and to assign the residual amount for the capital projects and debt service funds.
- *Unassigned Fund Balance* – is the residual classification for the General Fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is generally depleted in the order of restricted, committed, assigned, and unassigned.

NOTE 4 – CASH AND INVESTMENTS

SAFCA’s cash and investments are held in the County Treasurer’s pool. In addition, the County, acting in a trustee capacity, established a separate cash and investments pool (fiscal agent pool) to segregate and invest monies in accordance with long-term obligation covenants.

Cash and investments as of June 30, 2022, consist of the following:

SAFCA maintains cash deposits and investments with the County and participates in the investment pool of the County, which is not rated by credit rating agencies. At June 30, 2022, SAFCA’s cash and investments and restricted cash and investments totaled \$155,450,411, and it was held in the Treasurer’s pool. SAFCA also has \$1,682,846 held in a Public Agency Retirement Services (PARS) trust for future pension obligations. SAFCA does not have a separate investment policy.

The County Treasurer’s investment pool is subject to regulatory oversight by the Treasury Oversight Committee, as required by Section 27134 of the California Government Code. The pool is not registered with the U.S Securities and Exchange Commission (SEC) as an investment company.

In addition to the restrictions and guidelines cited in the Government Code, the County Board of Supervisors annually adopts an “Annual Investment Policy for the Pooled Investment Fund” (Investment Policy). The Investment Policy is prepared by the Department of Finance and is based on criteria cited in the Government Code. The Investment Policy adds further specificity to investments permitted, reducing concentration within most permitted investment types and reducing concentration of investments with any broker, dealer or issuer.

The following table identifies investment types that are authorized by the California Government Code (Code) Section 53601 and the County’s Investment Policy (Policy).

Authorized Investment Type	Maximum Maturity (per Code/per policy)	Maximum Percentage of Portfolio (per Code/per policy)	Maximum Investment in One Issuer (per Code/per policy)	Minimum Rating Per S&P/Moody's/Fitch per policy

NOTE 4 – CASH AND INVESTMENTS (CONTINUED)

Investments Authorized by Debt Agreements

Investments of debt proceeds held by the bond trustee are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or SAFCA’s investment policy. Permitted investments include investments in the Sacramento County Pooled Investment Fund which is managed by the County of Sacramento Treasurer.

The table below identifies the investment types that are authorized for investments held by bond trustee. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

The maximum maturity of any investment will be five years. The dollar weighted average maturity of all securities will be equal to or less than three years.

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Maximum Percentage Allowed</u>	<u>Maximum Investment in One Issuer</u>
U.S Treasury Notes and Bills	5 years	N/A	None
U.S. Government Agencies	5 years	N/A	None
Single Issuer and Related Entities	5 years	80%	10%

Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Under the County’s Investment Policy, the dollar-weighted average maturity on all securities shall be equal to or less than three years. As of June 30, 2022, of the County’s \$7.3 billion in investments held by the Treasurer, over 70 percent of the investments have a maturity of six months or less. The weighted average days to maturity for the entire portfolio was 275 days.

Credit Risk

This is the risk that an issuer or other counterparty to a debt instrument will not fulfill its obligations. The County is permitted to hold investments of issuers with a short-term rating of superior capacity and a minimum long-term rating of upper medium grade by the top two nationally recognized statistical rating organizations (rating agencies). For short-term rating, the issuers’ rating must be A-1 and P-1, and the long-term rating must be A and A2, respectively by Standard & Poor’s and Moody’s rating agencies. In addition, the County is permitted to invest in the State’s Local Agency Investment Fund, collateralized certificates of deposits and notes issued by the County that are not-rated. SAFCA currently has no investments.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the amount of investment in a single issuer. U.S. Treasury and agency securities are considered to be of the best quality grade, as such, there is no limitation on amounts invested in U.S. Treasury or agency securities per California Government Code. SAFCA currently has no investments.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

NOTE 4 – CASH AND INVESTMENTS (CONTINUED)

Custodial Credit Risk

This is the risk that in the event a financial institution or counterparty fails, SAFCA would not be able to recover the value of its deposits and investments. As of June 30, 2022, 100% of SAFCA’s investments are held in SAFCA’s name and not exposed to custodial credit risk. SAFCA does not have a policy for custodial credit risk.

Fair Value Measurements

SAFCA categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The SAFCA’s assessment of the significance of particular inputs to these fair value measurements require judgements and considers factors specific to each asset or liability. Deposits and withdrawals from the County Pool are made on the basis of \$1 and not fair value. Accordingly, SAFCA’s proportionate share of investments in the County Pool at June 30, 2022 of \$155,450,411 is in an unclassified input not defined as a Level 1, Level 2, or Level 3 input.

NOTE 5 – INTERFUND TRANSACTIONS

Interfund transfers during the year ended June 30, 2022 are summarized as follows:

	General Fund	Capital Projects Fund	Total

2048	20,460,000	427,875
Total	<u>\$ 343,671,644</u>	<u>\$ 258,667,906</u>

On May 28, 2014, SAFCA issued \$35,350,000 of 2014 Natomas Basin Local Assessment District (NBLAD) Bonds with an interest rate of 5.000%. Proceeds from this issue were used to (i) prepay the outstanding amount of the SAFCA’s Bond Anticipation Notes, Series 2011 (ii) finance a portion of the cost of certain flood control facilities consisting of a series of levee and other flood control improvements to be acquired and constructed under and pursuant to the Act (iii) pay the cost of the Policy and a debt service reserve fund insurance policy and (iv) pay the costs of issuance of the Series 2014 Bonds. The bonds are secured by NBLAD assessments levied by the SAFCA on property in the SAFCA Natomas Basin Local Assessment District. SAFCA has covenanted that, so long as any Bonds are outstanding, it will annually levy in each fiscal year, through fiscal year 2052-2053, the NBLAD Assessments against all Assessable Land in the District not to exceed the maximum rates specified in the Final Engineer’s Report for the District dated April 28, 2011. The collection of NBLAD Assessments should be equal to at least one hundred ten percent (110%) of the annual debt service.

The Series 2014 Bonds maturing on or after October 1, 2025, are subject to optional redemption by the SAFCA. The Series 2014 Bonds maturing on October 1, 2039, and October 1, 2044, are subject to mandatory sinking fund redemption by SAFCA. Total principal and interest remaining on the NBLAD bonds, series 2014 is \$52,037,250 payable through October 2044. For fiscal year 2022, principal and interest paid and total assessment revenues collected were \$710,000, \$1,566,250, and \$3,102,246, respectively.

The ability of the Agency to pay the debt service on the Bonds depends on the ability of the Agency to collect NBLAD assessments. If a shortage exists in the Redemption Account to pay principal of or interest on the 2014 Bond, the Treasurer, as in Sacramento County Treasurer, has the duty to transfer the amount of such shortage from the 2014 Bond Series Reserve Account into the Redemption Account. If there are any additional shortages after exhaustion of the 2014 Bond Series Reserve Account, the Agency has no direct or contingent liability for payment of the 2014 Bonds in the event of default in the payment of NBLAD assessments, but does have the duty to undertake judicial foreclosure and other proceedings on delinquent parcels as covenanted in the Resolution 2014-033. There are no assets pledged as collateral and no terms specified with respect to default, early termination, or acceleration clauses within this agreement.

NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)

On October 20, 2016, SAFCA issued \$252,495,000 Consolidated Capital Assessment District No. 2 (CCAD No. 2) Bonds with an interest rate of 5.000% and \$25,700,000 (Federally Taxable) Consolidated Capital Assessment District No. 2 Bonds with interest rate ranging from 1.405% to 2.849%, pursuant to the Sacramento Area Flood Control Agency Act. The Series 2016 Bonds are secured by assessments levied by SAFCA on property in the SAFCA Consolidated Capital Assessment District No. 2. Proceeds of the Series 2016 Bonds were used to provide funds to (i) refund in full SAFCA's outstanding Capital Assessment District Bonds, Series 2007A, Series 2008, Series 2012, and Consolidated Capital Assessment District Subordinated Bonds, Series 2015, (ii) finance certain flood control facilities; (iii) pay the cost of a debt service reserve insurance policy to be issued by Assured Guaranty Municipal Corp.; (iv) fund capitalized interest on a portion of the Series 2016 Bonds through October 1, 2017; and (v) pay costs of issuance of the Series 2016 Bonds. The collection of CCAD No. 2 Assessments should be equal to at least one hundred ten percent (110%) of the annual debt service. Total principal and interest remaining on the Consolidated Capital Assessment District No. 2 Bonds, Series 2016 is \$443,367,723 payable through June 2046. For fiscal year 2022, principal and interest paid and the total assessment revenues collected were \$5,060,000, \$12,849,944, and \$29,253,179, respectively.

The ability of the Agency to pay the debt service on the Bonds depends on the ability of the Agency to collect CCAD No. 2 assessments. If a shortage exists in the Redemption Account to pay principal of or interest on the 2016 Bond, the Treasurer, as in Sacramento County Treasurer, has the duty to transfer the amount of such shortage from the 2016 Bond Series Reserve Account into the Redemption Account. If there are any additional shortages after exhaustion of the 2016 Bond Series Reserve Account, the Agency has no direct or contingent liability for payment of the 2016 Bonds in the event of default in the payment of CCAD. No 2 assessments, but does have the duty to undertake judicial foreclosure and other proceedings on delinquent parcels as covenanted in the Resolution 2016-108, as amended by Resolution 2016-114. There are no assets pledged as collateral and no terms specified with respect to default, early termination, or acceleration clauses within this agreement.

On March 25, 2020, SAFCA issued \$57,110,000 Consolidated Capital Assessment District No. 2 Bonds with an average interest rate of 4.261%, pursuant to the Sacramento Area Flood Control Agency Act. The Series 2020 Bonds are secured by assessments levied by SAFCA on property in the SAFCA Consolidated Capital Assessment District No. 2. Proceeds of the Series 2020 were used to provide funds to (i) finance certain facilities, (ii) pay the cost of the Policy and a debt service reserve fund insurance policy and (iii) pay the costs of issuance of the Series 2020 Bonds. Assessments should be equal to at least one hundred ten percent (110%) of the annual debt service. Total principal and interest remaining on the Consolidated Capital Assessment District No. 2 Bonds, Series 2020 is \$89,175,825 payable through October 2047. For fiscal year 2022, principal and interest payments were \$1,045,000 and \$2,404,975, respectively.

The ability of the Agency to pay the debt service on the Bonds depends on the ability of the Agency to collect CCAD No. 2 assessments. If a shortage exists in the Redemption Account to pay principal of or interest on the 2020 Bond, the Treasurer, as in Sacramento County Treasurer, has the duty to transfer the amount of such shortage from the 2020 Bond Series Reserve Account into the Redemption Account. If there are any additional shortages after exhaustion of the 2020 Bond Series Reserve Account, the Agency has no direct or contingent liability for payment of the 2020 Bonds in the event of default in the payment of CCAD. No 2 assessments, but does have the duty to undertake judicial foreclosure and other proceedings on delinquent parcels as covenanted in the Resolution 2016-108, and supplemented by Resolution 2020-023. There are no assets pledged as collateral and no terms specified with respect to default, early termination, or acceleration clauses within this agreement.

(1) Beginning balances were restated to include the lease liability as part of the implementation of GASB Statement No. 87 *Leases*. Refer to Note 8 for the effect of implementing this accounting standard.

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of investment income received at yields that exceed the issuer's tax-exempt borrowing rates. The U.S. Treasury requires payment every five years. The potential liability, if any, to be paid April 2023 will fluctuate based upon the stream of construction draw downs and changing investment yields. As of June 30, 2022, SAFCA has no arbitrage liability.

NOTE 8 – CHANGE IN ACCOUNTING PRINCIPLES

Effective July 1, 2021, SAFCA adopted Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The primary objective of this statement is to enhance the relevance and consistency of information about governments' leasing activities. This statement establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. For additional information on leases, refer to Note 9 below.

	June 30, 2021 as Previously Reported	Restatement	July 1, 2021 as Restated

NOTE 9 – LEASES

SAFCA entered into a lease agreement on April 26, 2019 for office and 12 parking spaces. The lease term is for three (3) years and ends on the last day of the calendar month that completes the three (3) full years from the commencement date. SAFCA also agreed to reimburse the lessor \$84,302 in improvement costs. The lease allows for two (2) one (1) year extensions. SAFCA entered into a lease agreement on September 16, 2021 for office and 46 parking spaces. The lease term is for 130 months and ends on the last day of the calendar month that completes 130 full months from the commencement date. SAFCA is responsible for \$470,101 in improvement costs. At this time, the commencement date is not known, as it is contingent on the lessor finishing the improvements agreed in the contract. The first lease will end at the commencement of the second lease.

The future minimum lease obligations and the net present value of the minimum lease payments as of June 30, 2022, were as follows:

<u>Fiscal Years Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>
2023	\$ 137,803	\$ 830
2024	140,807	303
2025	3,034	-
Total	<u>\$ 281,644</u>	<u>\$ 1,133</u>

NOTE 10 – RELATED PARTY TRANSACTIONS

For the year ended June 30, 2022, the County of Sacramento, a related party, owed SAFCA \$462,371 for interest earned on Treasury deposits and \$1,210,694 in development impact fees and other fees collected. SAFCA uses other County departments for other services, such as risk management, engineering, accounting, etc.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

Construction Commitments

As of June 30, 2022, SAFCA has eight open construction contracts. These contracts are cancelable at any time, with cause, upon five days written notice by the Board. The total amount of construction commitments of the Capital Projects Fund is approximately \$4,484,604.

Litigation

SAFCA is involved in various claims and litigation, which is considered normal to SAFCA’s regional planning activities. In the opinion of SAFCA’s management, SAFCA does not believe the ultimate resolution of these matters will have an adverse material effect on SAFCA's financial position.

Conveyance of Land

Several parcels of land and permanent easements acquired with funds from the Early Implementation Program, for the construction of levee projects are to be conveyed to the State of California. SAFCA will retain portions of the affected parcels. It is unknown when property titles will begin to get transferred, however there is a possibility for them to start occurring in the fiscal year ending June 30, 2023. The carrying value of the land parcels to be conveyed is not known as of June 30, 2022.

NOTE 11 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

Future Obligations

SAFCA signed an agreement to partner with the U.S. Army Corps of Engineers (COE) for the American River Watershed (Common Features) ARCF 2016 California project. There are two parts of this agreement, the National Economic Agreement (NED) plan is for an approximated cost of \$1,597,400,000, of which there is a local match of \$212,198,150 that is shared between the State of CA at 70% and SAFCA is responsible for 30%. The second part of the agreement is for the LPP incremental funds. The project cost is \$215,337,000 of which there is a local match of \$21,452,000, that is shared between the State of CA at 70%, and SAFCA is responsible for 30%. The project has not started yet, and the total cost is to be determined after the RFP is issued by the COE. At this point SAFCA’s future obligation for this project is unknown as of June 30, 2022.

NOTE 12 – RISK MANAGEMENT

SAFCA is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. SAFCA reports all of its risk management activities in its General Fund. SAFCA purchases commercial insurance for property damage and liability through an insurance agent, who obtains the appropriate insurance coverage needed by SAFCA from insurance companies. In addition, SAFCA participates in the County’s self-insurance program for workers’ compensation and employer’s liability. Annual premiums are based primarily on claims experience. Premiums paid for future accounting periods are recorded as a prepaid expense.

SAFCA deductibles and maximum coverage follows:

Coverage	Limits	Deductibles/SIR	Carrier	Effective Date	Policy Number or Memorandum Number
General Liability, Public Officials Liability and Automobile Liability	(1) \$25,000,000 Occurrence and Aggregate	\$250,000 SIR applies to General Liability, Public Officials Liability and Automobile Liability	(1) CSAC Excess Insurance Authority (2) Various Insurers	(1)7/1/21 - 7/1/22	(1) EIA-PE 21 EL 62

NOTE 13 – DEFINED BENEFIT PENSION PLAN

Plan Descriptions – All qualified permanent and probationary employees are eligible to participate in the SAFCA’s Miscellaneous Employee Pension Plan, a cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees’ Retirement System (CalPERS). SAFCA joined CalPERS in June 2015. Benefit provisions under the Plans are established by State statute and SAFCA resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information can be found on the CalPERS website at: <https://www.calpers.ca.gov/page/forms-publications>.

Benefits Provided – CalPERS provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees’ Retirement Law.

The Plan’s provisions and benefits in effect at June 30, 2022, are summarized as follows:

	Miscellaneous	
	Prior to January 1, 2013- Classic	On or after January 1, 2013 - PEPRA
Hire Date		
Formula	2.0% @ 55	2.0% @ 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life
Retirement age	50-67	52-67
Required employer contribution rates	11.91%	7.54%
Required employee contribution rates	7.00%	7.75%

Contributions – Section 20814(c) of the California Public Employees’ Retirement law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. SAFCA is required to contribute the difference between the actuarially determined rate and the contribution rates of employees.

For the year ended June 30, 2022, employer contributions were \$229,018.

NOTE 13 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2022, SAFCA reported its proportionate share of the net pension liability of \$346,867.

SAFCA's net pension liability is measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020, rolled forward to June 30, 2021 using standard update procedures. SAFCA's proportion of the net pension liability is based on a projection of SAFCA's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. SAFCA's proportionate share of the net pension liability measured as of June 30, 2021 was 0.0298 percent, an increase of 0.0012 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, SAFCA recognized pension credit of \$49,541. At June 30, 2022, SAFCA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 38,897	\$ -
Differences between projected and actual investment earnings on pension plan investments	-	302,797
Differences between employer's contributions and proportionate share of contributions	-	289,040
Changes in proportion	109,835	-
SAFCA pension contributions made subsequent to measurement date	229,018	-
Total	\$ 377,750	\$ 591,837

The amount of \$229,018 related to contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability during the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Fiscal Years Ending June 30	
2023	\$ (147,309)

NOTE 13 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Assumptions – The total pension liability for the June 30, 2021 measurement period was determined by an actuarial valuation as of June 30, 2020, with update procedures used to roll forward the total pension liability to June 30, 2021. The total pension liability was based on the following assumptions:

Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Investment rate of return	7.15%
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Mortality ¹	Derived using CalPERS’ membership data for all funds
Post Retirement Benefit Increase	Contract COLA up to 2.50% until purchasing power protection allowance floor on purchasing power applies

(1) The mortality table used was developed based on CalPERS's specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

Long-term Expected Rate of Return - The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds’ asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

NOTE 13 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

The expected real rates of return by asset class are as followed:

<u>Asset Class*</u>	<u>Assumed asset allocation</u>	<u>Real Return Years 1-10**</u>	<u>Real Return Years 11+***</u>
Global equity	50.00%	4.80%	5.98%
Fixed income	28.00%	1.00%	2.62%
Inflation assets	-	0.77%	1.81%
Private equity	8.00%	6.30%	7.23%
Real assets	13.00%	3.75%	4.93%
Liquidity	1.00%	-	-0.92%

* In the CalPERS ACFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

** An expected inflation of 2.00% used for this period.

*** An expected finflation of 2.92% used for this period.

Discount Rate - The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents SAFCA's proportionate share of the net pension liability, calculated using the 7.15% discount rate, as well as what SAFCA's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1- percentage point lower or 1- percentage point higher than the current rate:

	<u>Miscellaneous</u>
1% Decrease	6.15%
Net Pension Liability	\$ 1,131,851
Current Discount Rate	7.15%
Net Pension Liability	\$ 346,867

NOTE 14 – POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Plan Descriptions – All qualified permanent and probationary employees are eligible to participate in SAFCA’s Public Employees’ Medical & Hospital Care Act (PEMHCA) plan administered by the California Public Employees’ Retirement System (CalPERS), an agent multiple-employer defined benefit OPEB plan. This plan does not issue a stand-alone financial report. SAFCA joined PEMHCA in July 2015. Benefit provisions under PEMHCA are established by SAFCA resolution.

Benefits Provided – Employees hired after June 2, 2015 are eligible to receive the minimum required CalPERS monthly allowance for medical insurance after retirement. The actual employer contribution amount will be the amount required by CalPERS at the time of retirement. Some SAFCA employees currently are eligible to receive more than the CalPERS minimum. For these employees, the individual employment letter of agreement will document the methodology for providing a retirement health contribution as comparable to their existing benefit as possible.

Contribution Requirements – During the fiscal year ended June 30, 2022, SAFCA elected to participate in an irrevocable trust to provide a funding mechanism for retiree health benefits. The Trust, PARS Post-Employment Benefits Trust, is administrated and managed by the Public Agency Retirement Services (PARS). The actuarial valuation determined contributions of \$26,303, and SAFCA made a contribution of \$32,198 to the PARS Trust in fiscal year 2021-22

Employees covered - At the June 30, 2021 the measurement date, the following numbers of participants were covered by the benefit terms:

Inactives entitled to but not receiving benefits	5
Active employees	17
Total	22

Net OPEB Asset– SAFCA’s net OPEB asset of \$22,902 was measured as of June 30, 2021, and was determined by an actuarial valuation as of June 30, 2021.

Actuarial Assumptions – The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Assumption	June 30, 2021 Measurement Date
Actuarial Valuation Date	June 30, 2021
Salary Increases	Aggregate 2.75%, Merit - Tables from CalPERS 1997-2015 Experience Study

NOTE 15 – FUTURE GASB PRONOUNCEMENTS

The Governmental Accounting Standards Board (GASB) releases new accounting and financial reporting standards which may have a significant impact on the Commission's financial reporting process. Future new standards which may impact SAFCA include the following:

GASB Statement No. 91 – In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement is effective for reporting periods beginning after December 15, 2021, or the 2022-2023 fiscal year, as postponed by GASB Statement No. 95. SAFCA has not determined the effect, if any, of this Statement on its financial statements.

GASB Statement No. 94 – In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement is effective for reporting periods beginning after June 15, 2022, or the 2022-2023 fiscal year. SAFCA has not determined the effect, if any, of this Statement on its financial statements.

GASB Statement No. 96 – In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. The primary objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset – an intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. This Statement is effective June 15, 2022 or the 2022-2023 fiscal year. SAFCA has not determined the effect, if any, of this Statement on its financial statements.

NOTE 15 – FUTURE GASB PRONOUNCEMENTS (CONTINUED)

GASB Statement No. 99 - In April 2022, GASB issued Statement No. 99, *Omnibus 2022*. The primary objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement are effective as follows: The requirements related to leases, PPPs and SBITAs are effective for fiscal years beginning after June 15, 2022. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the Scope of GASB 53 are effective for fiscal years beginning after June 15, 2023. Effective July 1, 2021, SAFCA implemented Statement No. 99, paragraphs 26-32 with the remaining paragraphs to be implemented in following years. SAFCA has not determined the effect, if any, of this Statement on its financial statements.

GASB Statement No. 100 - In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. SAFCA has not determined the effect, if any, of this Statement on its financial statements.

GASB Statement No. 101 - In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. SAFCA has not determined the effect, if any, of this Statement on its financial statements.

NOTE 16 – COVID-19

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, customers, economies, and financial markets globally. At this time, SAFCA has determined that due to this health emergency, the cost of construction materials increased significantly, thus in the future SAFCA's construction expenses will most likely increase.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

NOTE 1 – BUDGET

SAFCA’s budget for the General Fund is prepared on the budgetary basis of accounting. Encumbrances not liquidated in the current year are added to the subsequent-year budget for reporting and control purposes.

Encumbrances, which are commitments related to the future purchase of goods or services, are recorded in the General Fund. Encumbrances outstanding at year-end do not constitute expenditures or liabilities. Unencumbered appropriations lapse at year-end and encumbrances outstanding at that time are reported as restricted, committed or assigned fund balance for subsequent-year expenditures.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Annual budgets are adopted on a budgetary basis and are used as a management control device for the General Fund. All annual appropriations lapse at fiscal year-end. The Director of Administration prepares and submits a proposed budget to the Board of Directors in May for review. After reviewing the proposed budget and making such revisions as it may deem advisable, a final budget is prepared and adopted no later than the June board meeting. Revisions to the adopted budget must be presented to the Board of Directors by the Director of Administration and approved by resolution. The legal level of budgetary control is at the functional level.

Independent Auditor’s Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Directors
Sacramento Area Flood Control Agency
Sacramento, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Sacramento Area Flood Control Agency (SAFCA), as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise SAFCA’s basic financial statements, and have issued our report thereon dated December 22, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered SAFCA’s internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of SAFCA’s internal control. Accordingly, we do not express an opinion on the effectiveness of SAFCA’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether SAFCA’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests

disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**SACRAMENTO AREA FLOOD CONTROL AGENCY
STATUS OF PRIOR YEAR FINDING
FISCAL YEAR ENDED JUNE 30, 2022**

Reference Number: 2021-001
Type of Finding: Material Weakness

Criteria

Under accounting principles generally accepted in the United States of America (GAAP), specifically, Governmental Accounting Standards Board (GASB) Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, receivables are recognized for expenditure-driven grants when the qualifying expenditures are incurred, at which time the corresponding revenue is also recognized, except in governmental funds, in which the revenue is deferred until available.

Condition

As part of its agreement with the California Department of Water Resources (DWR), SAFCA performs construction related work for various projects through the impacted flood areas within SAFCA's jurisdiction. Work performed under this agreement are reimbursable by DWR. SAFCA did not recognize the correct reimbursable amounts due from DWR and the corresponding revenues during the fiscal years ended June 30, 2021 and 2020.

Cause

The County of Sacramento, Department of Finance (DOF), is contracted with SAFCA to prepare their financial statements on yearly basis. During the year-end process, SAFCA provided the DOF with accurate financial information which included the amounts owed by the DWR. The revenue was not deferred due to a miscommunication between SAFCA and DOF.

Effect

SAFCA's June 30, 2021 and 2020 financial statements had understated assets (due from other governments) and corresponding revenue (state aid) in the amounts of \$5,700,101 and \$35,834,552 for the fiscal years ended June 30, 2021 and 2020, respectively. SAFCA has adjusted current year balances and has restated prior year financial statements to accurately reflect reimbursable amounts due from the DWR.

Recommendation

SAFCA should enhance their current process and procedures to review its outstanding agreements and potential receivables from DWR at year-end. SAFCA should ensure it captures and identifies all estimated reimbursable costs owed during its year-end close process for preparing its annual financial information, as well as be aware of any other similar expenditure-driven grants to ensure that the DOF is properly recording receivables in accordance with GAAP.

Managements Response

SAFCA reviews all outstanding agreements and receivables from DWR throughout the year, not only at year-end. Timely reimbursements from DWR are a constant challenge for SAFCA cashflow therefore, are monitored closely.

SAFCA and DOF will enhance communications to better follow Best Practices with the utilization of checklists and other tools with regards to the year-end closing process to ensure all revenues and expenditures are properly recorded. SAFCA and DOF will ensure all adjustments made on the yearly financial statements are communicated and reviewed.

Status

Implemented in fiscal year June 30, 2022.

Independent Auditor's Report on Compliance with Bond Covenants

Board of Directors
Sacramento Area Flood Control Agency
Sacramento, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Sacramento Area Flood Control Agency (SAFCA), as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise SAFCA's basic financial statements and have issued our report thereon dated December 22, 2022.

In connection with our audit, nothing came to our attention that caused us to believe that SAFCA failed to comply with the provisions of the Series 2014 Natomas Basin Local Assessment District Bonds, Resolution No. 2014-033, Article VII, Sections 7.01 to 7.12 and the Series 2016 and Series 2020 Consolidated Capital Assessment No. 2 Bonds, Resolution No. 2016-108, Article VII, Sections 7.01 to 7.12, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding SAFCA's noncompliance with the above referenced terms, covenants, provisions, or conditions of the Indenture, insofar as they relate to accounting matters.

This report is intended solely for the information and use management of SAFCA and its Board of Directors and is not intended to be and should not be used by anyone other than these specified parties.
