

**2015 AAIC WW-ADNI Meeting,
Washington DC**

K-ADNI Update

July 17th, 2015

Seong Yoon Kim, Seol Hee Han, Duk L. Na

Target Subjects

		WMH on MRI			Total
		minimal	moderate	severe	
HC, aMCI, vMCI, AD, SIVD					
Cognition	No cognitive impairment	50	-	-	50
	Mild cognitive impairment	200	50	50	300
	Mild dementia	50	50	50	150
Major Type		AD	Mixed	SIVD	

Inclusion / Exclusion criteria

Category	Evaluation Applied	Healthy Control (HC)	Mild Cognitive Impairment (MCI)				Dementias	
			E-MCI	V E-MCI	L-MCI	V L-MCI	AD	SIVD
Screening Test	K-MMSE	≥ -1.5 SD in Age, Gender, Edu norm	≥ 24				$18 \leq$ and < 26	
Cognitive Test	SVLT-E	≥ -1.0 SD in Age, Gender, Edu norm	$-1.5 \leq$ and < -1.0 SD		< -1.5 SD		< -1.5 SD	
ADL Impairment	Clinician's Evaluation	-	-				ADL Impaired	
Severity	CDR Rating	0	0.5				0.5 or 1.0	
Dignostic Criteria	Probable AD by NINCDS-ADRDA	-	-				Applied	-
Vascularity	Vasc. Risk Factors: more than 2 out of 5 (regardless of control) : HTN / DM/ Dyslipid/ Obesity(BMI >25) / Smoking	-	-	Yes	-	Yes	-	Yes
	AND							
	WMH Moderate or higher on MRI							
	AND							
Clinical judgment: Time correlation and Causality								

Inclusion / Exclusion criteria

Timeline of K-ADNI

- Year 3 (Nov. 2014 ~ Oct. 2015) of 6 year project
 - Original time line

Timeline of K-ADNI

- Year 3 (Nov. 2014 ~ Oct. 2015) of 6 year project
 - Original time line

- It turned out to be...

Updates from K-ADNI

- Subject recruitment still pending
 - Clinical sites ready for their first subjects.
 - MERS swept over Korean major hospitals for the last 2 months.

Updates from K-ADNI

- Subject recruitment still pending
 - Clinical sites ready for their first subjects.
 - MERS swept over Korean major hospitals for the last 2 months.

Updates from K-ADNI

- Subject recruitment still pending
 - Clinical sites ready for their first subjects.
 - MERS swept over Korean major hospitals for the last 2 months.

Updates from K-ADNI

- Major difficulties in K-ADNI clinical sites are;

Updates from K-ADNI

- Major difficulties in K-ADNI clinical sites are;
 - Slow accustomization to ADNI protocol
 - Not very familiar to participating site staffs

Clinical Evaluation

US-ADNI

- Clinical Dementia Rating
- Everyday Cognition (eCOG)
- Geriatric Depression Scale
- Modified Hachinski
- Functional Assessment Questionnaire (FAQ)

- Neuropsychiatric Inventory Questionnaire (NPI)

K-ADNI

- Clinical Dementia Rating
- K-eCOG
- Geriatric Depression Scale
- Modified Hachinski
- Functional Assessment Questionnaire (FAQ)
- Other functional
 - DAD, IQCODE
- Neuropsychiatric Inventory Questionnaire (NPI)

NP Tests

US-ADNI

- Alzheimer's Disease
Assessment Scale: ADAS
- American NART
- Boston Naming Test: BNT
- Category fluency: Animal
- Clock DT
- Logical memory: Immediate +
delayed recall
- MMSE, MoCA
- Rey AVLT
- TMT

K-ADNI

- Alzheimer's Disease
Assessment Scale: ADAS
- -
- K-BNT
- Category fluency: Animal
- Clock DT
- Logical memory: substituted
for VLT-E
- MMSE, MoCA-K
- AVLT
- TMT

Updates from K-ADNI

- Major difficulties in K-ADNI clinical sites are;
 - Slow accustomization to ADNI protocol
 - Not very familiar to participating site staffs

Updates from K-ADNI

- Major difficulties in K-ADNI clinical sites are;
 - Slow accustomization to ADNI protocol
 - Not very familiar to participating site staffs
 - eCRF system
 - Slow stabilization thru trial-and-error

Updates from K-ADNI

- Major difficulties in K-ADNI clinical sites are;
 - Slow accustomization to ADNI protocol
 - Not very familiar to participating site staffs
 - eCRF system
 - Slow stabilization thru trial-and-error
 - Collaboration between clinical, scientific, administrative, regulatory and IT staff essential

Updates from K-ADNI

- Major difficulties in K-ADNI clinical sites are;
 - Slow accustomization to ADNI protocol
 - Not very familiar to participating site staffs
 - eCRF system
 - Slow stabilization thru trial-and-error
 - Collaboration between clinical, scientific, administrative, regulatory and IT staff essential
 - Different design, implementation, data QA from previous drug trials, or cross-sectional registries.
