

KALTURA VIDEO CLOUD FOR EDUCATION

*Powering Real-Time, Live and VOD
Learning Experiences*

Video drives student engagement, interactive learning experiences and better learning outcomes. Kaltura Video Cloud for Education is a single platform purposefully built to power real-time, live and VOD experiences for online programs and virtual learning. The Kaltura Video Cloud for Education includes a range of products for virtual classrooms, lecture capture, webinars & live events, and student outreach -- all designed to create engaging, personalized, and accessible experiences on campus and beyond.

Virtual Classroom

Branded persistent rooms with advanced moderation controls, collaborative tools like whiteboard, screen share, content management playlist, breakout rooms, interactive live quizzing and HD video sharing.

Lecture Capture

Live stream and record any class on campus with Kaltura Lecture Capture, compatible with any lecture capture hardware. Schedule in advance or capture on the fly, and automatically publish to your LMS/VLE.

LMS Video Integrations

Create course video galleries, video assignments, and enjoy video creation tools, seamlessly integrated into the familiar LMS/VLE environments with gradebook integration and accessibility.

Video Portal

Branded media hub for sharing videos, class recordings and live events, securely and at scale, with search, auto transcription, video creation, editing and interactive tools.

Webinars & Live Events

Broadcast every event of any size, from athletics to guest lectures and presidential addresses. Quickly and easily create new live events and stream to an unlimited audience.

Video Messages

Send personalized video messages via email to prospective students, alumni, or colleagues across campus and grab your recipients' attention, track viewership in real-time and truly connect.

Powering Real-Time, Live and VOD Learning Experiences

Purpose Built for Learning

Kaltura Video Cloud for Education is a unified platform that supports virtual learning and communication needs – whether in a classroom, at home, in groups, or on the go – from online programs, remote learning, and live events to student outreach.

Lean-Forward Video Experiences

A suite of tools to create, embed and share immersive personalized video experiences for greater engagement and learning including interactive playback experience, interactive video paths, video quizzes, chapters, and hotspots.

Advanced Learning Analytics

Granular analytics on viewership with user-level heatmaps, insights on engagement, comparative analysis, and support for xAPI and Caliper Analytics that provide a window on learner behavior.

Accessible by Design

Kaltura products adhere to 508, CVAA, and WCAG 2.0 AA accessibility standards with workflows and tools such as transcription, translation, audio description, automatic chaptering, and much more for greater inclusion.

Integrated with Your LMS/VLE

Kaltura integrates with all major Learning Management Systems/Video Learning Environments, (Moodle, Canvas, Blackboard, Sakai) so you can seamlessly add video to the tools your users depend on.

Open, Flexible, Customizable

With its open APIs-based architecture Kaltura offers the ultimate in customization and flexibility. Kaltura is a leader in supporting and driving market-wide adoption of Open Standards including Open Capture and Learning Analytics (LTI 1.3, LTI Advantage, xAPI, Caliper).

About Kaltura

With the mission to power any video experience, Kaltura has emerged as the fastest growing video cloud. Kaltura is used globally in thousands of enterprises, media companies, service providers, and educational institutions and engages hundreds of millions of viewers at home, at work, and at school.
