# Kaltura Video Cloud for K12 Education

Powering Real-Time, Live, and VOD Experiences

Video drives student engagement, interactive learning experiences and better learning outcomes. Kaltura Video Cloud for Education is a single platform purposefully built to power real-time, live and VOD experiences for online programs and virtual learning. The Kaltura Video Cloud for Education includes a range of products for virtual classrooms, lecture capture, webinars & live events, community outreach, and alumni—all designed to create engaging, personalized, and accessible experiences in the classroom and beyond

Video Portal

Branded communication hub for students and families to share videos, class recordings, and live events securely, with search, auto transcription and translation, video creation, editing and interactive tools

Capture Suite

Create, stream, and record any class, event, or teacher professional development with Kaltura's Capture Suite. Enjoy Express, Personal, and Classroom Capture— schedule in advance or use on the fly, and automatically publish content anywhere

LMS/VLE Video Integrations

Create course video galleries, video assignments, and enjoy video creation tools, seamlessly integrated into the familiar LMS/VLE environments with gradebook integration and accessibility
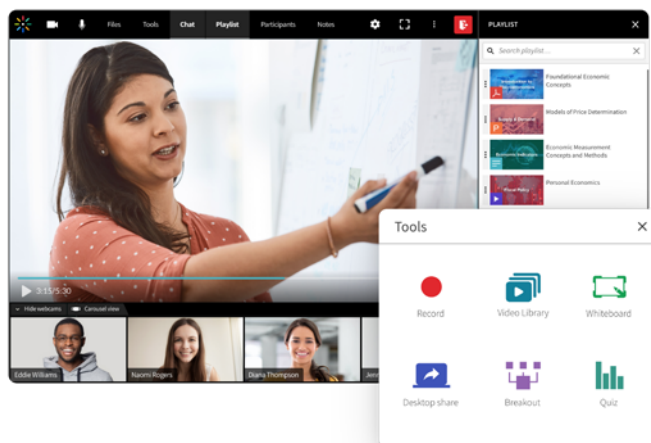

Video Classroom

Branded persistent rooms with advanced moderation controls, collaborative tools like whiteboard, screen share, content management playlist, breakout rooms, interactive live quizzing and HD video sharing

Webinars and Live Events

Broadcast every event of any size, from athletics to guest speakers and presidential addresses. Quickly and easily create new live events and stream to an unlimited audience

Video Messages

Communicate with personalized video messages via email to teachers, students, and their families— grab your recipients' attention and track viewership in real-time and truly connect

Key Features

Purpose Built for Learning

Kaltura Video Cloud for Education is a unified platform that supports virtual learning and communication needs – whether in a classroom, at home, in groups, or on the go – from online programs, remote learning, and live events to community outreach.

Lean-Forward Video Experiences

A suite of tools to create, embed and share immersive personalized video experiences for greater engagement and learning including interactive playback experience, interactive video paths, video quizzes, chapters, and hotspots.

Advanced Learning Analytics

Granular analytics on viewership with user–level heatmaps, insights on engagement, comparative analysis, and support for xAPI and Caliper Analytics that provide a window on learner behavior.

Accessible by Design

Kaltura products adhere to 508, CVAA, and WCAG 2.0 AA accessibility standards with workflows and tools such as transcription, translation, audio description, automatic chaptering, and much more for greater inclusion.

Integrated with Your LMS/VLE

Kaltura integrates with all major Learning Management Systems/Video Learning Environments (Canvas, Blackboard, Moodle, and Schoology) and other LTI compliant LMS with Kaltura's KAF, so you can seamlessly add video to the tools your users depend on.

Open, Flexible, Customizable

With its open APIs-based architecture Kaltura offers the ultimate in customization and flexibility. Kaltura is a leader in supporting and driving market-wide adoption of Open Standards with Open Capture and Learning Analytics (LTI 1.3, LTI Advantage, xAPI, Caliper).

The Kaltura Video Cloud powers any video experience for any organization. Our broad set of solutions power video for hundreds of millions of viewers at home, at work, and at school.
