

Kaltura Meetings

Video conferencing for the modern workplace

Launch engaging collaboration spaces in a click. With an interactive whiteboard, shared notes, chat, and shared content playlist, discussions are not only efficient, they're fun! Collaboration spaces are always available, so you can come back to the conversation exactly where you left off. Whether you're brainstorming, conducting weekly meetings with customers, or working as a task force – Kaltura Meetings will help you work better together.

Be There In A Click

One click to join virtual collaboration spaces where team members interact face-to-face from anywhere and on any device. Even guests!
No installations or downloads required.

Continue Right Where You Left Off

With persistent collaboration spaces, hosts can prepare rooms in advance, customize and brand them, leave, come back, and continue where they left off.

Work Better Together

Collaboration tools like digital whiteboards, shared meeting notes, and chat keep teams focused and actively engaged in the conversation.

Share Your Work

Share your entire screen or an application, upload shared files and presentations, and watch videos in HD together.

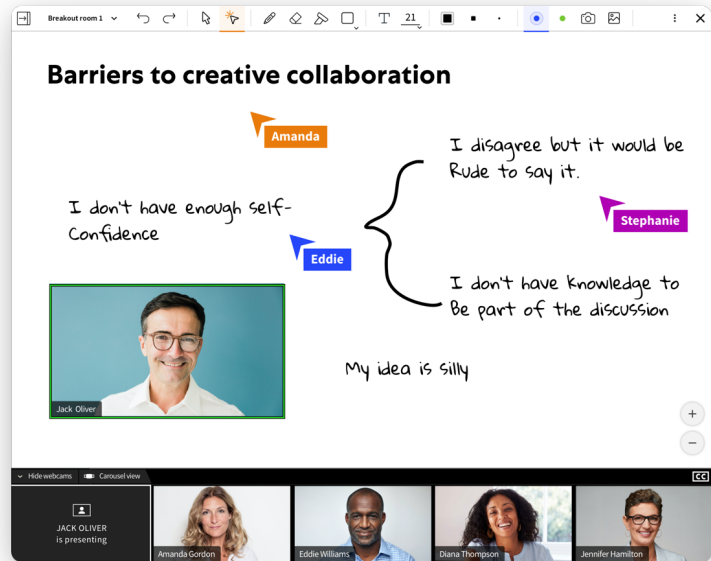

Integrated With Your Systems

Integrated into Microsoft Teams, user management (SSO), and other platforms and workflows.

Never Miss A Meeting

With cloud recordings that go directly into your Kaltura Video Portal, automatic transcription, editing, and analytics, everyone can catch up on what they missed.
